Docents to Go

Egypt, Paleontology and Texas Wildlife presentations complete with real artifacts and specimens!

Wednesday, June 18 | 10:30 AM

Happy the Clown

This exciting clown show includes wonderful magic tricks, delightful jokes, tons of fun, games, contests and lots of audience participation.

Wednesday, June 25 | 10:30 AM

Steve Burton's Magical Entertainment

A family-friendly magic show that includes live animals, comedy, music and special treats for all helpers

Wednesday, July 2 | 10:30 AM

Jungle Jim's Wild Encounters

Jungle Jim brings bugs and small animals from all over the world for this exciting program: a learning experience you will never forget!

Wednesday, July 9 | 10:30 AM

Gymboree

Toddlers can enjoy a 30 minute storytime presentation with bubbles, finger puppets, and parachute activities.

Wednesday, July 16 | 10:30 AM

Nature Discovery Center

Join the Insect Club

Watch an engaging, interactive puppet show about animals who want to join the insect club. Learn facts about insects, spiders, and other animals. This program is best for ages 4-8 but all are welcome!

Wednesday, July 23 | 10:30 AM

CJH BakeLab

Keep things exciting and "sweet" with this enrichment program that introduces kids to art, science and math through a fun and innovative curriculum of art, design, formulation chemistry, and engineering.

Intro to Chemistry

An art lesson using edible clay and candy as the medium for a 3-D atomic model to demonstrate molecular composition of matter and its three states

Wednesday, July 30 | 10:30 AM
