  - ii) Panel labeling

  - (1) The water fountains have been leaking since the start of school.
  - (2) HIG recently replaced the water fountains but the school is still dissatisfied with the fountain complaining about water on the floor coming from the fountains.
  - (3) AECOM asked FGC to review the product and investigate alternative fountains for possible replacements.
- ii) Hot water in the custodial closets fourth week
  - (1) The school mentioned there was no hot water in the custodial closets.
  - (2) Last week, after the meeting JE, FGC, AECOM and HIG walked and determined:
    - (a) Closet in hall near cafeteria not piped for hot water before the project started.
    - (b) Closet near boy's restrooms in main hall
      - (i) Need electrical connection completed.
      - (ii) HIG completed this in the past week. The heater functions.
