22 I know and follow the rules when working on the Internet. 24 I can open the Internet from the desktop icon. 25 I know what the close button is and can use it to close a website. 26 I know what the scroll bar is. 27 I can scroll up and down. 28 I know what the mouse pointer is. 29 I know what a hyperlink is. 30 I know to avoid advertisements on the Internet. 31 I know what personal information is. 33 I know what to do if I accidentally go to the wrong place on the Internet. 34 I know what to do if I accidentally go to the wrong place on the Internet. 35 I can name an Internet safety rule. 36 I understand the purpose of a visual mapping program (to organize ideas). 38 I can use both text and pictures in a visual mapping program.	20	flash drive
23I know and follow the rules when working on the Internet.24I can open the Internet from the desktop icon.25I know what the close button is and can use it to close a website.26I know what the scroll bar is.27I can scroll up and down.28I know what the mouse pointer is.29I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know what to do if I accidentally go to the wrong place on the Internet.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I37I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	21	hard drive
24I can open the Internet from the desktop icon.25I know what the close button is and can use it to close a website.26I know what the scroll bar is.27I can scroll up and down.28I know what the mouse pointer is.29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know what personal information is.32I know what to do if I accidentally go to the wrong place on the Internet.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	22	
25I know what the close button is and can use it to close a website.26I know what the scroll bar is.27I can scroll up and down.28I know what the mouse pointer is.29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know what personal information is.32I know what to do if I accidentally go to the wrong place on the Internet.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I37I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	23	I know and follow the rules when working on the Internet.
26I know what the scroll bar is.27I can scroll up and down.28I know what the mouse pointer is.29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.363738I can use both text and pictures in a visual mapping program.	24	I can open the Internet from the desktop icon.
27I can scroll up and down.28I know what the mouse pointer is.29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.363738I can use both text and pictures in a visual mapping program.	25	I know what the close button is and can use it to close a website.
28I know what the mouse pointer is.29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	26	I know what the scroll bar is.
29I know what a hyperlink is.30I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	27	I can scroll up and down.
30I know what the back button does and can use it to navigate.31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	28	I know what the mouse pointer is.
31I know how to avoid advertisements on the Internet.32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	29	I know what a hyperlink is.
32I know what personal information is.33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	30	I know what the back button does and can use it to navigate.
33I know how to stay on the assigned website.34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	31	I know how to avoid advertisements on the Internet.
34I know what to do if I accidentally go to the wrong place on the Internet.35I can name an Internet safety rule.36I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	32	I know what personal information is.
35 I can name an Internet safety rule. 36	33	I know how to stay on the assigned website.
36	34	I know what to do if I accidentally go to the wrong place on the Internet.
37I understand the purpose of a visual mapping program (to organize ideas).38I can use both text and pictures in a visual mapping program.	35	I can name an Internet safety rule.
38 I can use both text and pictures in a visual mapping program.	36	
	37	I understand the purpose of a visual mapping program (to organize ideas).
39 I can sort objects by their attributes using a visual mapping program.	38	I can use both text and pictures in a visual mapping program.
	39	I can sort objects by their attributes using a visual mapping program.

40	I can link related objects in a visual mapping program.
41	I can explain why I chose to sort and link objects in the way that I did.
42	
43	I can name a graphics program.
44	I can open and use a graphics program to express my ideas visually.
45	I can use more than one color in a graphics program.
46	I can use more than one drawing tool in a graphics program.
47	I can control my mouse so that I can create pictures I like.
48	I can choose letters and colors that work well together.
49	I can think about whether my teachers and parents will understand my drawings.
50	
51	I can name a word processing program.
52	I can open and use a word processing program to enter text.
53	I can enter words in a graphics program.
54	I can enter words in a visual mapping program.
55	I can use correct posture at a keyboard.
56	I can use a keyboard to enter letters and numbers.
57	I can use a keyboard to enter my name.
58	I can use a keyboard to enter words.
59	I can use a shift key to make capital letters.
60	I can use the enter key to go to the next line.
61	I can use the backspace to erase letters.
62	I can use the space bar to make spaces between words.
63	I can use the arrow keys to move the cursor.
64	
65	I can work together with classmates on computer work.
66	I can evaluate my work.
67	
68	I can review knowledge I learned during the year.
69	I can review skills I learned during the year.
70	I can organize my knowledge of technology.
71	I can review and evaluate my own work.
72	I can participate in review activities
