Using HISD Resources- II

HISD has 2 platforms for teachers and students to work, collaborate, and communicate:

Google Education

Office365

Many of the tools in these platforms are available to students, and they can access them and use them at any time.

Platform	Some of the tools available to students
Google Education	Drive, Docs, Sheets, Slides, Classroom, Drawings, Forms
	Google email is **NOT** available to students
Office365	OneDrive, Word, Excel, PowerPoint, Teams, Forms, Outlook Email

To log in to either of the platforms, students must use their HISD credentials:

Username: sxxxxxxx@online.houstonisd.org xxxxxxx is the student's HISD number.

Password: MMDDYYYY Student's birthday in MMDDYYYY format.

The email above can also be used by students to sign up and sign in to other sites. Parents should always monitor their kids when signing up to any websites.

Parents are strongly encouraged to mainly use the resources available on the digital resources page, as these resources have been tested and vetted by the district. Schools might also have additional resources that are not available through digital resources but still are teachers' favorite applications for students to use.

Access to Students Digital Resources:

Through the Digital Resources Page (Same link to Clever):

Depending on the grade level, and the HISD school students attend, websites and apps will be available through this page.

Many of the apps will automatically log the student in.

Find, and click on the app you want to access. If a login pages appears, try logging in using the student google account.

If login is unsuccessful, try registering/signing up using the student google account.

If signup is unsuccessful, try registering/signing up using a parent email address.

If unsuccessful, it means the student does not have access to that specific site.

Library Reference Resources might need a different login information. Refer to the students Password Sheet for credentials.

Links from School website

Subscriptions provided by the school that are not available through Digital Resources page

Refer to the Student Password Sheet for credentials.

The Login information for most of these sites is

Username: sxxxxxxx xxxxxxx is Student HISD ID number

Password: MMDDYYYY student's birthdate in MMDDYYY format)
