**To: All Parents, Guardians and Employees**

**Subject: AHERA Notification**

In compliance with the US Environmental Protection Agency, (EPA), Asbestos Hazard Emergency Response Act (AHERA), Houston Independent School District (HISD) performed school building inspections for asbestos-containing building materials and have developed an Asbestos Management Plan that includes surveillances of asbestos-containing material every six (6) months and a re--inspection every three years. This facility's findings and asbestos management plan are on file in the school administrative office, for public review, Monday through Friday during regular business hours.

It is important to note that if the school's asbestos management plan indicates that asbestos-containing building materials were used in the construction that these materials are in a form and condition that do not pose an imminent health threat to students, staff and visitors.

For additional information about AHERA or any specific questions regarding asbestos containing building materials, contact Facilities Services Code Compliance Manager, Lucie Garcia at 713-670-3901.
