** PE & Electives: will notify what supplies are needed during the 1st week of school.

Sciencsarus

It is highly suggested that you purchase a ScienceSaurus reference book for your child. There will be many assignments given throughout the year that require this book. Each classroom has a few copies as does the library, but it will be much more convenient if you have one at home. Your child will use this same reference book for 6th, 7th and 8th grade science.

The middle school version has a green cover. Both soft and hard cover books are equally acceptable and the edition (year) does not really matter. I suggest getting a used copy online at Amazon.com or any site of your choice. Used copies can often be found for \$5.00 or less. Please do not count on finding this at a brick and mortar type bookstore. The few copies they have sell out very quickly. Buying a used copy online is your best bet.
