INTRODUCTION

Mission Statement

The mission of Business Professionals of America is to develop and empower student leaders to discover their passion and change the world by creating unmatched opportunities in learning, professional growth and service.

Program Philosophy

The Workplace Skills Assessment Program is an integral part of Business Professionals of America. The goal of the program is to provide all business students with the opportunity to demonstrate workplace skills learned through business education curricula.

Students will:

- demonstrate occupational competencies.
- broaden knowledge, skills, and attitudes.
- expand leadership and human relation skills.
- demonstrate a competitive spirit; and
- receive recognition.

Content of the Guidelines

The WSAP Guidelines (*Guidelines*) contain general information for all events as well as specific details regarding eligibility, equipment use, scoring, etc. The information in the *Guidelines* is essential for members attending the National Leadership Conference.

Purpose of the Guidelines

The purpose of the *Guidelines* is to provide as much information as possible to help prepare students for a successful experience at the National Leadership Conference (NLC).

The *Guidelines* regulate all national Workplace Skills Assessment Events. State Associations may choose to deviate from the guidelines provided. Individuals are urged to check with your State Association for any changes they may make at the regional or state levels.

Authors, administrators, proctors, and graders will strictly follow these guidelines.

Awards and Recognition

For the Secondary Division, the top ten (10) winners will be recognized at the National Leadership Conference. For judged events, all finalists shall be recognized at NLC. For Open Events, the top ten (10) scores, plus ties, will be recognized.

Non-Discrimination Policy

It is the policy of Business Professionals of America that no person on the basis of race, color, religion, national origin or ancestry, age, sex, marital status, sexual orientation, or disability shall be discriminated against, excluded from participation in, denied the benefits of, or otherwise be subjected to, discrimination in any program or activity for which it is responsible.

2024-25 WSAP

What's Changed/What's New

Welcome to the 2024-25 membership year. Here's what's new for the Secondary Level Guidelines:

General WSAP Updates (applicable to multiple competitive events)

- Competition competencies and rubric items have been updated in many competitions. Please review the complete guidelines for specific changes, updates, and improvements to the competencies and rubric items.
- Events requiring Certiport Microsoft Office Specialist certification will now use MOS 365 instead of MOS 2019.
- For the pre-submitted judged events, the requirement to bring additional copies of works cited, release forms, or other competition documents has been removed. The documents must still be submitted during the pre-submission project upload process according to the technical rubrics.
 - NOTE: Although the requirement has been removed, no points will be awarded if contestant(s) choose to bring the documents as part of their presentations.

GENERAL GUIDELINES

Eligibility

According to Board policy, “Only members whose dues have been postmarked to the National Center by March 15 are eligible for national competition.”

The guidelines for each event indicate the number of members that a state may enter at NLC. All entries for Workplace Skills Assessment events must be registered for NLC through the state association. To compete in an event at NLC, the individual or team must have competed in that event at the State Leadership Conference (SLC). Substitutions for team members are left to the discretion of the State Advisor. Any special eligibility requirements are indicated in the event guidelines.

Advisors can verify national membership online or by contacting the National Center. Be sure to check your State Association membership deadline to ensure eligibility at the regional/district and state levels.

Number of Contests

Secondary student members may participate in a total of **two events**, only one of which may be a team event (this number includes pilot events). Additionally, a student may compete in an unlimited number of Open or Virtual Events within the time constraints of the conference program. Participation in virtual events does *not* count towards the total number of events for students.

NOTE: These guidelines apply directly to the National Level; State Associations may impose different restrictions regarding the number of contests in which a member may compete.

Event Length

The length of events varies. Times are listed on the “[Events-At-A-Glance](#)” chart as well as within the guidelines for each event.

Team Events/Chapter Events

Team events are registered under the chapter name. In addition, each team member, and the person(s) responsible for chapter entries must be indicated in event registration. (Remember that each student member is limited to only one team event.)

Event Registration Changes

The State Advisor or state designee must report any change in the original event entrants to the Director of Education & Professional Learning no later than the deadline designated in the pre-conference program.

Event Rescheduling

Only time conflicts caused by two concurrent BPA competitive events may be rescheduled. All conflicts for Executive Council Candidates and campaign managers will be rescheduled at the National level.

Use of Materials

Members may *not* share equipment, supplies, and/or materials (including printers) once an event begins.

Reference Materials

Some events allow reference materials. Check the guidelines for each contest for further information.

Reference materials may *not* be used for any Open Event.

Workplace Skills Assessments/Contest Review

Advisors may view the national Workplace Skills Assessments at the National Leadership Conference (NLC) after all testing has been completed. A representative from Competitive Event Headquarters will supervise the area. All tests must remain in the room. Refer to the NLC program for the exact time and location.

Merit Scholar

Although this test is part of BPA Cares, it will be given at the same time as the Open Events. Any member or advisor attending NLC may take this test on the activities, history, and programs of Business Professionals of America. Recognition is provided to all that achieve at least **90 percent**. Guidelines are printed in the *BPA Cares Handbook*. No reference materials are allowed.

ARMA Rules

For those events including records management as a competency, the *ARMA Rules for Alphabetic Filing* will be considered the authority. Refer to the *Style & Reference Manual* for excerpts of the ARMA rules. Further information is available at www.arma.org, or complete guidelines may be ordered from ARMA Inc., 11880 College Blvd., Suite 450 Overland Park, KS 66210.

Proofreader's Marks

Standardized proofreader's marks have been listed in the *Style & Reference Manual*.

Style & Reference Manual

A standard style for documents is located in the *Style & Reference Manual*. All events will be authored and scored using the styles given. Failure to follow the *Style & Reference Manual* format for any job will result in a score of zero for that job.

Business Ethics

Business ethics, as listed in the "Competencies" section, may include ideal moral and professional standards of behavior that should be demonstrated in all work environments. Questions might cover areas such as use of work time, care of equipment, confidentiality, honesty, safety practices, and cooperation.

Human Relations

Human Relations, as listed in the "Competencies" section, may include group dynamics, cooperation, harmony, good employee relationships, employee organization, and interpersonal attitudes and behaviors.

Communications

Communications, as listed in the "Competencies" section, may include reading, writing, speaking, and listening skills.

Use of Previous or Sample Tests

No previous Business Professionals of America tests and/or sample tests or facsimiles thereof (handwritten, photocopied, or keyed) may be taken into the testing area. Members who violate this rule will be *disqualified*.

Admission to Event Testing Sites

Only registered members will be allowed into the event room. Only persons serving as administrators, proctors, or authorized personnel will be admitted into the event room. Members may be *disqualified* for

communicating with persons other than administrations, proctors, or authorized personnel in the event room or between the preparation and presentation rooms.

Use of Cellular Phones/Smart Devices

The use of cellular phones and/or smart devices, including digital watches, which can be used to record, transmit, receive, or play back audio, photographic, text, or video content in testing, preparation and presentation rooms is strictly prohibited. If a member/team is utilizing a cellular phone as a mobile hotspot, the phone may be visible throughout the presentation and used to provide Internet, however, the phone's sole purpose can only be for Internet access or for displaying the member's work, no other use will be allowed.

Printing Requirements

All printing in the computer lab must be in black/white or grayscale except for Fundamental Desktop Publishing and Advanced Desktop Publishing. For Fundamental Desktop Publishing and Advanced Desktop Publishing, members will be permitted to bring Mac computers and equipment (see Guidelines for details).

Recording Equipment

No recording equipment (video cameras, cameras, digital cameras, tape, or digital recorders, etc.) will be allowed in the contest room and/or viewing area unless authorized by the Business Professionals of America National Center.

Name Badges

Name badges must be worn at all times; it is permissible for members to introduce themselves to the judges.

Release Forms

When Release Forms are required, any student included in the project must submit a Release Form; this includes individuals and all team members. Release Forms may be handwritten. Illegible forms will *not* be accepted.

Member-Provided Equipment

Some events permit members to bring their own equipment for presentations or preparation for competition. In these cases, members are permitted to bring their own laptops, printers, projectors, or iPads (or similar tablet devices). Computers or tablets may be used in place of projectors. Members are totally responsible for the operation and technical support of their equipment.

Artificial Intelligence

Utilization of AI, such as ChatGPT, to complete submitted work(s) must adhere to [BPA's Academic Integrity Policy](#), with transparent attribution for generated content. Proper citation of AI-generated work is essential to uphold intellectual honesty and respect for original authorship.

NLC CALCULATOR GUIDELINES

Students must ensure their calculator works properly, as the testing center will *not* provide batteries or spare calculators. Students may use only their own calculator. Students may bring a backup calculator in case their primary calculator fails.

ACT-approved calculators include four-function, scientific, or graphing calculators. Certain calculators are entirely prohibited while others are permitted with modifications.

Prohibited calculators include:

- Texas Instruments models beginning with TI-89 and TI-92, TI-Nspire CAS (Note: The TI-Nspire (non-CAS) is permitted.)
- Hewlett Packard models beginning with HP Prime, HP 48GII, HP 40G, HP 49G, HP 50G
- Casio models including fx-CP400 (ClassPad 400), Algebra fx 2.0, ClassPad 300 and 330, and all models beginning with CFX 9970G
- Electronic writing pads or pen-input devices (Note: The Sharp EL 9600 is permitted.)
- Handheld, tablet, or laptop computers, including PDAs
- Cell phone calculators or any other electronic communications devices
- Calculators with typewriter keypads in QWERTY format (Note: Letter keys not in QWERTY are permitted.)

The following types of calculators are permitted, but *only* after they are modified as noted:

- Calculators that hold programs or documents - remove all documents and remove all programs that have computer algebra system functionality
- Calculators with paper tape - remove the tape
- Calculators that make noise - turn off the sound
- Calculators with an infrared data port - completely cover the infrared data port (includes HP 38G series, HP 39G series, and HP 48G)
- Calculators that have power cords - remove all power/electrical cords
- Hand-held calculators may *not* be connected in any way to the computer or device being used for testing.

It is each student's responsibility to ensure that his/her calculator meets ACT requirements. Calculators that do *not* meet ACT standards will *not* be allowed during testing, which could result in a lower score for unprepared students. Students who bring prohibited calculators will *not* be provided an alternative calculator by the testing center staff, and they will *not* be allowed to use *another* student's calculator.

All forms, manuals, and supporting documents are available in the Download Center at <https://members.bpa.org/download-center>.

Release Form

Events that utilize images (photographs or video) require a Release Form for each individual represented in the project. In addition, each student competing in the event must sign a Release Form as well.

Works Cited

All Judged Events that include any media (images, logos, sounds, and other assets/media elements) used in the development, creation, and publication of the contest materials will require a Works Cited. Students who create their own media will be required to cite themselves as the author.

Members/Teams who do *not* participate in both parts of the event (pre-submit and judged) will *not* be ranked.

If the event requires an online submission for national competition, Release Form(s) (including signatures) will be required at the time of submission.

Judges' Comments

Judges' comments will be returned digitally through the online judging system at the national level.

Technical Judging Materials

Materials submitted for technical judging *cannot* be returned and will *not* be available at NLC.

Judged Events Requiring Preliminaries and Finals

When the number of entrants in the judged event requires multiple sections, preliminaries and finals will be held. An equal number of the top members from each Preliminary section will be called back for the Finals. The Finals are conducted as a new contest. Technical scores from the Preliminary Competition will carry forward into the Final Competition.

Judged Event Topics

Each event that is judged has a unique topic. Details of the topic and the requirements for a specific topic are listed with the events.

2024-25 Judged Event Topics

(V01) Virtual Multimedia and Promotion Individual

Topic: Create a 1:00 - 2:30 minute digital promotional video highlighting a local non-profit animal rescue in your area. The organization would like to promote the need for volunteers to assist with the animals and would like to focus on the rewards of being a volunteer.

(V02) Virtual Multimedia and Promotion Team

Topic: Create a 3:00 - 5:00 minute video to imagine what a career might look like in the future and create a video presenting unique and futuristic job roles.

(V03) Software Engineering Team

Topic: Develop a fantasy game in The Lost City of Atlantis. Player(s) dive into the underwater ruins of Atlantis to uncover its secrets and complete a quest for lost artifacts. They must solve ancient puzzles, avoid underwater hazards, and interact with the remnants of Atlantean technology. Key features should include underwater exploration with environmental challenges, ancient technology and puzzle-solving, interaction with mythical sea creatures, and remnants of an advanced civilization. "The Lost City of Atlantis" should be part of the title of the game – i.e: Laura Croft: Tomb Raider.

(V04) Web Application Team

Topic: Companies are looking for ways to keep their employees healthy which can reduce health insurance rates and boost company morale. Develop a Healthy Habit Team Tracker web application to track teams of users' data for team competition. This application will help users build and maintain healthy habits, encourage team building, and promote comradery in the workplace. The app should allow users to set up a team in competition with other teams. Each team can set daily and weekly goals, track their progress, and share and receive motivational reminders. The team can earn digital team badges that will display in the app.

(V05) Mobile Applications

Topic: Keeping track of the aspects of a healthy lifestyle is more important to consumers than ever before. Develop a Healthy Habit Tracker mobile app that helps users build and maintain healthy habits. The app should allow a user to set personal goals, track their progress, and receive motivational reminders. Users can earn digital badges that will be displayed in the app.

(V06) Promotional Photography

Topic: Take a sports action photo. The photo should convey the effort, focus, and/or emotion of the individual or individuals participating in the sport.

(V07) Cybersecurity/Digital Forensics

Topic (Round Two Competitors Only): You have been asked to develop a presentation on what you believe is a significant threat to organizations as they implement Cybersecurity (threats presented by AI are not allowed.) Suggested topics to cover include, but are not limited to:

- The dangers presented by the threat
- Methods for detecting and preventing threat
- Potential limitations to preventing the threat
- The impacts of those affected if your threat

(V10) Virtual Branding Team

Topic: Your team has been contracted to promote an urban gardening enthusiasts club in your state called City Sprouts Collective.

- Social media (30-second promo video)
- Club Member t-shirts (Full Color, front and back design)
- Promotional materials for upcoming community events, workshops, and meetings
- Mobile app mockup (event schedule, specifications, resources, etc.)
- Event website mockup (event schedule, specifications, resources, etc.)
- One (1) page overview document outlining the team decision making process; include branding guidelines for fonts, color guide, and acceptable brand usage

NOTE: The key points of this contest are the actual virtual cross-platform branding components and not the event itself.

(V11) 2D Animation Team

Topic: Create a 2D animation tale of a lost toy finding its way back home to its owner.

(V12) Social Media Marketing Campaign Team

Topic: You are the marketing team for Healthy Bytes, a fictitious company, which has developed a new brand of healthy snacks dedicated to promoting healthy eating habits among young people ages 13-18. Healthy Bytes offers a variety of great-tasting snacks, including granola bars, fruit chips, and veggie sticks, all made from natural, nutritious ingredients. The packaging is fun and vibrant, designed to appeal to teenagers and young adults.

Healthy Bytes has a good reputation for its health-focused products and community engagement, but Healthy Bytes is a new company launching a new brand and new products into the teen market. The company wants to use this product line to promote healthier snacking options among high school students. Healthy Bytes wants to work to ensure the product's success and believes that a well-prepared and executed social media campaign can do just that.

Task - Create a comprehensive, engaging social media marketing campaign to launch Healthy Bytes. The campaign should create brand awareness and excitement among high school students, engage with the target audience of teenagers aged 13-18, encourage healthy eating habits through fun and interactive content, and drive traffic to the Healthy Bytes website and social media platforms.

(V13) Esports Team

Topic: As competitive video gaming grows in popularity and esports balloons into a multi-billion-dollar global phenomenon, a myriad of career opportunities has arisen that extend beyond just playing the games. Research the benefits of, and steps to, starting an esports team, the aptitudes needed by teammates to successfully compete, and the workforce ready skills that are learned by people who participate in competitive gaming. Be sure to consider the role of technology career-readiness and the transferable skills that are developed by participants. The games played will be Rocket League (Middle Level) and Fortnite (Secondary/Postsecondary).

(V14) Ethical Leadership & Decision-Making Team

New Teacher Tries to Collect Books for Classroom Library

Caroline is a new elementary educator trying to build a library for her classroom over the summer. So far, Caroline has mostly purchased books with her own money, but her funds are starting to run low—and school starts in just a few weeks.

While scrolling through Instagram one day, Caroline is excited to see that there's a book fair next weekend offering heavily discounted books. When she takes a look through the book fair's offerings, she finds a great collection of books at a fraction of the price they would normally cost.

There's just one problem—the author of these books has recently come under fire for problematic ideas that reportedly appear in some books' language and illustrations. Not everyone finds the old books problematic, but there's a chance that a small group in her school community will have strong opinions about including the books in her classroom library.

None of the specific books in this collection contain this questionable content, but Caroline isn't sure she should purchase these books given the reputation of the author. However, it's a great deal, and Caroline knows students will suffer without books in the classroom.

What should Caroline do? Should she purchase the books to make sure her students have sufficient and engaging reading material for the coming school year, even if a small population takes issue? Or should she forgo the purchase, running the risk of not finding enough books in time for school to begin?

Round Two – The top 20 teams will receive a twist to the case study and then give a presentation on their research and proposed solution to the twist, in addition to lessons learned, to a panel of judges.

(150) Financial Analyst Team

Ellie has always had a passion for gold jewelry and has decided to turn her hobby into a small business. For the past several years, Ellie has been selling her gold jewelry at trade shows and online. Ellie has received interest from several partners who want to place large orders and carry her products as part of their permanent collections. Ellie has been operating her business as a hobby but has decided that now is the time to create a small business and operate it full-time. Ellie does not know much about the different types of business organizations and would like your advice on what type of business she should start. Ellie will be investing \$100,000 of her own money into the business, in addition to contributing equipment worth \$400,000. Ellie estimates that this equipment still has 10 years of life left and estimates that she will be able to sell it for \$40,000 at the end of that time. Ellie has also secured a \$500,000 loan from First Bank with an annual interest rate of 5% for 10 years.

Based on last year's prices and her current orders, Ellie has created the following materials budget for the next six months. She normally marks up her jewelry at 32% of the price of the gold. Ellie does not keep any inventory of gold on hand since she is a made-to-order business.

Month 1	\$1,405
Month 2	1,240
Month 3	1,318
Month 4	1,390
Month 5	1,308
Month 6	1,230

Ellie estimates her other expenses to be as follows for each month for the next six months:

Accountant	\$2,500
Marketing	5,000
Packaging	2,000
Shipping	3,000
Insurance	12,000
Rent	12,000
Supplies	3,000
Utilities	4,000

Ellie is currently owed \$6,000 from previous orders; 10% of the amount owed to Ellie is over 30 days past due.

As Ellie embarks on this entrepreneurial journey, she seeks advice on several critical aspects of starting and managing her business: the type of business entity to form, the inventory valuation method to use, the depreciation method to adopt, and the accounting for accounts receivables. Ellie has asked you to prepare a recommendation for these questions, as well as others that she has not considered, as well as pro forma financials to help her get her business off the ground.

(155) Economic Research Individual

Topic: Investigate the economic impact of digital streaming services on traditional media. In your response, consider the following:

- Effects on revenue and market share of traditional media
- Influence on consumer media consumption habits
- Changes in advertising strategies and business models
- Role of technology and innovation in media delivery
- Impact on content creation and distribution
- Long-term trends in media industry dynamics

(160) Economic Research Team

Topic: Explain the primary objectives of monetary policy and discuss the tools central banks use to achieve these objectives. Evaluate the effectiveness of these tools in managing inflation and promoting economic stability, providing real-world examples to support your argument.

In your response, consider the following:

- the main tools used by central banks to implement monetary policy, including open market operations, the discount rate, and reserve requirements.
- criticisms regarding the effectiveness and possible unintended consequences of central banks
- future challenges and opportunities for central banks

(260) Administrative Support Research Project

Topic: The importance of business etiquette in the workplace is multi-faceted and contributes significantly to the success and functions of any organization. Business etiquette involves a set of behaviors and expectations that facilitate respectful and effective interactions among colleagues, clients, and stakeholders. Explain in detail how you would train a new administrative assistant on Digital Solutions' employee expectations regarding this topic.

Topics to Consider are:

Importance of Business Etiquette in the Workplace such as:

- Professional Image
- Effective Communication
- Building Relationships
- Cultural Sensitivity
- Career Advancement
- Company Reputation

Learning Business Etiquette Domestically such as:

- Training Programs
- Mentorship
- Books and Online Resources
- Networking Events

(325) Network Design Team

Topic: Java Junction, headquartered in Maplewood, New Jersey, is a growing coffee shop chain with three existing locations. They plan to expand and open three more locations within a few years. Each is a miniature shack in the parking lots of larger businesses. The new locations are looking into migrating to a retail/restaurant space with the other three locations. Their organization and unification of their computer network are nonexistent. Java Junction seeks contracts to redesign and build a current network design to support its existing locations and add additional locations to industry standards and current specifications. Hoping to provide that warm and inviting coffee shop atmosphere where coffee enthusiasts can seek a cozy retreat with the espresso sounds to read an eBook, but also can provide space for customers to continue their daily work outside the office. Additionally, it caters to the students and patrons busy with study, seeking inspiration for their next adventure.

As a part of their business expansion plan, they would like to update their Java Junction shacks with better network infrastructure, providing a reliable and secure connection to these locations and a state-of-the-art network infrastructure to carry them forward. Currently, Java Junction has three existing

locations. These built-in mini shacks are in parking lots of anchor stores, and the headquarters is in a small office space in Maplewood, New Jersey.

Currently, the three locations are Bend, Oregon; Ashville, North Carolina; and Fredericksburg, Texas. These mini shacks are cleverly utilized for the coffee-making experience. They are on a short-term lease with their anchor stores and must be mobile to move at any time. The front has a walk-up window, and the side is a drive-thru window. Inside, the coffee machines are in the center of the hut. There is no customer seating on the inside, but it does have some outdoor patio seating in a section of the parking spaces each is occupying. In Bend, Oregon, the location currently uses an employee phone to connect their credit card terminal to the Internet to process credit cards because there is no suitable wired connection. The transactions are in a cash drawer under the front and drive-thru counters. In Ashville, North Carolina, this location was fortunate enough for the anchor store to allow them to connect an Ethernet cable from the store to a small aging 802.11b wireless Cable/DSL router for credit card transactions. Finally, Fredericksburg, Texas, obtained a cellular hotspot to provide Internet access to its credit card terminal and computerized point-of-sale system. At the Texas location, they also allow customers to connect to the hotspot to enjoy the Internet while they have coffee and work on tasks outside the office on the patio.

The Maplewood, New Jersey office has a receptionist, inventory curator/quality manager, accounts payable/receivable, and owner. They have a small five-room office with separate spaces for each employee and a break room which doubles as the conference room. Currently, they are using a single 802.11g wireless router connected to a small DSL connection of 25Mbps through a wireless connection. Each employee complains that the Internet is slow and that their computers are constantly buffering. They also travel to the locations several times throughout the year to ensure their business is still top-notch.

Java Junction is looking into expanding into Austin, Texas, Myrtle Beach, South Carolina, and Oak Bluff, Massachusetts. Each of these locations will be structured the same. All have a coffee counter with two order stations, a drive-thru window, a kitchen in the center, a customer seating/lounge area, and a private room for events; the whole space is approximately 2,000 square feet. Eventually, they will expand their menu to include food items other than the bakery items they are receiving frozen from the delivery supply food service.

Java Junction needs a proposal for the following:

- Secure and reliable network infrastructure for the office and all locations, existing and new
 - Ability to centrally manage devices, point-of-sale, applications, and inventory across all coffee shops
- Scalable design to accommodate the ever-expanding coffee shop growth
- New and improved Wi-Fi performance for customers.

(410) Graphic Design Promotion

Topic: A new energy drink called, ChargedUp has contacted you to design all the brand images and packaging for this new drink. You will need to create the following:

- Logo with tagline (Max out Your Day)
- Design full wrap around for the 16 oz. aluminum can. Packaging must include barcode, nutritional facts, ingredients, manufactured in the USA, and an energy drink warning label
- Design a fridge pack for four (4) energy drinks. Packaging must include barcode, nutritional facts, ingredients, manufactured in the USA, and an energy drink warning label
- Design a Point of Purchase display/shelf stand

(420) Digital Media Production

Topic: Create a one to two (1:00 – 2:00) minute public service announcement (PSA) about anti-bullying, mental health awareness, or an environmental issue. This video must have an impactful message, a call to action, an opening graphic, and educational content.

(425) Computer Modeling

Topic: Your challenge is to model the interior of a living room designed for a military veteran who uses a wheelchair. Your design should include furniture, lighting, and decor to ensure the space is fully accessible and functional. The layout must allow the veteran to easily navigate and utilize all parts of the room, providing both comfort and independence. Focus on innovative solutions and thoughtful design to create a welcoming and practical environment.

(430) Video Production Team

Topic: Create a three to five (3:00 - 5:00) minute informative video showcasing the farm-to-table movement, the journey of food from its origins on a local farm to its final destination on a plate. If you do not have access to a local farm, you can incorporate a local community garden or farmer's market. The video should capture the following aspects:

- Introduce a local farm, community garden or farmer's market. Highlight the farmers, community garden or farmer's market and their sustainable practices
- Illustrate the distribution process including transportation and logistics involved in getting the food from the farm, community garden or farmer's market to our food supply chain
- Capture the end-user experience focusing on families or individuals purchasing and preparing a meal using farm-sourced ingredients
- Include interviews with experts relating to the farm industry, community garden, or farmer's market and/or consumers about their views on the importance of eating locally sourced food

(435) Website Design Team

Topic: A local up-and-coming rock band, Stage Fright, has contracted your team to create a website for them. Your site must include, but is not limited to:

- About – Write a description of the band along with profiles for each band member, their music, and how the band got started
- Tour Dates – Create a schedule of dates and locations with online ticket purchasing
- Merch (swag) – Create a page with your choice of merchandise for the band to sell along with purchasing options
- Contact Us – Include a booking link, email link, and customer service link

(440) Computer Animation Team

Topic: The government is developing plans to establish a colony on Mars. Your team has been selected to create a detailed animation mockup of a future Martian city. The mockup should include housing, innovative buildings, transportation systems, and public spaces. Showcase how humans might live, work, and thrive on the Red Planet, highlighting cutting-edge technology and sustainable practices.

(445) Broadcast News Production Team

Topic: Create a three to five (3:00 - 5:00) minute news broadcast containing a weather segment, a teaser, and a story that is informative and engaging to help educate teenagers on essential financial knowledge and the steps they can take now to secure a successful financial future. The video should highlight important financial concepts such as:

- Saving
- Investing
- Budgeting
- Understanding credit

(450) Podcast Production Team

Topic: Create a three to five (3:00 - 5:00) minute podcast discussing social media trends and their impact on teen culture. Explore topics such as TikTok challenges and/or the rise of social media influencers and how social media shapes opinions.

(455) User Experience Design Team

Topic: Develop a digital shopping platform tailored to support a new cafe opening in your hometown called The Brew Barn. Your design must include the following:

- Responsive website mockup
- Mobile app mockup
- Social media campaign mockup (teams can choose the social media platform of their choice)

Suggestion user experiences to include:

- Allow users to easily browse drinks and other menu items, accumulate rewards for purchasing menu items and merchandise, and review items to earn free rewards.
- Highlight new specialty drinks and menu items and upcoming events for a season of your choice.
- Integrate social media features to enhance customer engagement and provide a platform for small businesses to connect with their customers.

(460) Visual Design Team

Topic: Your team has been tasked with designing a set of vintage-inspired items promoting a contemporary school or community event in your area. The team must create a minimum of four (4) items, and one must be a poster outlining the specifics of the event, including name, date, time and location. Other items could include event logos, programs, tickets, event merchandise, etc.

(500) Global Marketing Team

Topic: Background: VisionVR is an imaginative “fictitious” and forward-thinking virtual reality (VR) entertainment company founded by local entrepreneur, Emily Vision. With an unwavering commitment to immersive experiences, VisionVR is on a mission to redefine entertainment through cutting-edge VR technology, crafting unforgettable adventures for consumers. Since its inception, VisionVR has garnered acclaim for its ingenuity and dedication to delivering extraordinary virtual experiences. Now, poised for growth, VisionVR is exploring the prospect of expanding into the domestic market.

Task: Your marketing team has been hired to devise a comprehensive marketing plan for VisionVR's domestic expansion. Within the next one to three years, VisionVR is striving to establish a presence in a U.S. city of your choosing, with ambitions for international expansion within five to seven years. Additionally, your team will deliver a polished presentation encompassing the research findings and strategic recommendations for VisionVR. This presentation will serve as a catalyst to showcase your team's insights and proposed strategies to key stakeholders within the company, effectively communicating the value of the marketing plan and instilling confidence in VisionVR's future growth and prosperity. Prepare to articulate and defend your recommendations from a marketing standpoint, leveraging the power of marketing expertise to propel VisionVR towards success in the competitive landscape of virtual entertainment.

(510) Small Business Management Team

Initial Case Study Topic: Innovation Retail, a well-established chain of brick-and-mortar retail stores, is grappling with declining sales due to the surge in e-commerce. The stores, located in a city of 550,000 people, employ eight full-time employees at each of their four locations located in different parts of the city. The hours of operation at each store are Monday – Friday from 9:00 a.m. – 5:30 p.m., Saturday from 9:00 a.m. – 2:00 p.m., and closed on Sunday.

Over the past two years, in-store sales have dropped significantly: by 27% at store 1, 24% at store 2, and 19% at store 3. At the fourth store’s location, there was a slight increase in sales of 15%. CEO Matthew Lawrence has decided to embark on a digital transformation project to integrate online and offline shopping experiences, tasking project manager Monroe Lewis and his team with leading this initiative. However, due to the continued decrease in sales and multiple attempts to generate additional income, discussions are now taking place about potentially cutting employees at each location. Even though total sales decreased at three stores, each full-time salesperson was paid a 20% commission on every purchase plus a bonus.

Internal Challenges

- Employee morale
- Employee digital skills gap
- Balancing resources between physical stores and developing the digital platform
- Employee costs

External Challenges

- Technology adoption
- E-commerce competition
- Economic factors
- Changing consumer behavior

As a team, you will develop a plan with different strategies for Monroe Lewis and his team to employ to help Innovation Retail be more profitable. While developing your plan, consider the following questions:

- How can Innovation Retail use its physical stores to make online shopping better and attract more customers?
- What online marketing methods can help bring more people to both the website and the physical stores?
- What new technology is needed to connect online and in-store shopping smoothly?
- How can Innovation Retail make customers more loyal and keep them coming back?
- What ways can Innovation Retail save money without hurting employee morale or customer service?

(555) Presentation Individual

Topic: Career and Technical Student Organizations (CTSOs), such as BPA, are pivotal in shaping students' personal and professional development. Engaging in these organizations provides a dynamic platform for honing essential skills like leadership, communication, and teamwork, fostering growth through hands-on experiences and competitive events. Moreover, BPA offers invaluable networking opportunities, connecting students with industry professionals and alumni, potentially leading to mentorship and job prospects. However, the decision to join or not join BPA is influenced by various factors, including the perceived benefits and drawbacks of involvement, individual priorities, personal circumstances, and additional considerations such as time commitment, financial costs, stress management, and maintaining a healthy work-life balance.

Your task is to create a presentation based on both research and personal experience that uncovers the factors influencing student involvement in BPA to empower future members to make informed decisions about joining BPA and maximize their experience within the organization.

Points to consider include but are not limited to:

- Perceived benefits (pros) and drawbacks (cons) of BPA involvement
- Importance of leadership, communication, and teamwork skills
- Networking opportunities and potential mentorship/job prospects
- Time commitment and financial costs associated with membership and participation
- Stress management and coping strategies
- Strategies for maximizing the BPA experience

(560) Presentation Team

Topic: Imagine your team is tasked with delivering a presentation on a topic shaping our world: Artificial Intelligence (AI). Your mission? Craft a 7-10-minute presentation exploring AI's impact on society. As a team, you will need to conduct thorough research to uncover real-world examples and statistics that illustrate how AI is transforming industries, reshaping labor markets, and raising important ethical questions.

Points to consider include but are not limited to:

- Impact of AI on job markets
- Ethical considerations of AI algorithms
- Privacy concerns related to AI technology
- Societal changes resulting from increased automation

(615) Health Research Presentation

Topic: The healthcare system is currently experiencing an increase in mental health-related issues such as patient anxiety and staff burnout. Create a presentation for the Board of Directors at a nearby hospital proposing they establish an animal-assisted program to benefit patients and staff.

Check individual event guidelines for information regarding the use of members' own computers. Members who bring their own computer for events, as permitted, must also bring all supporting devices (including portable printer, software, extension cords, power strips, paper, etc.) as outlined in event guidelines. Printers are *not* needed for any programming contests in Management Information Systems. Electrical power is provided. Carry-in and setup of equipment must be done solely by the member(s) and must take place within the time allotted for orientation/warm-up.

Business Professionals of America assumes no responsibility for hardware/software provided by the members. Members who experience failure problems with their equipment will *not* be rescheduled. Members bringing their own computers and software should note that contests are authored for the software listed above and may *not* run on alternate software. Portable media (flash drive, etc.), if needed, will be provided for members by the National Center.

Parental Consent Form

IMPORTANT: Requirement for Certiport Exams

All competitors (regardless of age) will be required to submit a signed Parental Consent form which must be on file with the National Center in order for scores to be released to BPA at NLC. A reminder to submit the form will be included at the time of competition registration.

If there is no Parental Consent form on file with the National Center on or before the first day of NLC, member scores will *not* be released and students' overall scores will be drastically affected.

The Parental Consent form is located on the next page and can be obtained as a PDF file on the [WSAP Download Center](#) webpage. This form must be on file with the National Center for all members competing at the National Leadership Conference in one of the Certiport certification aligned events.

NATIONAL VIRTUAL EVENT GUIDELINES

These events are offered virtually only at the national level. All members may register and submit entries. There are no limits. The top ten (10) winners will be decided for each division for each competition. The following policy will be used for all virtual (V01 - V15) competitive events.

Virtual Competition Round One - Technical Scoring

Based upon the number of final submissions in each of the virtual event contests, the competitors will be randomly assigned into sections. Within each section, all competitors will be judged using the technical rubric in the individual WSAP contest guidelines. Upon completion of the technical judging, the number of competitors that will advance to the presentation round will be determined by the number of sections.

The number of competitors that will advance to the presentation round will *not* exceed 20 competitors.

- 5 Sections - Top 4 from each section advance to the presentation round
- 4 Sections - Top 5 from each section advance to the presentation round
- 3 Sections - Top 6 from each section advance to the presentation round
- 2 Sections - Top 10 from each section advance to the presentation round

Virtual Competition Round Two - Presentation Scoring

During the presentation round, the competitors (not to exceed 20) will create a presentation following the individual competition guidelines. The combined scores (Round One - Technical and Round Two - Presentation) will determine the top ten (10) competitors that will be invited to NLC.

Top 10 Score Rankings

The top ten (10) competitors (from each division) advancing to NLC will be subjected to one additional technical judging to determine the final NLC rankings. This technical judging will take place before NLC.

During the National Leadership Conference (NLC)

The top ten (10) competitors from each division in each of the Virtual Events from each division are invited to participate in the BPA National Showcase and the BPA National Showcase Business Panel. During the National Leadership Conference (NLC), the top ten (10) competitors are invited to compete for the National Showcase Best in Show Award in each competition.

(V03) Software Engineering Team

Description

Teams will collaborate on the engineering of a computer software application that performs tasks and operations as outlined in the provided topic. Project submissions will consist of software source code and assets in addition to a functional, executable version of the application. Submissions will be judged on technical merit by software engineering professionals. Teams will be further required to formally present their project to a panel of judges via videoconference, and the presentation will be judged independently of the project's technical merits.

Eligibility

- Any Business Professionals of America student member may enter this event.
- A team will consist of 2-4 members.
- There are no restrictions on the number of entries per chapter or per state.

Event Registration

- Advisors register members for the event using the Membership Registration System, accessible at <https://register.bpa.org>.
- Click on the "Conferences" tab and then select the "2025 National Virtual Events".
- Event registration can be purchased with your original invoice or with a new invoice after member registration.
- The registration deadline is no later than 5:00 p.m. Eastern Time, on December 1, 2024.
- Members participating in competition must be registered for the event prior to the submission deadline to be eligible.

Entry Fee

There will be a \$20 fee for each team (*invoiced during registration*).

Topic

Develop a fantasy game in The Lost City of Atlantis. Player(s) dive into the underwater ruins of Atlantis to uncover its secrets and complete a quest for lost artifacts. They must solve ancient puzzles, avoid underwater hazards, and interact with the remnants of Atlantean technology. Key features should include underwater exploration with environmental challenges, ancient technology and puzzle-solving, interaction with mythical sea creatures, and remnants of an advanced civilization. "The Lost City of Atlantis" should be part of the title of the game – i.e.: Laura Croft: Tomb Raider.

Competencies

- Apply technical skills in the given programming languages to develop the system of applications required.
- Evaluate and delegate responsibilities needed to perform required tasks as a team.
- Develop a project plan and timeline.
- Apply problem solving techniques.
- Implement system analysis and design concepts.
- Use internal programming documentation.
- Use object-oriented programming concepts and techniques.
- Demonstrate knowledge of how data is organized in software development.
- Apply programming concepts such as sequential file access, databases, and I/O operations.
- Use internal and external function and/or procedure calls.

Technical Specifications

Minimum functionality required:

- Interactive game environment
- Menu interface for non-gameplay user interaction (e.g., starting game, resuming game, choosing levels, exiting the game)
- On-screen HUD for display of vital gameplay information
- Minimum average framerate of 30 frames per second (FPS)
- Serialization of game state to a database (see below) for saving and resumption of gameplay sessions.
- Values/stats of all game pieces/cards and related data must be stored on a database

Technology Requirements:

The following languages/frameworks are permitted:

- Java 6 or higher
- JavaScript
- Python 2.6+
- Ruby 1.8.6+
- Microsoft C#
- Objective-C / Cocoa
- C++
- Apple Swift
- Unity

The following is a list of possible database systems available:

- Oracle Express 11g
- Microsoft SQL Server
- Oracle MySQL
- PostgreSQL
- SQLite
- JavaDB
- Google Firebase
- Amazon Web Services

Additional languages/frameworks/database may be approved by contacting Patrick Schultz, pschultz@bpa.org.

The use of game development frameworks (e.g., Unity, XNA, pygame, cocos2d, etc.) is permitted if, and only if, the framework is freely available for educational or nonprofit use. The use of paid proprietary development frameworks is expressly prohibited. Additionally, Realm Crafter and other “programming light” tools that provide a ready-made gaming engine and/or graphical assets are also prohibited. Any submission using a game development framework must clearly show the extent of original work done via source code comments.

Specifications

- The final project submission deadline will be January 15, 2025, at 5:00 p.m. Eastern Time.
- All project documents including, but *not* limited to source code, game manual, project plan, resources, libraries, etc. must be packaged together in a compressed format and uploaded to a file sharing site (e.g. Dropbox, etc.).
- **Submit the URL to the final project files, Works Cited, and signed Release Form(s) in a combined PDF file to <https://upload.bpa.org> no later than 5:00 p.m. Eastern Time, on January 5, 2025.**

- The use of integrated development environments (e.g., Microsoft Visual Studio, Eclipse, IntelliJ, Apple XCode, etc.) is highly recommended.
- A signed Release Form must be obtained by teams from any individual whose work, name, likeness, or personal information is used as part of an event submission.
- Teams will be assigned to sections prior to their preliminary presentation.
- For teams who qualify, the teams' advisors will be contacted to reserve a time for a videoconference presentation before a panel of judges. Email confirmation will be sent to those teams eligible to reserve a presentation time. The dates and times for presentation reservations will be announced via email notification.
- The top teams with the highest cumulative technical and presentation scores will be invited to attend the National Leadership Conference to be recognized for their outstanding efforts and to participate in the National Showcase. See <https://bpa.org/nlc/virtual-competitions-and-nlc-national-showcase/> for more information.
- It is the policy of Business Professionals of America to comply with state and federal copyright law. Federal law pertaining to copyright, as contained within the United States Code, is available at <https://www.copyright.gov/title17/title17.pdf>. The *Style & Reference Manual* contains guidelines for Copyright and Fair Use. Participant(s) will be *disqualified* for violations of the guidelines.
- Business Professionals of America grants permission for the use of the copyrighted logo and tagline.
- Code must be original work of team.

NOTE ON FINAL PROJECT SUBMISSION

All project documents including, but *not* limited to, source code, game manual, project plan, resources, libraries, etc., must be packaged together in a compressed format and uploaded to a file sharing site (e.g., Dropbox, etc.). The project URL, Works Cited, and signed Release Form(s) (as a combined PDF file) are the only things that you will upload to <https://upload.bpa.org>. You must note the URL for your compressed project files, including any necessary login information, if applicable, in your combined PDF.

We strongly recommend that participants use integrated development environments (e.g., Microsoft Visual Studio, Eclipse, Oracle NetBeans, or Apple XCode).

(V04) Web Application Team

Description

The team will create a database-driven website with server-side functionality. The team is provided with the opportunity to design, build, and present a working web application. Teams will be further required to formally present their project to a panel of judges via videoconference, and the presentation will be judged independently of the project's technical merits.

Eligibility

- Any Business Professionals of America student member may enter this event.
- A team will consist of 2-4 members.
- There are no restrictions on the number of entries per chapter or per state.

Event Registration

- Advisors register members for the event using the Membership Registration System, accessible at <https://register.bpa.org>.
- Click on the "Conferences" tab and then select the "2025 National Virtual Events".
- Event registration can be purchased with your original invoice or with a new invoice after member registration.
- The registration deadline is no later than 5:00 p.m. Eastern Time, on December 1, 2024.
- Members participating in competition must be registered for the event prior to the submission deadline to be eligible.

Entry Fee

There will be a \$20 fee for each team (*invoiced during event registration*).

Topic

Companies are looking for ways to keep their employees healthy which can reduce health insurance rates and boost company morale. Develop a Healthy Habit Team Tracker web application to track teams of users' data for team competition. This application will help users build and maintain healthy habits, encourage team building, and promote comradery in the workplace. The app should allow users to set up a team in competition with other teams. Each team can set daily and weekly goals, track their progress, and share and receive motivational reminders. The team can earn digital team badges that will be displayed in the app.

Key Features:

- Habit Tracking: Teams can set daily, weekly, or monthly goals for various habits (e.g., exercise, hydration, mental interaction with hobbies/pets, daily calories, sleep, optional percentage of weight loss).
- Progress Visualization: Charts or graphs to visualize progress over time.
- Reminders and Notifications: Customizable reminders to encourage consistency and complete team goals for the day or week, i.e.: Your team needs 245 more steps to reach your goal, etc.
- Gamification: Earn rewards or badges for reaching milestones.

Technical Requirements:

- Backend: Use a cloud-based service to store user data and habit tracking information.
- Database: Store user profiles, habit data, and progress history.

Required Features

- Administrator account with full permissions
- Register and authenticate team captain user (including team captain password reset and account deletion)
- Register and authenticate users (including password reset and account deletion)
- Use encryption to protect data and passwords
- Create different account types
 - Team Members – Allowed to add and modify personal goals data
 - Team Captains – Allowed to add and modify team goals and settings
 - Contest Administrator – Allowed to add and modify teams and set and modify company goals
- Monitor and display top teams, top individuals
- Provide operation tutorials for each type of user.

Possible Features

- Health facts
- Videos for new healthy habits
- Progress notifications
- Company, Team, and Individual Goal Completion certificates and badges
- Use external authentication (i.e. Google, Facebook or Twitter)

Competencies

- Demonstrate database development in a structured or unstructured environment
 - Contestants can use a cloud-based environment such as Mongo DB or Firebase
 - Contestants can use an SQL database
 - No flat files (text files) can be used to store data
- Demonstrate knowledge of server-side scripting and Internet concepts
- Evaluate and delegate responsibilities needed to perform required tasks
- Demonstrate teamwork skills needed to function in a business setting
- Utilize external Application Programming Interface (API)
- Apply database development skills to create the back end of the web application
- Apply web design skills and standards to complete the front-end of the website
- Implement problem-solving techniques
- Describe the process, methodology, and lifecycle of your web application
- Create an audit trail of how you built your application

Teams who do *not* submit an entry that follows this topic will be *disqualified*.

Specifications

- Final projects must be uploaded to a file sharing site (Dropbox, etc.) and should include:
 - a written description of the application as a PDF file
 - the source code (as a zipped root folder)
 - the database schema
- It is recommended that you set the access level of your project to one of BPA's recommended settings. See the Cloud Storage / File Sharing Guidelines for more information.
- **Submit the URL to the final project files, Works Cited, and signed Release Form(s) in a combined PDF file to <https://upload.bpa.org> no later than 5:00 p.m. Eastern Time, on January 15, 2025.**

Release v1.1 September 18, 2024

- Individual confirmation of receipt *cannot* be provided by the National Center.
- No fax or mailed copies will be accepted.
- No exceptions can be made for missed deadlines due to incorrect submission or technical difficulties.
- Multiple submissions *cannot* be accepted.
- Only one (1) team member should complete the submission.
- No changes can be made to the project after the date of submission.
- The website must be available for viewing on the Internet on January 15, 2025. If the ISP is experiencing technical difficulty, the advisor will be contacted, and a reasonable amount of time will be provided to solve the problem. No changes can be made to the website after this date. Technical judging of the website will be conducted prior to NLC.
- The following information must be included on the website: chapter name and number and team member names. This information can be included in any format and location.
- The team members must create a conceptual model for the database identifying relationships between tables in the database. Each team will be expected to articulate the design of the database associated with the web application.
- Each team must create forms and associated considerations needed for the scenario.
- Teams may select the database, web server, and middleware solution they prefer. A careful review of the evaluative criteria presented in the contest guidelines will aid in the selection of development technologies. The source code that powers each team's web application will be scrutinized; therefore, it is imperative that team members can answer questions regarding this aspect of the application.
- The event tests the team's ability to write code and incorporate databases. As such, application frameworks, such as Drupal®, Joomla!®, DotNetNuke® and WordPress® *cannot* be used. Integrated development environments (IDEs) such as Microsoft® Visual Studio/ASP and Dreamweaver® are acceptable. Packages that assist the developer to create components, menus and similar such as JavaScript®, jQuery® and Ajax are acceptable and encouraged. However, downloading third-party code to create a major component of a web application, such as a shopping cart in an e-commerce application, is *not* permissible.
- Code must be the original work of the team.
- Teams will be assigned to sections prior to their preliminary presentation.
- For teams who qualify, the teams' advisors will be contacted to reserve a time for a videoconference presentation before a panel of judges. Email confirmation will be sent to those teams eligible to reserve a presentation time. The dates and times for presentation reservations will be announced via email notification.
- The top teams with the highest cumulative technical and presentation scores will be invited to attend the National Leadership Conference to be recognized for their outstanding efforts and to participate in the National Showcase. See <https://bpa.org/nlc/virtual-competitions-and-nlc-national-showcase/> for more information.
- It is the policy of Business Professionals of America to comply with state and federal copyright law. Federal law pertaining to copyright, as contained within the United States Code, is available at <https://www.copyright.gov/title17/title17.pdf>. The *Style & Reference Manual* contains guidelines for Copyright and Fair Use. Participant(s) will be *disqualified* for violations of the guidelines.
- Business Professionals of America grants permission for the use of the copyrighted logo and tagline.

(V05) Mobile Applications

Description

Competitors will develop a mobile phone and/or tablet application based upon the given scenario. Permitted platforms include and are limited to Google Android™ or Apple iOS™. The application will be pre-submitted for technical judging. Competitors will then be required to present their application to a panel of technical judges.

Eligibility

- Any Business Professionals of America student member may enter this event.
- There are no restrictions on the number of entries per chapter or per state.

Event Registration

- Advisors register members for the event using the Membership Registration System, accessible at <https://register.bpa.org>.
- Click on the “Conferences” tab and then select the “2025 National Virtual Events”.
- Event registration can be purchased with your original invoice or with a new invoice after member registration.
- The registration deadline is no later than 5:00 p.m. Eastern Time, on December 1, 2024.
- Members participating in competition must be registered for the event prior to the submission deadline to be eligible.

Entry Fee

There will be a \$10 fee for each entry (*invoiced during event registration*).

Topic

Keeping track of the aspects of a healthy lifestyle is more important to consumers than ever before. Develop a Healthy Habit Tracker mobile app that helps users build and maintain healthy habits. The app should allow a user to set personal goals, track their progress, and receive motivational reminders. Users can earn digital badges that will be displayed in the app.

Required Features

- External backend database is used to store data securely
- User registration and account recovery
- Allow users to:
 - Create goals
 - Search for goal progress
- View for login/register/account recovery
- View for goal listings
- View for goal detailed information (progress, reminders, display of progress)
- View for app information
- View of badges earned for completing goals.
- Use at least one API (examples: link to smart watch data, etc.)

Possible Features

- Health factoids
- Videos for new healthy habits
- Progress notifications
- Export goals list to PDF
- Export goals details to PDF
- Share goals to social media platforms
- Comments or questions
- Advertising
- Sign up for reminders of goal needs, i.e.: You need 243 more steps to reach your goal for today, etc.
- Additional resources
- Other options that enhance your application

Competencies

- Implement system analysis and design concepts
- Develop a project plan and timeline
- Demonstrate knowledge of how to resolve program implementation and deployment issues
- Apply Google Android® or Apple iOS® language specific programming tools/techniques to create a mobile application
- Demonstrate and employ computer language concepts to include Object Oriented, Structured and Procedural techniques
- Utilize variables, assignment statements, mathematical operators and mathematical concepts to include arithmetic, algebraic and trigonometric functionality in the solution as needed
- Demonstrate the use of design and color principles to create a graphical user interface (GUI) for a mobile device
- Employ database skill sets to manage data
- Apply programming concepts such as sequential file access and I/O operations
- Use internal and external function and/or procedure calls
- Use internal programming documentation
- Create user input controls to accept input from users
- Utilize external application programming interface (API)
- Employ decision making controls as needed
- Include icons, images, and other graphic objects as needed
- Utilize list, arrays, and iteration structures to solve programming problems as needed

Specifications

- The member will research the topic, and then create a mobile application based upon the topic presented in this document. The member will create the application in a platform of the member's choosing from the list of platforms designated in the technical specifications.
- The projects may be cross platform compatible between Google's Android® or Apple iOS®.
- The application may *not* be deployed as a web application delivered over HTTP.
- The application must be installed on the member's mobile device.
- The member must demonstrate the application from the member's mobile device for presentation to the technical judges at the national level (projection equipment may be used).

- The application need *not* be available for download from a digital-distribution multimedia-content service such as Google Play®, or Apple App Store®.
- Final project components must be uploaded to a file sharing site (Dropbox, etc.) and should include:
 - a written description of the project and details of a design concept
 - source code (as a zipped root folder)
 - application screenshots
- It is recommended that you set the access level of your project to one of BPA's recommended settings. See the Cloud Storage / File Sharing Guidelines for more information.
- **Submit the URL to the final project files, Works Cited, and signed Release Form(s) in a combined PDF file to <https://upload.bpa.org> no later than 5:00 p.m. Eastern Time, on January 15, 2025.**
- Member will receive an automated response confirmation at the time of submission.
- Individual confirmation of receipt *cannot* be provided by the National Center.
- No fax or mailed copies will be accepted.
- No exceptions can be made for missed due dates.
- Multiple submissions *cannot* be accepted.
- No changes can be made to the project after the date of submission.
- The Competitor is responsible for securing a Release Form from any individual whose name, photograph, and/or other information is included on in the mobile application.
- All text/graphics materials must follow the organization's Graphic Standards and make proper use of the logo and/or organization's name, if used. (Refer to the Graphic Standards in the *Style & Reference Manual*)
- Competitors will be assigned to sections prior to their preliminary presentation.
- For members who qualify, members' advisors will be contacted to reserve a time for a video conference presentation before a panel of judges. Email confirmation will be sent to those members eligible to reserve a presentation time. The dates and times for presentation reservations will be announced via e-mail notification.
- The top members with the highest cumulative technical and presentation scores will be invited to attend the National Leadership Conference to be recognized for their outstanding efforts and to participate in the National Showcase. See <https://bpa.org/nlc/virtual-competitions-and-nlc-national-showcase/> for more information.
- It is the policy of Business Professionals of America to comply with state and federal copyright law. Federal law pertaining to copyright, as contained within the United States Code, is available at <https://www.copyright.gov/title17/title17.pdf>. The *Style & Reference Manual* contains guidelines for Copyright and Fair Use. Participant(s) will be *disqualified* for violations of the guidelines.

(V09) Financial Portfolio Management Team

Description

Teams (2-4 members) will enter an investment simulation using an online platform provided by a BPA partner. The simulation will provide the students with \$100,000 initially, to be used to invest in stocks, mutual funds, and/or bonds. Awards will be presented at the National Leadership Conference.

Eligibility

- Any Business Professionals of America student member may enter this event.
- There are no restrictions on the number of entries per chapter or per state.

Contest Overview

Round One: All registered teams will participate in a virtual stock market challenge.

Teams manage their portfolios throughout the contest with the following requirements:

- Teams can buy any investment allowed through the NYSE and NASDAQ markets, including stocks, mutual funds, ETFs, and bonds.
- Teams will be limited on any one investment to 20% of their portfolio, thus mandating a diversification strategy.
- Teams will be allowed to buy on margin up to 100% of their initial cash balance, at an interest rate to be determined by current market factors at the inception of the contest.
- Teams will receive interest on any cash balance maintained, at a rate to be determined by current market factors at the inception of the contest.
- Teams will buy and sell as they wish, with each transaction subject to a pre-determined fee subtracted from their cash balance (online platform will determine the fee).
- Teams must make a minimum of five transactions to be eligible for placement.

The top twenty (20) teams, in terms of portfolio value, will be invited to participate in Round Two.

Additional information (team credentials and tutorials) regarding Round One will be sent to all registered teams by December 8, 2024.

Round Two: The top twenty (20) teams from Round One will be invited to create and present a virtual presentation of no longer than ten (10) minutes on their strategies for success and challenges faced.

Suggested strategies include, but not limited to:

- Analysis of day-to-day stock trends and historic performance
- Research on companies past news releases
- Research on companies' development of products, patents, potential buyouts, etc.-
- Research on historic and future quarterly earnings reports
- Research on market initial public offerings (IPOs)
- Analysis of financial statements, including financial ratios
- Industry research and analysis

Topic

You are the marketing team for Healthy Bytes, a fictitious company, which has developed a new brand of healthy snacks dedicated to promoting healthy eating habits among young people ages 13-18. Healthy Bytes offers a variety of great-tasting snacks, including granola bars, fruit chips, and veggie sticks, all made from natural, nutritious ingredients. The packaging is fun and vibrant, designed to appeal to teenagers and young adults.

Healthy Bytes has a good reputation for its health-focused products and community engagement, but Healthy Bytes is a new company launching a new brand and new products into the teen market. The company wants to use this product line to promote healthier snacking options among high school students. Healthy Bytes wants to work to ensure the product's success and believes that a well-prepared and executed social media campaign can do just that.

Task - Your task is to create a comprehensive, engaging social media marketing campaign to launch Healthy Bytes. The campaign should create brand awareness and excitement among high school students, engage with the target audience of teenagers aged 13-18, encourage healthy eating habits through fun and interactive content, and drive traffic to the Healthy Bytes website and social media platforms.

Use the Social Media Marketing Campaign format in the *Style & Reference Manual* and the rubric as your guide.

Topic Round One

New Teacher Tries to Collect Books for Classroom Library

Caroline is a new elementary educator trying to build a library for her classroom over the summer. So far, Caroline has mostly purchased books with her own money, but her funds are starting to run low—and school starts in just a few weeks.

While scrolling through Instagram one day, Caroline is excited to see that there's a book fair next weekend offering heavily discounted books. When she looks through the book fair's offerings, she finds a great collection of books at a fraction of the price they would normally cost.

There's just one problem—the author of these books has recently come under fire for problematic ideas that reportedly appear in some books' language and illustrations. Not everyone finds the old books

problematic, but there's a chance that a small group in her school community will have strong opinions about including the books in her classroom library.

None of the specific books in this collection contain this questionable content, but Caroline isn't sure she should purchase these books given the reputation of the author. However, it's a great deal, and Caroline knows students will suffer without books in the classroom.

What should Caroline do? Should she purchase the books to make sure her students have sufficient and engaging reading material for the coming school year, even if a small population takes issue? Or should she forgo the purchase, running the risk of not finding enough books in time for school to begin?

Competencies

- Integrity: Demonstrating consistent adherence to ethical principles and values and acting with honesty and fairness in all decisions and actions.
- Accountability: Taking responsibility for one's decisions and actions and being willing to accept the consequences of those choices.
- Transparency: Communicating openly and honestly, providing clear information and explanations for decisions, and ensuring stakeholders understand the rationale behind them.
- Empathy: Understanding and considering the perspectives, feelings, and needs of others when making decisions, and treating people with compassion and respect.
- Objectivity: Making decisions based on facts, evidence, and rational analysis rather than personal biases or self-interest, and avoiding favoritism or unfair treatment.
- Courage: Having the bravery to make difficult decisions that align with ethical principles, even in the face of opposition or potential negative consequences.
- Vision: Developing and articulating a clear ethical vision for the organization or team and aligning decisions and actions with that vision.
- Collaboration: Promoting an inclusive and participatory decision-making process, involving stakeholders and seeking diverse perspectives to ensure fair and informed choices.
- Adaptability: Being open to new information, feedback, and alternative viewpoints, and willing to adjust decisions when necessary to uphold ethical standards.
- Continuous learning: Actively seeking knowledge and understanding of ethical issues, staying informed about emerging trends and best practices, and constantly improving ethical decision-making skills.

Initial Case Study Topic:

Ellie has always had a passion for gold jewelry and has decided to turn her hobby into a small business. For the past several years, Ellie has been selling her gold jewelry at trade shows and online. Ellie has received interest from several partners who want to place large orders and carry her products as part of their permanent collections. Ellie has been operating her business as a hobby but has decided that now is the time to create a small business and operate it full-time. Ellie does not know much about the different types of business organizations and would like your advice on what type of business she should start. Ellie will be investing \$100,000 of her own money into the business, in addition to contributing equipment worth \$400,000. Ellie estimates that this equipment still has 10 years of life left and estimates that she will be able to sell it for \$40,000 at the end of that time. Ellie has also secured a \$500,000 loan from First Bank with an annual interest rate of 5% for 10 years.

Based on last year's prices and her current orders, Ellie has created the following materials budget for the next six months. She normally marks up her jewelry at 32% of the price of the gold. Ellie does not keep any inventory of gold on hand since she is in a made-to-order business.

Month 1	\$1,405
Month 2	1,240
Month 3	1,318
Month 4	1,390
Month 5	1,308
Month 6	1,230

Ellie estimates her other expenses to be as follows for each month for the next six months:

Accountant	\$2,500
Marketing	5,000
Packaging	2,000
Shipping	3,000
Insurance	12,000
Rent	12,000
Supplies	3,000
Utilities	4,000

Ellie is currently owed \$6,000 from previous orders; 10% of the amount owed to Ellie is over 30 days past due.

As Ellie embarks on this entrepreneurial journey, she seeks advice on several critical aspects of starting and managing her business: the type of business entity to form, the inventory valuation method to use,

the depreciation method to adopt, and the accounting for accounts receivables. Ellie has asked you to prepare a recommendation for these questions, as well as others that she has not considered, as well as pro forma financials to help her get her business off the ground.

(260) Administrative Support Research Project

Description

One administrative support topic is selected by the National Center and provided at the beginning of the school year. Members will conduct research on the topic and present findings in a research paper, an oral presentation, and respond to questions from a panel of judges.

Eligibility

Any secondary division student member may enter this event. Each member may submit only one (1) research paper. Members participating in national level competition must be registered for the event prior to submission deadline for technical judging. Members must participate in both parts of the competition to be ranked.

Topic

The importance of business etiquette in the workplace is multi-faceted and contributes significantly to the success and functions of any organization. Business etiquette involves a set of behaviors and expectations that facilitate respectful and effective interactions among colleagues, clients, and stakeholders. Explain in detail how you would train a new administrative assistant on Digital Solutions' employee expectations regarding this topic.

Topics to Consider are:

Importance of Business Etiquette in the Workplace such as:

- Professional Image
- Effective Communication
- Building Relationships
- Cultural Sensitivity
- Career Advancement
- Company Reputation

Learning Business Etiquette Domestically such as:

- Training Programs
- Mentorship
- Books and Online Resources
- Networking Events

Members who do *not* submit an entry that follows this topic will be *disqualified*.

Member must supply

One envelope containing the materials as listed in the specifications section

Notes or note cards for oral presentation (optional)

External speakers (optional)

Projection system (optional)

Digital presentation tools (device and software) (optional)

No Internet access will be provided on-site at NLC; however, members may provide their own access to be used only for their presentation to the judges

Members must bring all supporting devices (e.g., extension cords, power supply, etc.)

Carry-in and setup of equipment must be done solely by the member and must take place within the time allotted

Business Professionals of America assumes no responsibility for hardware/software provided by the member. Props are NOT allowed in this competition. No equipment, supplies, or materials other than those specified for an event will be allowed in the testing area. No previous Business Professionals of America tests and/or sample tests or facsimiles thereof (handwritten, photocopied, or keyed) may be taken into the testing area. Violation of this rule will result in disqualification.

Competencies

- Demonstrate knowledge and understanding of basic administrative support concepts by exploring and analyzing related issues
- Conduct research using various resources and methods
- Communicate research in a clear and concise manner both orally and in writing
- Analyze and discuss changes in the workplace
- Explore issues affecting the role of administrative support in the workplace
- Discuss findings and respond to questions
- Prepare a research paper using the report format found in the *Style & Reference Manual*

- **Submit the research paper and Works Cited in a combined PDF file to <https://upload.bpa.org> no later than 5:00 p.m. Eastern Time, on April 1, 2025.** *This is the deadline for the National Leadership Conference. Each Regional or State Conference may have specific deadlines prior to the National deadlines. Please consult the Regional or State Conference Administrator for Regional or State deadlines.*
- Members will receive an automated response confirmation at the time of submission.
- Individual confirmation of receipt *cannot* be provided by the National Center.
- Member ID will be required for all submissions.
- No fax or mailed copies will be accepted.
- No exceptions can be made for missed deadlines due to incorrect submission or technical difficulties.
- Multiple submissions *will not* be accepted.
- Materials from non-registered members, those missing Member ID and/or projects received after the deadline *cannot* be accepted.
- No changes can be made to the paper after the date of submission.
- **The research paper must follow the Report format located in the *Style & Reference Manual*. (Note: no title page is required.)** Header information on the first page of the report should be as follows: Member ID Number (Sender's ID Number - XXXXXXXX), Edna Renick (Recipient's Name), Administrative Support Department (Recipient's Department), and Current Date.
- Length of document is limited to seven (7) double-spaced, single-sided, numbered pages with one-inch margins. The Works Cited page(s) is/are *not* included in the seven pages; however, any graphs, tables, or charts included will be included in the seven-page limit. Judges will *not* read additional pages beyond the seven (7) allowed pages.
- Each research paper must reflect the member's own research, writing, and original thinking.
- Member may use one laptop/notebook computer and projection equipment for presentation. Those who want to use computer/projection equipment for presentation *must* provide their own equipment.

- The research paper must be keyed/word-processed.
- No changes can be made to the paper after the date of submission.
- Each paper must include word-processed Works Cited page which follows the *Style and Reference Manual* format.

(325) Network Design Team

Description

Analyze existing and planned business environments and develop a strategy for the implementation of a network infrastructure that addresses the business needs of the scenario provided. At state and national level, teams will be presented with an additional element to the scenario that requires revision of their final presentation.

Eligibility

Any secondary division student member may enter this event. A team will consist of 2-4 members. Members participating in national level competition must be registered for the event prior to submission deadline for technical judging. Teams must participate in both parts of the competition to be ranked.

Topic:

Java Junction, headquartered in Maplewood, New Jersey, is a growing coffee shop chain with three existing locations. They plan to expand and open three more locations within a few years. Each is a miniature shack in the parking lots of larger businesses. The new locations are looking into migrating to a retail/restaurant space with the other three locations. Their organization and unification of their computer network are nonexistent. Java Junction seeks contracts to redesign and build a current network design to support its existing locations and add additional locations to industry standards and current specifications. Hoping to provide that warm and inviting coffee shop atmosphere where coffee enthusiasts can seek a cozy retreat with the espresso sounds to read an eBook, but also can provide space for customers to continue their daily work outside the office. Additionally, it caters to the students and patrons busy with study, seeking inspiration for their next adventure.

As a part of their business expansion plan, they would like to update their Java Junction shacks with better network infrastructure, providing a reliable and secure connection to these locations and a state-of-the-art network infrastructure to carry them forward. Currently, Java Junction has three existing locations. These built-in mini shacks are in parking lots of anchor stores, and the headquarters is in a small office space in Maplewood, New Jersey.

Currently, the three locations are Bend, Oregon; Ashville, North Carolina; and Fredericksburg, Texas. These mini shacks are cleverly utilized for the coffee-making experience. They are on a short-term lease with their anchor stores and must be mobile to move at any time. The front has a walk-up window, and the side is a drive-thru window. Inside, the coffee machines are in the center of the hut. There is no customer seating on the inside, but it does have some outdoor patio seating in a section of the parking spaces each is occupying. In Bend, Oregon, the location currently uses an employee phone to connect their credit card terminal to the Internet to process credit cards because there is no suitable wired connection. The transactions are in a cash drawer under the front and drive-thru counters. In Ashville, North Carolina, this location was fortunate enough for the anchor store to allow them to connect an Ethernet cable from the store to a small aging 802.11b wireless Cable/DSL router for credit card transactions. Finally, Fredericksburg, Texas, obtained a cellular hotspot to provide Internet access to its credit card terminal and computerized point-of-sale system. At the Texas location, they also allow customers to connect to the hotspot to enjoy the Internet while they have coffee and work on tasks outside the office on the patio.

The Maplewood, New Jersey office has a receptionist, inventory curator/quality manager, accounts payable/receivable, and owner. They have a small five-room office with separate spaces for each employee and a break room which doubles as the conference room. Currently, they are using a single 802.11g wireless router connected to a small DSL connection of 25Mbps through a wireless connection. Each employee complains that the Internet is slow and that their computers are constantly buffering. They also travel to the locations several times throughout the year to ensure their business is still top-notch.

Java Junction is looking into expanding into Austin, Texas, Myrtle Beach, South Carolina, and Oak Bluff, Massachusetts. Each of these locations will be structured the same. All have a coffee counter with two order stations, a drive-thru window, a kitchen in the center, a customer seating/lounge area, and a private room for events; the whole space is approximately 2,000 square feet. Eventually, they will expand their menu to include food items other than the bakery items they are receiving frozen from the delivery supply food service.

Java Junction needs a proposal for the following:

- Secure and reliable network infrastructure for the office and all locations, existing and new
 - Ability to centrally manage devices, point-of-sale, applications, and inventory across all coffee shops
- Scalable design to accommodate the ever-expanding coffee shop growth
- New and improved Wi-Fi performance for customers.

Team must supply

Laptop/notebook computer (**each** team member may have **one** laptop), portable printer, software, and paper for this event

The team must bring all supporting devices (e.g., extension cords, power supply, etc.)

(330) C# Programming

Description

Evaluate knowledge of working with C# syntax, programming logic, program development, system design concepts, databases, designers, and objects. This contest will be graded on the Windows operating system; therefore, Unix/Linux should *not* be used. *This event includes a separate certification component which will be offered in conjunction with the BPA event at NLC; all members passing this component will receive an industry certification regardless of their overall event placement.* The certification offered will be IT Specialist - Software Development and upon passing the exam, members will be awarded 50 points to their final score. All persons planning to take a certification test **MUST** register with Certiport (www.certiport.com) before attending NLC to create their Certiport profile. Members must include their BPA member ID in their Certiport profile when they register online. For more information on the exam, visit: <http://www.certiport.com>

Eligibility

Any postsecondary division student member may enter this event.

Member must supply

Computer or laptop/notebook (USB-Type A or adapter required); a full-size keyboard may be used (no printer is needed)

Visual Studio 2015 or higher

Carry-in and setup of equipment must be done solely by the member

Member must bring all supporting devices and software appropriate for the event (e.g., extension cords, power supply, IDE, paper, etc.)

Published and/or unpublished non-electronic written reference materials

Only pre-written code that is hard copied is allowed.

Business Professionals of America assumes no responsibility for hardware/software provided by the member. No equipment, supplies, or materials other than those specified for an event will be allowed in the testing area. No previous Business Professionals of America tests and/or sample tests or facsimiles thereof (handwritten, photocopied, or keyed) may be taken into the testing area. Violation of this rule will result in disqualification.

Competencies

- Demonstrate knowledge of object-oriented concepts and techniques
- Demonstrate understanding of general computer concepts and computer language
- Use structured design techniques, algorithms, and object-oriented concepts
- Understand and implement UML diagrams
- Create a program/GUI using variables, looping, controls, logical operations, calculations, classes, totals, file access, data structures, sorting, selection statements, and I/O operations

Method of evaluation

Application - ***Reference materials are allowed.***

Certification test taken per conference schedule at NLC

Length of event

No more than ten (10) minutes orientation, ninety (90) minutes testing time, ten (10) minutes wrap-up

No more than one hundred twenty (120) minutes for certification test.

(410) Graphic Design Promotion

Description

Develop a theme and illustrate that theme in various promotional materials.

Eligibility

Any secondary division student member may enter this event. Members participating in national level competition must be registered for the event prior to submission deadline for technical judging.

Members must participate in both parts of the competition to be ranked.

Topic

A new energy drink called, ChargedUp, has contacted you to design all the brand images and packaging for this new drink. You will need to create the following:

- Logo with tagline (Max Out Your Day)
- Design full wrap around for the 16 oz. aluminum can. Packaging must include barcode, nutritional facts, ingredients, manufactured in the USA, and an energy drink warning label
- Design a fridge pack for four (4) energy drinks. Packaging must include barcode, nutritional facts, ingredients, manufactured in the USA, and an energy drink warning label
- Design a Point of Purchase display/shelf stand

Members who do *not* submit an entry that follows the topic above will be *disqualified*.

Member must supply

Carry-in and set-up of equipment must be done solely by the member and must take place within the time allotted

No Internet access will be provided on-site at NLC; however, members may provide their own access to be used only for their presentation to the judges

Members must supply all supporting devices (e.g., extension cords, power supply, etc.)

Digital presentation tools (device and software) (optional)

Props (optional)

Logo with tagline, Wrap around for 16 oz. can, Fridge pack for energy drinks and Works Cited (optional if they are not presenting electronically)

No equipment, supplies, or materials other than those specified for an event will be allowed in the testing area.

Props or visual aids are allowed in this competition.

No previous Business Professionals of America tests and/or sample tests or facsimiles thereof (handwritten, photocopied, or keyed) may be taken into the testing area. Violation of this rule will result in disqualification.

Competencies

- Demonstrate knowledge of graphic design and rules for layout
- Demonstrate effective use of color, lines, text, graphics, shapes, etc.
- Demonstrate the ability to present ideas to prospective customers illustrating reasoning and logic for the theme
- Use principles of design, layout, and typography in graphic design
- Generate appropriate artwork and design techniques to effectively illustrate a theme
- Apply technical skills to manipulate graphics, artwork, and image
- Demonstrate an understanding of developing for a target audience

Specifications

Description

Create a three to five (3:00-5:00) minute video production, based upon the assigned topic.

Eligibility

Any secondary division student member may enter this team event. A team will consist of 2-4 members. Members participating in national level competition must be registered for the event, prior to submission deadline for technical judging. Teams must participate in both parts of the competition to be ranked.

Topic

Create a three to five (3:00 - 5:00) minute informative video showcasing the farm-to-table movement, the journey of food from its origins on a local farm to its final destination on a plate. If you do not have access to a local farm, you can incorporate a local community garden or farmer's market. The video should capture the following aspects:

- Introduce a local farm, community garden or farmer's market. Highlight the farmers, community garden or farmer's market and their sustainable practices
- Illustrate the distribution process including transportation and logistics involved in getting the food from the farm, community garden or farmer's market to our food supply chain
- Capture the end-user experience focusing on families or individuals purchasing and preparing a meal using farm-sourced ingredients
- Include interviews with experts relating to the farm industry, community garden, or farmer's market and/or consumers about their views on the importance of eating locally sourced food

Teams who do *not* submit an entry following this topic will be *disqualified*.

Team must supply

- Digital presentation tools (device and software) (optional)
- Props (optional)
- Carry-in and set-up of equipment must be done solely by the team & take place within the time allotted

Description

Marketing in today's world spans multiple modes of media delivered to the end user via a combination of digital surfaces inclusive of a web presence suitable for desktop and mobile devices, potentially an app, and a social media presence. This event will focus on prototyping digital experiences for a singular brand, with an emphasis on collaboration, designing the user experience, and rationale for design decisions. Suggested free software to use can include Wondershare Mockitt, Zeplin, Moqups, InVision Studio, Proto.io, Pencil Project.

Eligibility

Any secondary division student member may enter this team event. A team will consist of 2-4 members. Members participating in national level competition must be registered for the event, prior to submission deadline for technical judging. Teams must participate in both parts of the competition to be ranked.

Topic:

Develop a digital shopping platform tailored to support a new cafe opening in your hometown called The Brew Barn. Your design must include the following:

- Responsive website mockup
- Mobile app mockup
- Social media campaign mockup (teams can choose the social media platform of their choice)

Suggestion user experiences to include:

- Allow users to easily browse drinks and other menu items, accumulate rewards for purchasing menu items and merchandise, and review items to earn free rewards.
- Highlight new specialty drinks and menu items and upcoming events for a season of your choice.
- Integrate social media features to enhance customer engagement and provide a platform for small businesses to connect with their customers.

Members who do *not* submit an entry following this topic will be *disqualified*.

Member must supply

- Digital presentation tools (device and software) (optional)
- Props (optional)
- Carry-in and set-up of equipment must be done solely by the member and must take place within the time allotted
- No Internet access will be provided on-site at NLC; however, members may provide their own access to be used only for their presentation to the judges

Competencies

- Demonstrate teamwork skills needed to function in a virtual branding environment

- Develop promotional cross-medium strategy
- Demonstrate awareness of requirements of target audience (prospective customers)
- Demonstrate awareness of accessibility concerns
- Demonstrate teamwork skills needed to function in a business setting
- Demonstrate interconnected cross-medium design plan, inclusive of brand and style consistency
- Apply principles of design and rules for proper layout in developing presentation
- Use principles of design, layout, and typography addressing multiple screen sizes
- Test usability and ease of use with others to practice engaging your target audience for designing a good user experience
- Demonstrate a balanced use of interactivity and animation to bring life to designs, but not to distract
- Demonstrate effective persuasive and informative communication and presentation skills

Specifications

- This is a pre-submitted event. See instructions for submissions.
- **Submit the three (3) clickable URLs to the three (3) projects, Works Cited, and signed Release Form(s) in a combined PDF file to <https://upload.bpa.org> no later than 5:00 p.m. Eastern Time, on April 1, 2025.**
 - For each of the three designed deliverables (web, mobile app, social media), you will be creating a shareable link to the prototypes you create. You will submit 3 shareable links for review: one shareable prototype or artboard link for the landing page, one for the mobile app experience, and one for the social media campaign.
- The team is responsible for securing a signed Release Form from any person whose image is used in the project.
- Members will receive an automated response confirmation at the time of submission. Individual confirmation of receipt *cannot* be provided by the National Center.

Eligibility

Any secondary division student member may enter this event. A team will consist of 2-4 members. Members participating in national level competition must be registered for the event prior to submission deadline for technical judging. Teams must participate in both parts of the competition to be ranked.

Topic

Background: VisionVR is an imaginative “fictitious” and forward-thinking virtual reality (VR) entertainment company founded by local entrepreneur, Emily Vision. With an unwavering commitment to immersive experiences, VisionVR is on a mission to redefine entertainment through cutting-edge VR technology, crafting unforgettable adventures for consumers. Since its inception, VisionVR has garnered acclaim for its ingenuity and dedication to delivering extraordinary virtual experiences. Now, poised for growth, VisionVR is exploring the prospect of expanding into the domestic market.

Task: Your marketing team has been hired to devise a comprehensive marketing plan for VisionVR's domestic expansion. Within the next one to three years, VisionVR is striving to establish a presence in a U.S. city of your choosing, with ambitions for international expansion within five to seven years. Additionally, your team will deliver a polished presentation encompassing the research findings and strategic recommendations for VisionVR. This presentation will serve as a catalyst to showcase your team's insights and proposed strategies to key stakeholders within the company, effectively communicating the value of the marketing plan and instilling confidence in VisionVR's future growth and prosperity. Prepare to articulate and defend your recommendations from a marketing standpoint, leveraging the power of marketing expertise to propel VisionVR towards success in the competitive landscape of virtual entertainment.

Use the Marketing Plan format in the *Style & Reference Manual* and the rubric as your guide.

Teams who do *not* submit an entry that follows this topic will be *disqualified*. Any marketing plan submitted beyond the maximum number of pages will be *disqualified*.

Initial Case Study Topic:

Innovation Retail, a well-established chain of brick-and-mortar retail stores, is grappling with declining sales due to the surge in e-commerce. The stores, located in a city of 550,000 people, employ eight full-time employees at each of their four locations located in different parts of the city. The hours of operation at each store are Monday – Friday from 9:00 a.m. – 5:30 p.m., Saturday from 9:00 a.m. – 2:00 p.m., and closed on Sunday.

Over the past two years, in-store sales have dropped significantly: by 27% at store 1, 24% at store 2, and 19% at store 3. At the fourth store's location, there was a slight increase in sales of 15%. CEO Matthew Lawrence has decided to embark on a digital transformation project to integrate online and offline

shopping experiences, tasking project manager Monroe Lewis and his team with leading this initiative. However, due to the continued decrease in sales and multiple attempts to generate additional income, discussions are now taking place about potentially cutting employees at each location. Even though total sales decreased at three stores, each full-time salesperson was paid a 20% commission on every purchase plus a bonus.

Internal Challenges

- Employee morale
- Employee digital skills gap
- Balancing resources between physical stores and developing the digital platform
- Employee costs

External Challenges

- Technology adoption
- E-commerce competition
- Economic factors
- Changing consumer behavior

As a team, you will develop a plan with different strategies for Monroe Lewis and his team to employ to help Innovation Retail be more profitable. While developing your plan, consider the following questions:

- How can Innovation Retail use its physical stores to make online shopping better and attract more customers?
- What online marketing methods can help bring more people to both the website and the physical stores?
- What new technology is needed to connect online and in-store shopping smoothly?
- How can Innovation Retail make customers more loyal and keep them coming back?
- What ways can Innovation Retail save money without hurting employee morale or customer service?

Teams who do *not* submit an entry that follows this topic will be *disqualified*.

(550) Parliamentary Procedure Team

Description

Demonstrate the use of correct parliamentary procedure through a chairperson's ability to conduct a business meeting in a democratic manner that allows the members of the team to effectively participate. Examine the team's knowledge of parliamentary procedure through oral questions and the objective test.

Eligibility

Any secondary division student member may enter this team event. A team consists of 4-8 members.

Members that participate in this event at the National level are eligible for twelve (12) years of paid membership offered by the American Institute of Parliamentarians.

Team must supply

Robert's Rules of Order Newly Revised (current edition)

Sharpened No. 2 pencil or pen for secretary's minutes

Gavel

Hard copy published and/or unpublished reference materials in the **preparation room only**

Open and Closing a Meeting scripts in the preparation room only

No equipment, supplies, or materials other than those specified for an event will be allowed in the testing area. No previous Business Professionals of America tests and/or sample tests or facsimiles thereof (handwritten, photocopied, or keyed) may be taken into the testing area. Violation of this rule will result in disqualification.

Competencies

- Demonstrate understanding of parliamentary procedure
- Apply understanding of a democratic process in decision making
- Apply effective practices for conducting a business meeting
- Demonstrate ability to process specified motions
- Demonstrate understanding of time management
- Evaluate and delegate responsibilities needed to perform required tasks
- Demonstrate teamwork skills needed to function in a business meeting setting
- Demonstrate effective communication and presentation skills

Specifications

- Each team will be given a test/agenda containing three (3) subjects related to Business Professionals of America; each subject is to be used to demonstrate one or more abilities in parliamentary procedure. This becomes the order of new business for each team.
- Each team will be allowed a preparation period of fifteen (15) minutes immediately preceding its appearance at the event. Only team members will be allowed in the preparation room.
- A blank 3"x5" index card will be provided for each team member.
- No advisor contact from time of preparation to completion of presentation is allowed.
- The team will be expected to conduct the meeting according to correct parliamentary procedure beginning with the opening ceremony.
- Suggested Procedure - officers should be seated at the head table; the Secretary should be seated to the right of the Chairperson and parliamentarian to the left.

- After the opening ceremony, the chairperson must acknowledge a quorum and then ask for general consent to dispense with the reading of minutes, officer reports, and committee reports; the secretary will read the first item of new business from the test/agenda. Proceed directly with the skills asked to demonstrate and conclude with the official closing ceremony.
- The Secretary will record the proceedings of the meeting in English, long hand, on a blank sheet of paper, and submit his/her handwritten notes to the judges immediately after the presentation.
- The Secretary will be permitted to take the contest agenda into the presentation room. This is to be submitted with the Secretary's notes. Secretary's Notes will be verified for content only.
- Each team will be limited to a maximum of fifteen (15) minutes for parliamentary demonstration. A warning card will be shown five (5) minutes before the maximum time and one (1) minute before the maximum time.
- **The parliamentary presentation will be stopped at fifteen (15) minutes.**
- Up to five (5) minutes will be allowed each team for questions by the judges. These questions will be directed to the chairperson for any team member to answer. Questions from the judges will have reference to the abilities demonstrated during the event.
- All team members must take an objective parliamentary procedure test. All team members must test at the same time. The average score of the team members will be added to the team score.
- Members may choose their own attire in accordance with the BPA Dress Code. Uniforms are *not* required.
- *Robert's Rules of Order Newly Revised (current edition)* will be the authority for this event. Any parliamentary procedure reference materials (published or unpublished) will be allowed in the **preparation room only**. Each team member may have one 3" x 5" note card during the presentation but may *not* refer to the authority during the presentation.
- All written materials, as well as spoken presentations, must follow the organization's Graphic Standards and make proper use of the logo and/or organization's name. (Refer to Graphic Standards in the *Style & Reference Manual*.)

Method of evaluation

Opening a Meeting

The opening ceremony sets the stage for a chapter meeting. The ceremony, done in a proper and professional manner, will demonstrate to the members a well-planned and organized meeting. This will make meetings more orderly and effective.

The Opening Ceremony

President

(Stands and raps the gavel once for attention.) The meeting will come to order. We are now holding a meeting of the Business Professionals of America. Mr. /Madam Vice President, what are the major purposes of our professional organization?

Vice President

We recognize the importance and understand the contributions that have been made to our country by business professionals. We are preparing to take our place in these challenging positions. We work together in Business Professionals of America to develop essential competencies in leadership, scholarship, character, and citizenship so that we may share in the improvement of our economy and the advancement of our nation.

President

May we accomplish these objectives? Mr. /Madam Vice President, will you please present the other officers?

Vice President

With pleasure, I introduce:

(Introduce in order the President, Historian, Secretary, Treasurer, Parliamentarian, and Vice Presidents. Pronounce the name of each individual and the office held. As each officer is introduced, he or she should stand and remain standing until seated by the President.)

Mr. /Madam President, the officers are at their stations.

President

Will the members and friends please rise and join me in reciting the Pledge of Allegiance to the Flag? *(Raps the gavel three times to call the members and guests to stand.* The audience should rise on the third rap of the gavel. All members face the flag with their hands over their hearts to repeat the Pledge of Allegiance to the Flag.)

Everyone

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

President

Fellow members and guests, join me in stating why we are here.

Everyone

We are met in a spirit of friendship and goodwill as we prepare for careers in a world-class workforce. We work together to develop professionalism and leadership through Business Professionals of America and pledge our loyalty to our nation.

President

Please be seated.

Closing a Meeting

The closing ceremony, when properly presented, will bring a dignified closing to a session or meeting. It is an indication to the members or guests present that all business has been transacted.

Equipment and Supplies

Gavel

The Ceremony

President

Mr. /Madam Secretary, do you know of any further business which should be transacted at this time?

Secretary

(Rises, replies, and sits down.) I have none, Mr. /Madam President.

President

We are about to adjourn this meeting of the Business Professionals of America. As we associate together, let us be supportive of each other as we strive to attain the goals of this organization. *(Pause)* If there is no further business and no objection, the meeting will be adjourned. *(Pause)* I now declare this meeting adjourned. *(Rap gavel once.)*

(555) Presentation Individual

Description

Using current technologies and software, prepare and deliver an effective multimedia presentation.

Eligibility

Any secondary division student member may enter this event. A member may *not* participate in more than one of the following events in the same year: Presentation Individual and Prepared Speech. A previously used presentation may *not* be used.

Topic

Career and Technical Student Organizations (CTSOs), such as BPA, are pivotal in shaping students' personal and professional development. Engaging in these organizations provides a dynamic platform for honing essential skills like leadership, communication, and teamwork, fostering growth through hands-on experiences and competitive events. Moreover, BPA offers invaluable networking opportunities, connecting students with industry professionals and alumni, potentially leading to mentorship and job prospects. However, the decision to join or not join BPA is influenced by various factors, including the perceived benefits and drawbacks of involvement, individual priorities, personal circumstances, and additional considerations such as time commitment, financial costs, stress management, and maintaining a healthy work-life balance.

Your task is to create a presentation based on both research and personal experience that uncovers the factors influencing student involvement in BPA to empower future members to make informed decisions about joining BPA and maximize their experience within the organization.

Points to consider include but are not limited to:

- Perceived benefits (pros) and drawbacks (cons) of BPA involvement
- Importance of leadership, communication, and teamwork skills
- Networking opportunities and potential mentorship/job prospects
- Time commitment and financial costs associated with membership and participation
- Stress management and coping strategies
- Strategies for maximizing the BPA experience

Members who do *not* submit an entry that follows this topic will be *disqualified*.

WORKPLACE SKILLS ASSESSMENT PROGRAM

RECOMMENDATION PROCEDURES

How to Submit a Recommendation:

1. Input from local advisors and/or students for changes in workplace skills assessments shall be submitted on the Workplace Skills Assessment Program Recommendation Form located online at: register.bpa.org by June 15.
2. Recommendations for all changes in events and specifications must describe suggested wording change in the Secondary/Post-secondary Guidelines for the Workplace Skills Assessment Program.
3. Recommendations for all changes in the administration of workplace skills assessments must describe the suggested procedure to be followed by event administrators.
4. Recommendations, including a clearly stated rationale for all changes, must be completed and keyed with no abbreviations. Please attach all supporting documentation, if applicable. For example: if the recommendation concerns a form, refer to and attach the specific form; if it concerns a pilot test, refer to and attach the specific test.
5. Submitted recommendations must include:
 - a) specific recommendation
 - b) clearly stated rationale
6. Recommendations received after June 15, but prior to the summer CEAC meeting, must be distributed directly to each state advisor, CEAC representative, and the National Center.

How Recommendations are Answered:

1. CEAC will bring the state priority recommendations to the summer meeting for CEAC action as:
 - a) approved as presented
 - b) approved with changes
 - c) rejected
 - d) point of information
 - e) tabled
2. If the recommendation is approved, and it is a major change, it will be taken to the Programs Committee of the Board of Trustees. Other changes will be presented as a "point of information."
3. Recommendations rejected will be returned to the originating state with an explanation.
4. The Programs Committee will review the CEAC recommendations and submit them to the full Board of Trustees for final approval and implementation.

WORKPLACE SKILLS ASSESSMENT PROGRAM

PILOT PROCEDURE

- Step 1 A PROPOSAL FOR WORKPLACE SKILLS NEW EVENT** be completed by the person proposing the event in coordination with their State Advisor and their CEAC representative(s). This form will be found on the Business Professionals of America website and in the Workplace Skills Assessment Guidelines.
- Step 2 Summer:** At the summer meeting, a need for a new event is presented and supported by a majority of members of SAAC and CEAC. A minimum of two states must agree to pilot the proposed event at either/or both regional and state levels. The proposed event is recommended for Board approval.
- Step 3 Summer:** The proposed event is presented to the Board of Trustees for review and action. If approved, authors will be contracted by the National Center to write all levels of the pilot event and evaluation instruments for pilot states to complete.
- Step 4 Fall:** The regional and state levels of the pilot event are distributed to all state organizations. Other states, in addition to the two initial states that agreed, may decide to pilot the event and must inform the National Center by the designated deadline. Any state who agrees to pilot the new event understands it has *not* been through the CEAC auditing procedure and, thus, agrees to accept and administer the event as received.
- Step 5 Spring:** Proposed event is piloted in at least two states at their spring conference. The event may also be piloted at the regional level, if desired. Each piloting state will conduct an evaluation to be administered immediately upon completion of the contest. Evaluations should be completed by:
- a. All participants
 - b. Administrators, proctors, graders, judges
 - c. State CEAC representatives
 - d. State Advisors
- Step 6 Spring:** Proposed event is piloted at NLC.
- a. Only students who competed in the pilot event at the state conference may compete in the pilot event at NLC.
 - b. The number of entries per state in the pilot event will be the same as any other event in the same category.
- Step 7 NLC:** Participants in the pilot event at NLC will be recognized in the same way as participants in other events in the same category.
- Step 8 NLC:** At the conclusion of the pilot, the following groups will evaluate the event:
- a. All participants
 - b. Administrators, proctors, graders, judges
 - c. CEAC members present
 - d. SAAC members present
- Step 9 Summer:** At the summer meeting, the proposed new event will be audited by CEAC and submitted for Board review. Joint CEAC and SAAC recommendations will also be submitted for review. If approved by the BOT, authorship will be assigned by the Director of Education & Professional Development and an addendum to the Guidelines will be sent to all states.

Academic Integrity Policy

Academic integrity is at the center of Business Professionals of America's educational mission. It is imperative that all work submitted by our membership be a true reflection of that individual's and/or team's effort and ability. This includes, but is not limited to:

- Workplace Skills Assessment Program (WSAP) competitive event project submissions and all online assessments.
- Application submissions for the BPA Cares, Torch Awards or scholarship programs.

Any member (including, but not limited to, advisors, students, alumni, volunteers) who has demonstrated unacceptable academic behavior by violating the National BPA Academic Integrity Policy is subject to disciplinary action.

Intentional or unintentional violations of the Academic Integrity Policy, include but are not limited to:

- Not citing a source in text and/or in a Works Cited when:
 - Using another individual's work, idea or opinion
 - Using information from any source or reference material
 - Using any charts, infographics, pictures, sounds or any other media elements
 - Using quotations from an individual's actual spoken or written words
 - Paraphrasing (putting into your own words) an individual's work
- Allowing advisors, alumni, parents, friends or any other individual to create content for the competitor(s)
- Attempting to cheat on any objective online or offline assessment exam (example: using online resources and/or old BPA tests during the event)
- Removing and/or sharing any event-specific information from the event (such as the test, application tasks, objective test questions, speech prompts, etc...)
- Fabricating signatures on entry forms and/or release forms
- Fabricating sources (such as creating fictitious articles or authors)
- Re-using your own projects from previous years (self-plagiarism)
- The use of ChatGPT (or other AI tools) to complete any submitted work must be properly documented and sourced on the works cited document.

National BPA Academic Integrity Violation Procedures

The following guidelines will be adhered to if a member has demonstrated a violation of the National BPA Academic Integrity Policy:

1. Any individual who discovers sufficient information to substantiate an academic integrity violation should immediately (within one hour) complete an Academic Integrity Violation Form and submit to the BPA Director of Education at the Competitive Events Headquarters if during NLC, or via email if occurring prior to NLC (pre-judged materials, BPA Cares applications, Torch Award resumes, scholarship applications, etc.).
2. Upon receipt and review of the Academic Integrity Violation Form, the Director of Education will notify the Grievance Committee of the alleged violation (including a detailed synopsis and proof to substantiate the violation via the Academic Integrity Violation Form).
3. The Grievance Committee will review the Academic Integrity Violation Form and, if the violation is substantiated, determine an appropriate course of disciplinary sanction(s) based on proof and the severity of the violation, which may include:
 - a. a reduced score on any scorable item/entry
 - b. a grade of "zero" on any scorable item/entry
 - c. immediate disqualification from the related competitive event, BPA Cares program, Torch Awards program, scholarship and/or any other related event in the BPA Platform, and/or
 - d. membership suspension.
4. The respective member, local advisor, and state advisor or designee will be notified of the Academic Integrity Violation and given the opportunity to respond/appeal the decision if disciplinary action is taken.

State associations may follow these violation procedures for their regional and state leadership conferences and/or may enforce additional penalties.

ACADEMIC INTEGRITY VIOLATION FORM

Please fill out the form below within one (1) hour of the violation to file an academic integrity violation. The completed form should be hand delivered to the Director of Education at the BPA NLC Competitive Events Headquarters if the violation occurs during NLC, or via email if occurring prior to NLC (pre-judged materials, BPA Cares applications, Torch Award resumes, scholarship applications, etc.). The BPA Grievance Committee will notify the member, local advisor, and state advisor or designee of the Academic Integrity Violation and an opportunity will be provided to respond/appeal the decision if the violation is substantiated, and disciplinary action is taken.

If you have multiple members and/or a team to report for the same violation, complete the form and save the file once for each member/team and update the information beginning on page 2.
