

IMAGINE THE POSSIBILITIES THIS 2021-2022 SCHOOL YEAR

We're **MAKING UP** for **LOST TIME** and **TRAINING OUR EYES** on the **FUTURE—JOIN US!**

If your child needs support to fill in the gaps of learning and socializing that were missed in 2020, our programs for students in grades K-6 are here for you! We partner with local schools to complement the learning they offer with our own robust curriculum for elementary schoolers.

Together, we'll get back in the learning groove after an atypical school year. Our programs take extra-special care of the hearts and minds of every student as we navigate this new phase of the pandemic.

When your child joins us, you can rest assured they'll have:

Healthy Bodies

- A clean and safe environment with industry-leading health and safety protocols
- Small stable group structure with the same peers and educators to keep everyone safer

Happy Hearts

- A positive anti-bias classroom culture, fostered through student-centered class meetings, social emotional learning activities, and daily mindfulness practice
- Time each day to check in and build community, trust, and connection with one another

Growing Minds

- Project-based STEM learning activities, art, outdoor play, homework help, and distance learning support
- Special pandemic-response curriculum designed for students to build resilience from past experiences, and imagine the possibilities for the future

Every family is doing their best to make the schooling and care decisions that work best for themselves and their children. That's why flexibility is built into our program—so you can get the support you need, when you need it.
