Classification and Promotional Adjustments for Principals

Salary is based on a combination of the following pay variables: principal experience and school type, size and complexity. Campus-based variables are calculated and produced by the Research department, and are determined by averaging school data taken for PEIMS reporting the last Friday in October, and taken again the last Friday in April of the same school year.

An employee who does not earn a creditable year of service and/or who remains on the same pay step for any other reason (such as being at the maximum pay step) is not eligible for a pay increase beyond any increase made to the pay step to which the employee is assigned. Note: principals who work less than half time are not eligible to earn experience credit and will not advance on the step scale.
