

WHAP SUMMER READING ASSIGNMENT SPECS

A History of the World in 6 Glasses
by Tom Standage

The book needs to be completely read and understood by the first day of school.

Your first exam will be over this book will be at the end of the first week. There is no better way to prove to your teacher that you are a serious and prepared student of history than to walk into class having mastered this book. 6 Glasses is a fantastic way to experience the history of the world through one specific dimension - drink. You will learn a perspective on the world that will be invaluable in preparing you for the scope and depth of the course.

How can I get help throughout the summer?

You are not alone in this.

I will provide help to you as you make your way through the book. Do not be shy about asking questions. I have formed an **EDMODO GROUP** that is your 24/7 online source to ask question of each other or myself. This will provide you with a push to complete the book. There is no better way to know something with depth and clarity than to help someone else understand it. I will be reading it also and posting KCs & E?s to consider.

I will also be posting short videos on the Edmodo Group Page that correspond with each section of the book to help you understand it, in terms of how it relates to World History AP. Please do not hesitate to POST if you have any questions while reading over the summer.
