WELCOME BACK!

Our hallways and classrooms have been empty all summer. We are so glad to have our students and their smiling faces back and eager to learn. We are looking forward to an exciting 5th grade year. If you are interested in joining the PTO, being a field trip chaperone or room mom or dad, please visit HISD to become a VIPS and reach out to your teacher! We are using Class DoJo as a communication tool this year. If you haven’t already please accept our invitation to join!

MATH STUDENTS WILL
- Expand place value
- Use math manipulatives
- Use comparative symbols
- Use concrete models and pictorial representations
- Learn to round decimals to the 10ths and 100s

READING STUDENTS WILL:
Students will learn how to describe, explain, analyze, and infer personal narratives. Through class readings, group discussions, and other strategies, students will learn how to read and analyze personal narratives to apply in their own personal narrative.

SCIENCE STUDENTS WILL
Students will learn about how Earth’s surface is constantly changing and how landforms are created through the processes of weathering, erosion and deposition. Students will study the rock layers in the Grand Canyon and the fossils they hold and will be able to interpret how the layers hold information about the history of environments on Earth.
