What are Extended School Year (ESY) services?
Extended School Year (ESY) services are special education and related services that are provided to eligible students with disabilities beyond the regular school year in accordance with their IEP (Individual Education Program). The need for ESY services must be determined on an individual basis by the Admission, Review, and Dismissal (ARD) Committee.

What is the purpose of ESY services?
The purpose of ESY is to help students maintain critical skills over breaks. It is provided to minimize or prevent regression.

How is ESY determined?
The need for ESY services must be documented from formal or informal evaluations provided by the district or the parents. If a student requires a significant amount of time to recoup acquired critical skills, then the ARD committee must discuss whether the student needs extended educational or related services during school breaks. If the loss of acquired critical skills would be particularly severe or substantial, or if such loss results, or may reasonably be expected to result in immediate physical harm to the student or to others. ESY services may be justified without consideration of the period of time for recoupment of such skills.
