

Dear Families,

With access to myON, your students have more than 5,000 digital books in their hands every day and at any moment. myON is a digital library complete with all of the titles from Capstone as well as many exciting third-party publishers. Students and parents can access myON in school, at home or anywhere across the community with WiFi on a web-based device.

Research shows that when students have the opportunity to choose books at their level and within their interests, they will be more engaged in reading. Families should read together whenever they have the opportunity.

The digital books on myON's platform have optional scaffolds, including audio, text highlighting and an embedded dictionary, to support students at every level. myON has books from every genre to engage even the most reluctant readers: fiction, biographies, scientific texts, graphic novels and more. All of the books create a magnificent learning experience for students.

### myON ACCESS OUTSIDE OF HISD

1. Open a web browser (preferably Chrome) and access the HUB at [houstonisd.org/hub](http://houstonisd.org/hub).
2. When prompted with the Houston ISD Login Service screen, enter:

**Password:** XXXXXXXX  
 (“X” is the student’s 8-digits birthday. For example, August 10, 2008 is 08102008)

There are many different digital resources for Houston ISD students as shown on the right.

Answer the questions carefully so that myON can do its best to personalize your reading experience.

6. Read from your Recommended List to make the most progress. Also, you can browse or search the Library for even more titles.
