MEMORANDUM August 13, 2021

TO: Board Members

FROM: Millard L. House II
Superintendent of Schools

SUBJECT: **DISTRICT AND SCHOOL RESULTS FROM THE SPRING 2021 STAAR ASSESSMENTS FOR GRADES 3 THROUGH 8**

CONTACT: Allison Matney, (713) 556-6700

In spring 2021, over 63,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science, and social studies. At grades 3–8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

Due to the global COVID-19 pandemic, all 2019–2020 STAAR assessments were canceled. For Spring 2021, the Texas Education Agency (TEA) allowed students engaged in remote learning to opt-out of STAAR testing without penalty as all testing during the Spring 2021 administration was required to be done in person. Due to these decisions, comparisons between Spring 2019 and Spring 2021 STAAR 3–8 results should not be made.

This report provides the results for the spring 2021 assessments of STAAR, STAAR Spanish, and STAAR Alternate 2 for Students with Disabilities. Assessment participations rates are presented in lieu of year-to-year comparisons when applicable.

STAAR Exam Versions

The STAAR exam has two versions:

- **STAAR** is available to all students in grades 3–8 who do not qualify for the STAAR Alternate 2 assessment. A Spanish version is available for grades 3–5.
- **STAAR Alternate 2 (STAAR Alt. 2)** is an assessment for students in grades 3–8 with significant cognitive disabilities receiving special education services.

Key Findings:

- Reading performance at the Meets Grade Level standard ranged from 26% in grade 6 to 40% in grade 5 with an overall participation rate of 72% for all students tested.
- Math performance at the Meets Grade Level standard ranged from 15% in grade 8 to 33% in grade 5 with an overall participation rate of 71% for all students tested.
- Writing performance at the Meets Grade Level standard was 20% in grade 4 and 24% in grade 7 with an overall participation rate of 72% for all students tested.
- Science performance at the Meets Grade Level standard was 21% in grade 5 and 27% in grade 8 with an overall participation rate of 67% for all students tested.
- Eighth grade social studies performance at the Meets Grade Level standard was 15% with a participation rate of 57%.

- The percentage of HISD students scoring at or above the Approaches, Meets, and Masters Grade Level standards was lower than students at the State level across all grades and subjects. (Figure 2)
- The percentage of Economically Disadvantaged Students performing at or above the Approaches Grade Level standard ranged from 30% in social studies to 52% in reading. (Figures 15)
- The percentage of English Learners performing at or above the Approaches Grade Level standard ranged from 14% in social studies to 45% in reading. (Figure 10)
- The percentage of Students with Disabilities at the Approaches Grade Level standard ranged from 11% in social studies to 21% in reading. (Figure 12)

Administrative Response to the 2021 STAAR results for grades 3–8:

Elementary Curriculum and Development
I am working in collaboration with the Elementary Curriculum and Development Department on the implementation of the Reading and Literacy plan and addressing the mathematics gaps identified in this report.

For both subjects, a Universal Design for Learning (UDL) Team has been established to use the principles of UDL in the elementary curriculum documents to provide an intense focus on student special populations: Special Education, English Language Learners, and Gifted and Talented Students across all content areas-Reading, Math, and Science. The UDL Team will work with content curriculum specialists to collaborate and implement UDL best practices and support teachers in planning and meeting the needs of all learners. The UDL Team will create UDL strategies for students in grades 3-5 and provide teachers with professional development on how to integrate the UDL framework into their daily teaching practice. Progress monitoring for current and upcoming data will assist with prioritizing supports for teachers and students.

Elementary Reading Language Arts
The Reading and Literacy Plan entails the implementation of the House Bill 3 (HB3) Reading Academies, with Grade 1 and Tier II leaders being the target stakeholders for the 2021–22 school year. Phase one of this initiative was implemented last school year and included kindergarten teachers, special education teachers, and elementary school principals. The purpose of the HB3 Reading Academies is to increase teachers' and principals' knowledge and implementation of evidence-based practices to positively impact student literacy achievement; therefore, closing achievement gaps among all of our students.

Our curriculum documents, unit planning guides, and HUB planners have been revamped to provide explicit instructions on how to engage our students and enhance rigorous instruction during the reading and language arts teaching block. Scholars will be able to demonstrate skill mastery by using more open-ended responses using available technology. This improved alignment will allow students to be prepared for future online assessments. Teacher Development Specialist (TDS) will build teaching capacity, which will improve student achievement in priority campuses by providing staff development, lesson modeling, co-teaching opportunities, and offering coaching feedback to teachers and school leadership teams.

Elementary Mathematics
In the primary grades we are providing the HB3 Math Literacy Plan which entails our Kinder through Grade 3 Math Academies with Grade 2 being the focus area for the upcoming 2021–22 school year. Houston ISD will continue to provide Kinder, First, Second, and Third Grade (K–3) teachers with targeted mathematics professional learning. Phase One began in 2020–21 and Phase Two in Summer 2021. Over the implementation of HB3 Math Academy, Houston ISD will continue to collaborate with Math Perspectives, Texas Education Agency, and Regional Centers through these scopes of work: professional learning sessions and administrator trainings. Each scope of work will focus on classroom application of foundational mathematics knowledge, best practices for the math classroom, and skills as well as how district and campus administrators can best support and monitor effective math instruction.

The focus of the collaboration is to ensure every Kindergarten, First, Second, and Third Grade mathematics teacher is equipped with content capacity to increase their students conceptual understanding and fluency development. One key component of the plan is to provide priority selected campuses with HB3 Math TDSs to support their math teachers with conceptual development and fluency. This plan is designed to enhance teacher knowledge, skills, and instructional practice, which in turn increases student achievement and is differentiated by grade-level.

In intermediate grades we are providing additional formative checks for understanding to progress monitor instruction by unit. These formative assessments have been created in the OnTrack reporting system to provide teachers with immediate data to use as they provide ongoing instructional support to math students. In addition, we are embedding the new item types in these assessments to increase teacher and student exposure before the upcoming 2023 online STAAR assessment. Based on the math report, priority campuses will receive additional support by district office with grades 3-5 math teachers which includes but is not limited to: professional development, coaching, norming walks, planning PLCs, and administrator check-ins to customize support, upon request.

To support with the acceleration of math instruction, the elementary math team is creating multiple curriculum resources. Some of these key resources include:

- Learning Recovery Days: These days are embedded into the school year and provide a full-day for instruction that is vertically aligned to prior grade-level student expectations. The planning guides provide recommended activities and checks for understanding for these days.
- TEKS-based mini-lessons: These instructional times are embedded into the math block and provide opportunity to review previously taught materials whether from the previous grade level or previous unit of instruction. The planning guides provide recommended explore, review, and practice activities.
- Daily routines: These numerical fluency activities are either number talks or number of the day that build student automaticity and fluency.
- Problem of the day: These contextual, TEKS-based math problems reinforce previously taught curriculum from vertically aligned grade level or previously taught unit of instruction.

The elementary math Teacher Development Specialists (TDSs) are poised to provide campuses identified using this report with increased support in grades 3, grade 4, and grade 5. Currently, TDSs are receiving in-depth training and development to ensure their support on campuses is

TEKS-specific, grounded in best practices, follows student-centered coaching model, and aligned to board goals. The support will focus on the following:

- Developing and facilitating coaching plans based on teacher and campus needs;
- Developing model/master teachers;
- Organizing and assisting with Professional Learning Communities (PLCs);
- Conducting model lessons using a co-teaching model;
- Facilitating data analysis protocols; and
- Assisting with instructional planning.

In response to this report, we have added new math professional development sessions for our upcoming school year, including summer 2021. These sessions focus on building teacher math capacity, norming math best practices shown to increase student engagement and achievement, and delivery of accessible math instruction to meet the needs of all learners. Sessions include:

- Do the Math: These are grade-specific sessions focus on upcoming unit of instruction and student-centered learning offered in English and Spanish.
- Supporting Students in the Math Classroom Series: ELs, GT, IAT, and SWDs are the four current session concentrations.
- The New Math Teacher: Targets year 1–3 math teachers and focuses on building content capacity and just-in-time resources.
- Backwards Planning and Planning for the Bilingual Classroom: Provides a blueprint for TEKS-based math instruction.

Our next steps are to continue to implement the 2020–21 Grade 3 HB3 Mathematics Literacy Plan which includes progress monitoring for upcoming data points, provide job-embedded coaching to our math teachers, create TEKS-aligned resources and activities, collaborate with all stakeholder (e.g., area offices, HISD departments, campus administrators, etc.) to create customized campus and teacher math plans, facilitate professional development sessions that focus on meeting the needs of all our students including special populations, and progress monitor campus, teacher, and student growth using district data reports.

Secondary Curriculum and Development

Literacy across the curriculum will continue to be a focus area in the 2021-2022 school year and will be supported through aligned curriculum professional learning during preservice Academics Days, early release professional learning, and job embedded coaching. Targeted development opportunities for the core foundation teachers will also be provided.

- English Language Arts (ELA) teachers will receive professional development and resources designed to support the development of students as writers and refine collaboration and feedback around writing samples.
- In Mathematics, there will be focus on instruction and strategies that allow students to master a learning progression from concrete to abstract. This focus will be included in professional development as well as the master course content.
- Social Studies teachers will receive professional development regarding instruction that emphasizes literacy skills using the district master course lessons.
- Science teachers will receive support on using planning protocols to ensure consistent alignment to and monitoring of students in science instruction. In addition, support for science master course development will be expanded.

Special Populations
In response to this report, the Special Populations Department is implementing a prescriptive plan to provide district level support to principals and teachers regarding teaching and learning for each individual student.

The Interventions Office supports the District's Goals/Strategic plan by meeting the needs of scholars being served through Response to Intervention (RtI), Intervention Assistance Team (IAT), Dyslexia Services, and Section 504. Texas Senate Bill 1153 requires districts to communicate with families if their child is receiving intervention support. Parents of students receiving RtI interventions for either academics or behavior will receive a Parent Letter for Intervention and a Designated Supports Parent Letter if their student is receiving accommodations. Parents of students receiving support through IAT are invited to be a partner in the IAT Meeting and will receive an IAT Intervention Plan. Students receiving dyslexia services will receive their annual invitation to attend a Section 504 meeting and receive progress monitoring updates throughout the school year. Students being serviced on a Section 504 plan will be invited to attend their child's annual Section 504 meeting. Parents of students receiving RtI, IAT, Dyslexia, and Section 504 services are encouraged to reach out to their child's campus to request an IAT meeting if there are any additional concerns.

The Gifted and Talented (GT) Department will continue to support campus staff with a focus on compacted and tiered instruction, depth and complexity, and targeted instruction based on student performance data and identified supports in the Gifted Education Plans. The six GT Program Specialists are strategically aligned with each of the District Area Offices and deployed to campuses based on instructional support needs. Specialists will continue to work directly with campus and area leaders to provide support with professional development, modeling, and instructional design and delivery focused on differentiation, critical thinking, and transference and application of learners' skills.

The virtual learning team will provide additional layers of support by leveraging all online learning platforms. Collaborative meetings with Area Superintendents, SSOs, and Campus Stakeholders will be held to identify campus needs for 6th through 8th grade students. Virtual Learning Support Plans where campuses can use STAAR tutorial features, custom student learning options, and hybrid teaching models to diagnose student strength and weaknesses and create individualize remediation lessons to address student deficits via the Apex Platform will be developed.

For kindergarten through 5th grade, the virtual learning team will develop Level Up Support Plans in which campuses can use STAAR tutorial features, custom student learning options, and hybrid teaching models to diagnose student strength and weaknesses and create individualize remediation lessons to address student deficits in Math and Reading via the Imagine Learning Platform.

The Office of Special Education Services (OSES) will continue to focus on the IEP content, development, and data-driven progress monitoring toward IEP goal mastery with fidelity, aligning instructional strategies with an emphasis on Specially Designed Instruction (SDI), and continuing instructional delivering through a continuum of services, which include, but are not limited to, inclusive practices, resources, and co-teaching models for optimum outcomes for students with disabilities.

Should you have further questions, please contact Allison Matney in Research and Accountability at (713) 556-6700.

District and School Results from the State of Texas Assessments of Academic Readiness (STAAR) Grades 3–8, Spring 2021

In spring 2021, over 63,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science, and social studies. STAAR is the state testing program that was implemented in the 2011–2012 school year. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed the STAAR program in response to requirements set forth by the 80th and 81st Texas legislatures. STAAR is an assessment program designed to measure the extent to which students have learned and are able to apply the knowledge and skills defined in the state-mandated curriculum standards, the Texas Essential Knowledge and Skills (TEKS).

At grades 3–8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

Due to the global COVID-19 pandemic, all 2019–2020 STAAR assessments were canceled. For Spring 2021, the Texas Education Agency (TEA) allowed students engaged in remote learning to opt-out of STAAR testing without penalty as all testing during the Spring 2021 administration was required to be done in person. Due to these decisions, comparisons between Spring 2019 and Spring 2021 STAAR 3–8 results should not be made.

This report provides the results for the spring 2021 assessments of STAAR, STAAR Spanish, and STAAR Alternate 2 for Students with Disabilities. Assessment participations rates are presented in lieu of year-to-year comparisons when applicable.

STAAR Exam Versions

The STAAR exam has two versions:

- **STAAR** is available to all students in grades 3–8 who do not qualify for the STAAR Alternate 2 assessment. A Spanish version is available for grades 3–5.
- **STAAR Alternate 2 (STAAR Alt. 2)** is an assessment for students in grades 3–8 with significant cognitive disabilities receiving special education services.

STAAR Administrations

The STAAR assessment calendar is shown on the following page and displays the various districtwide tests administered during the spring of 2021 for students enrolled in grades 3–8. All STAAR tests have a four-hour time limit; however, students who meet eligibility criteria may have accommodations for extra time or an extra day. Due to COVID-19, the promotion requirements for Grades 5 and 8 reading and math, as defined by the Student Success Initiative, were waived and all retesting administrations were canceled.

2020–2021 STAAR ASSESSMENT CALENDAR Grades 3-8, Spring 2021		
Test Date(s)	**STAAR Subject**	**Grade Levels**

Figures and Tables:

- **Tables 1–3** present HISD and state STAAR results for English and English and Spanish combined.
- A detailed look at the performance of students with disabilities by test version is presented in **Table 4**.
- **Figures 1–20** provide STAAR performance comparisons by grade, subject, race/ethnicity, student group (students with disabilities, English Learners, gifted and talented, economically disadvantaged), test version (STAAR English, Spanish, and Alternate 2), and gender (female, and male). While not reported in the STAAR results, foster care, migrant, and homeless student results were reviewed and considered in strategic decision making.
- **Appendices A–C** provide results by campus.

Key Findings for STAAR English and Spanish Combined:

- Reading performance at the Meets Grade Level standard ranged from 26% in grade 6 to 40% in grade 5 with an overall participation rate of 72% for all students tested.
- Math performance at the Meets Grade Level standard ranged from 15% in grade 8 to 33% in grade 5 with an overall participation rate of 71% for all students tested.
- Writing performance at the Meets Grade Level standard was 20% in grade 4 and 24% in grade 7 with an overall participation rate of 72% for all students tested.
- Science performance at the Meets Grade Level standard was 21% in grade 5 and 27% in grade 8 with an overall participation rate of 67% for all students tested.
- Eighth grade social studies performance at the Meets Grade Level standard was 15% with a participation rate of 57%.
- The percentage of HISD students scoring at or above the Approaches, Meets, and Masters Grade Level standards was lower than students at the State level across all grades and subjects. **(Figure 2)**
- The percentage of Economically Disadvantaged Students performing at or above the Approaches Grade Level standard ranged from 30% in social studies to 52% in reading. **(Figures 15)**
- The percentage of English Learners performing at or above the Approaches Grade Level standard ranged from 14% in social studies to 45% in reading. **(Figure 10)**
- The percentage of Students with Disabilities at the Approaches Grade Level standard ranged from 11% in social studies to 21% in reading. **(Figure 12)**
