College Night

Monday, October 9th, 6-8PM

Westside's annual College Night will be held this coming Monday night, October 9th, from 6-8 PM in the Westside Commons. Over one hundred college admissions representatives from our great Texas schools, as well as from schools across the nation, will be participating. Westside students and parents will have an opportunity to browse the tables, pick up literature, and even visit with the reps one-on-one to ask questions and hear about each school's offerings.

All Westside students and families are encouraged to attend—from Freshmen through Seniors! It's not too late for seniors to look for additional options to add to their application lists. And, it's never too early for underclassmen, even Freshmen, to start considering op-

tions, and building relationships with admissions officers. Come out on Monday night from 6-8 PM and find your Dream School!

**For 9th, 10th and 11th
Graders!**
**Get a good night's sleep and
arrive on time!**

Calendar

Tues. 10/3

Parent Meeting: Costa Rica
Trip, 6pm in E127

Fri. 10/6

End of 1st 6-weeks

Volleyball Impresses This Season

Westside's Volleyball program impresses this season with some amazing victories. The Varsity team defeated Bellaire High School last week for the first time since 2013. They fought their way back from a 2-1 deficit to take the win. Congrats to the Varsity squad!

The Freshmen & JV teams are having an impressive tournament season this year. Both teams edged out the competition and took first place in the Alief Sub Varsity Tournament. JV beat Elsie High School, and the Freshmen team prevailed over Stratford.

In the Spring Branch Tournament, JV battled its way all the way through to the final round, but came up short against Bridgeland High School. Great job ladies!

JV Girls take first at the Alief Sub Varsity Volleyball Tournament, with Coach Miguel Gusart

WEGA Students Compete at Shell STEM Showdown

A group of Westside engineering students recently competed at the 4th Annual Shell STEM Showdown, a competition for high school freshmen at the University of Houston main campus. The event is sponsored by two industry partners, the Independent Petroleum Association of America (IPAA), and the Petroleum Equipment & Services Association (PESA). Five area high schools each sent 24 students to compete in teams of eight for prizes and cash awards for their schools. Each team had a college mentor who coached them through their design challenges.

In the morning, students designed a mechanical hand using cardboard, straws, ribbon, and glue, and then used the hand to pick up and stack foam cups in a specific pattern. In the afternoon, students designed rockets from paper and cardboard tubes, which were launched using compressed air. One Westside team won the

Spirit Award for the event.

While the students worked, parents and teachers attended a separate session where they learned about Shell resources to help the students increase their interest in STEM careers.
