

# Ensuring Exceptional Futures

Love Kids. Love Learning.

## *House Bill 5 College and Career Summit*

March 3, 2017

In partnership with the West Houston P-16 Council, Region 4 Education Service Center (Region 4) invites you to a special event that will bring together educators from across the region in a powerful network to maximize opportunities for students through a focus on post-secondary readiness. The **House Bill 5 (HB 5) College and Career Summit** will provide the opportunity for district and campus staff to hear a keynote address from Deputy Commissioner Dr. David Gardner of the Higher Education Coordinating Board, participate in large- and small-group break-out sessions on a variety of crucial topics, and network with others.

The goal of this half-day of learning is to bring together the overarching goals of our state's 60x30TX initiative, HB 5, and the exploration of industry/post-secondary partnerships to clearly pave the pathway for student success. The diverse speakers at this event represent a number of areas, including the Texas Education Agency, Texas OnCourse, Educate Texas, Workforce Solutions, Career and Technical Education, and local community college partners.

This event is also designed to support districts in connecting these crucial topics to accountability indicator Domain IV: Post-Secondary Readiness. All districts within the Region 4 area are invited to attend.
