

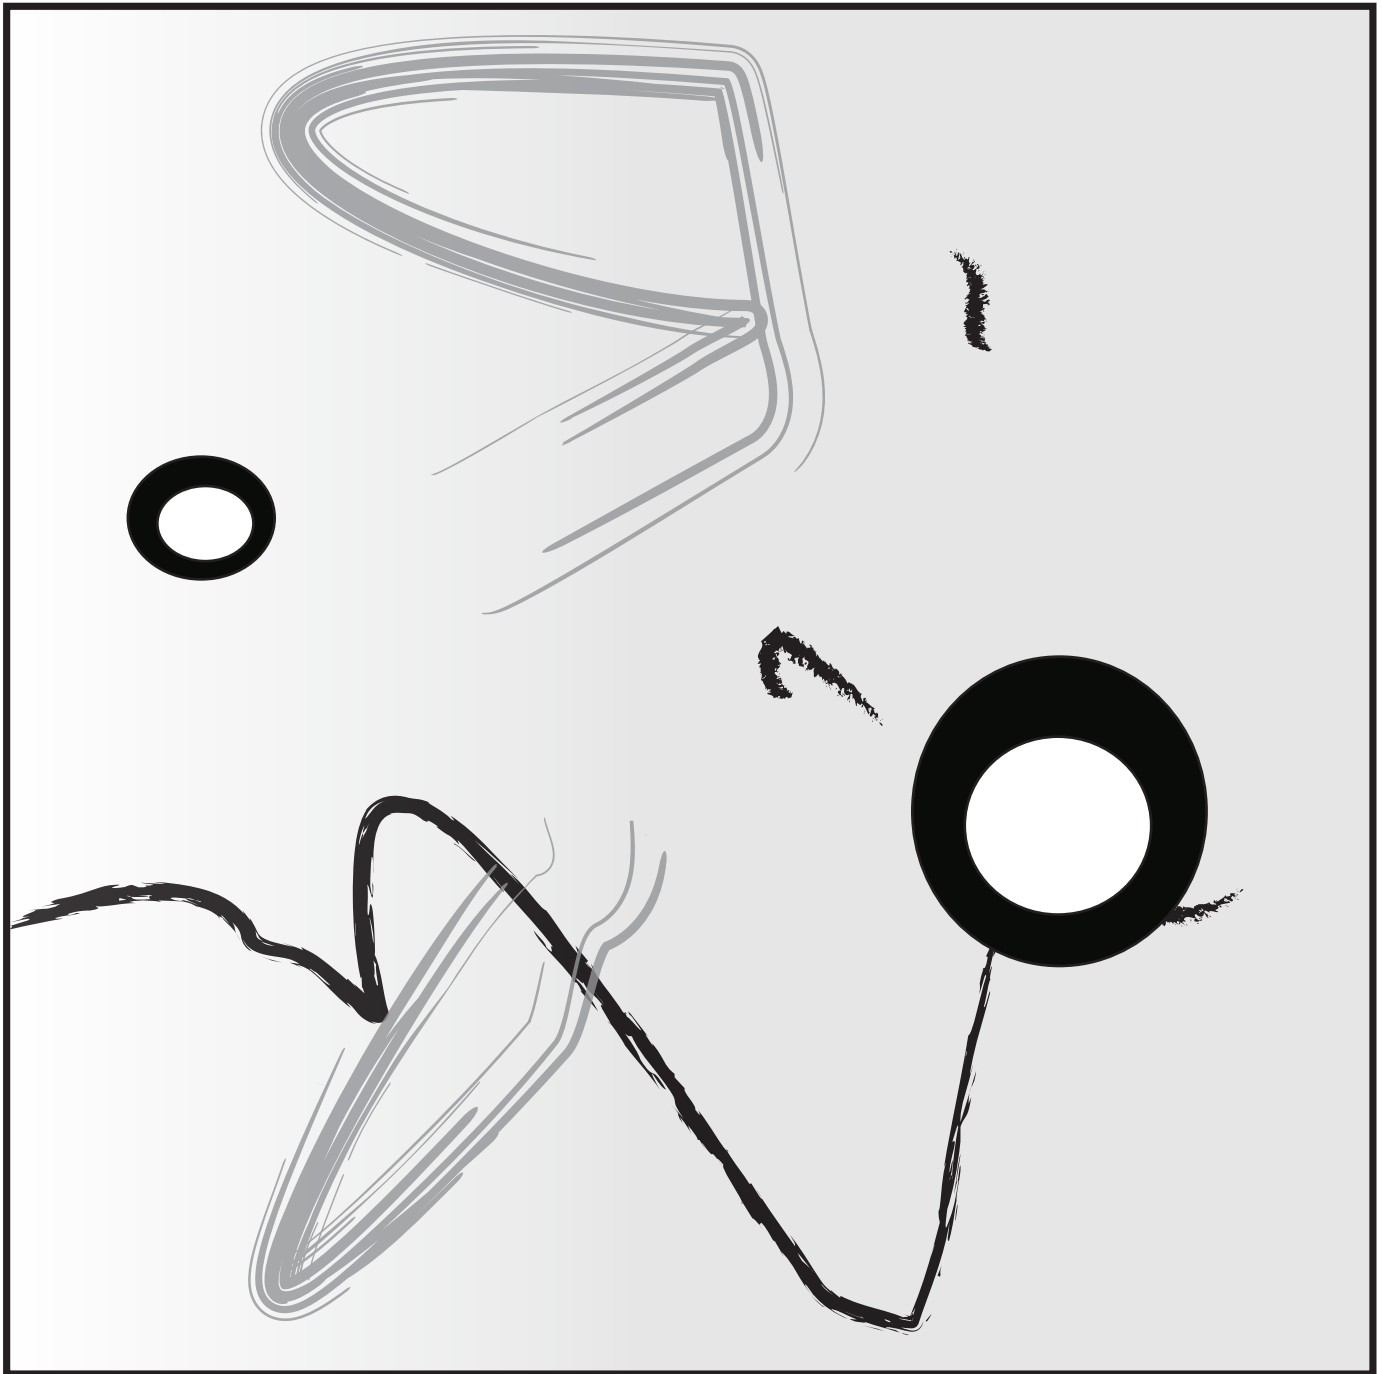

## Graphic Solution

1

Complete the drawing below with as much detail as possible. Use ebony pencil only. As you create your drawing, think of a TITLE and write it in the space provided below.

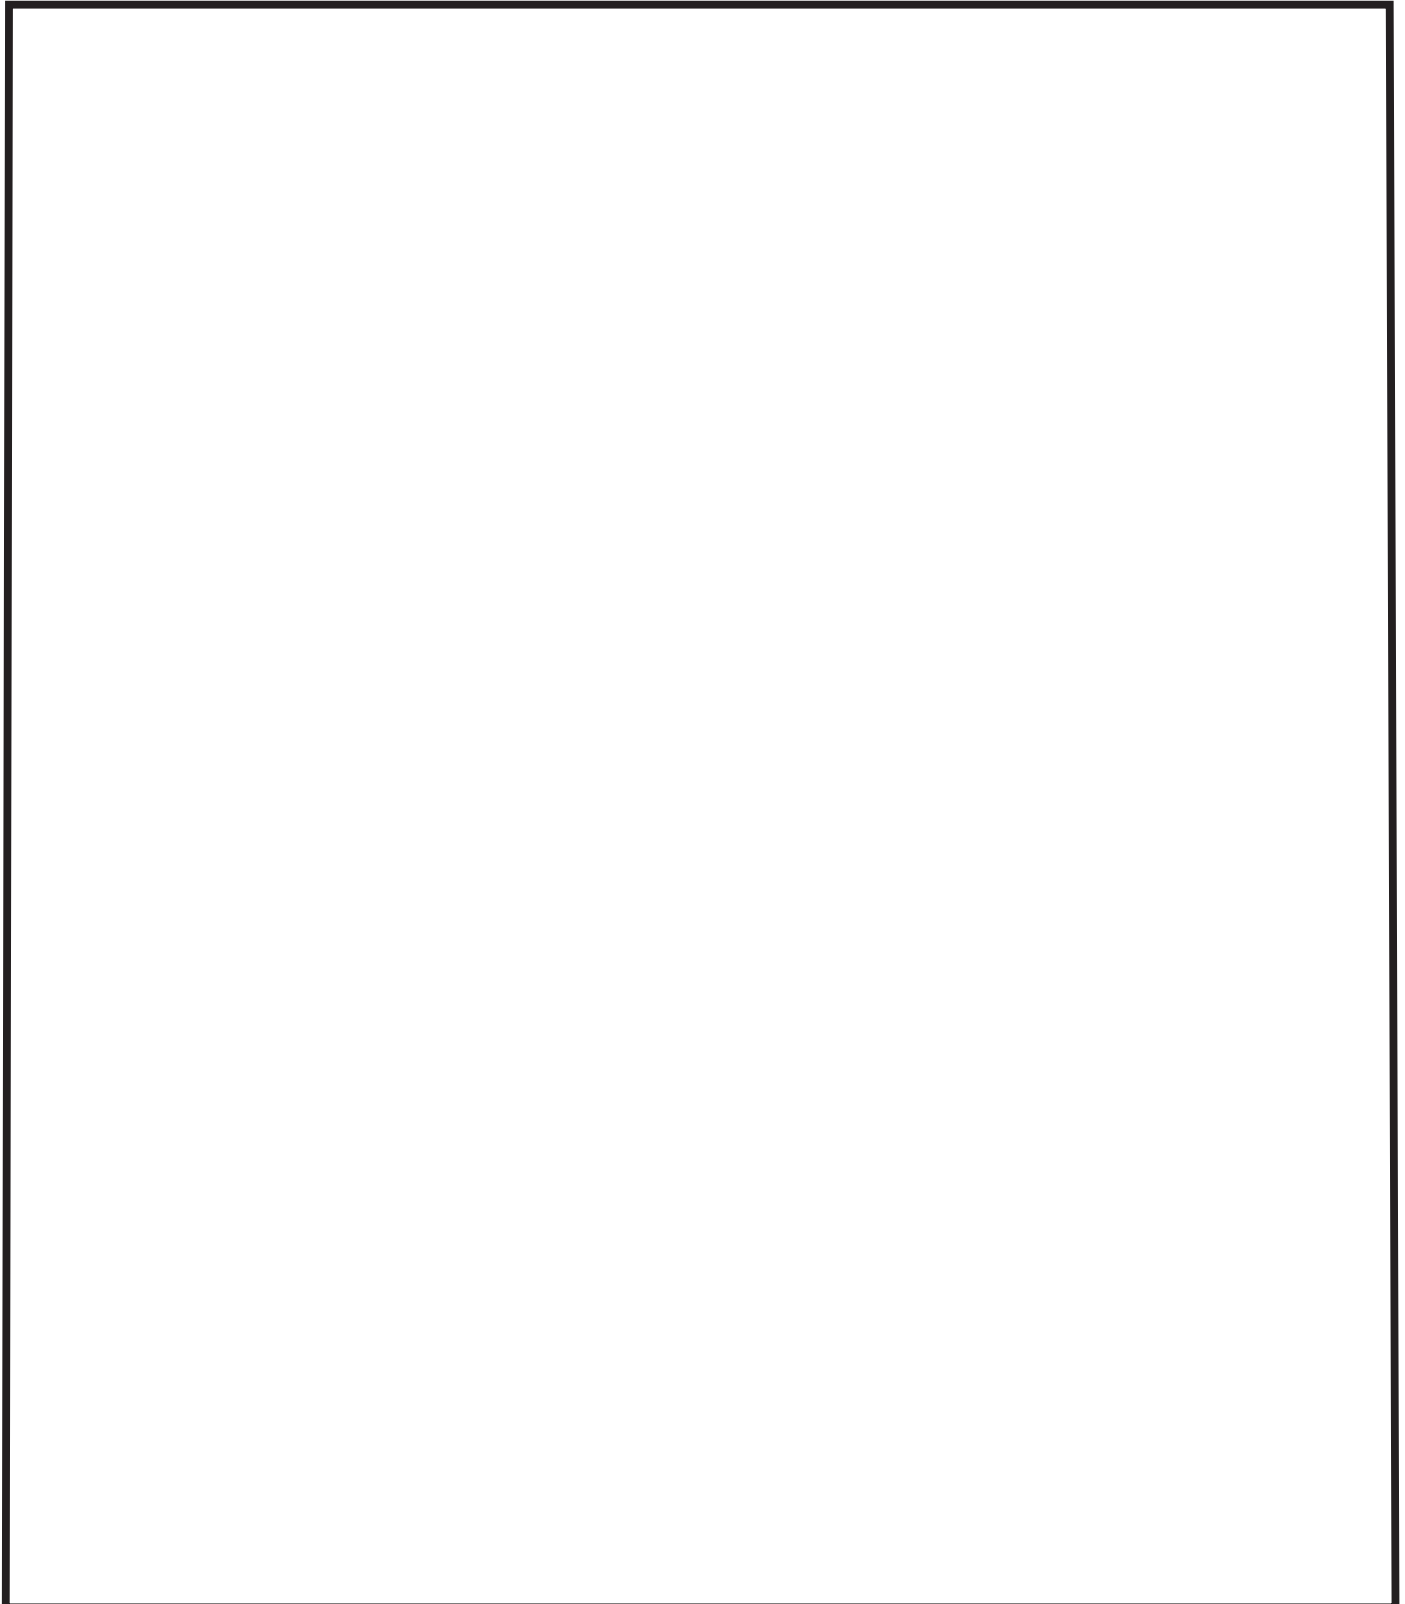

TITLE OF YOUR DRAWING \_\_\_\_\_

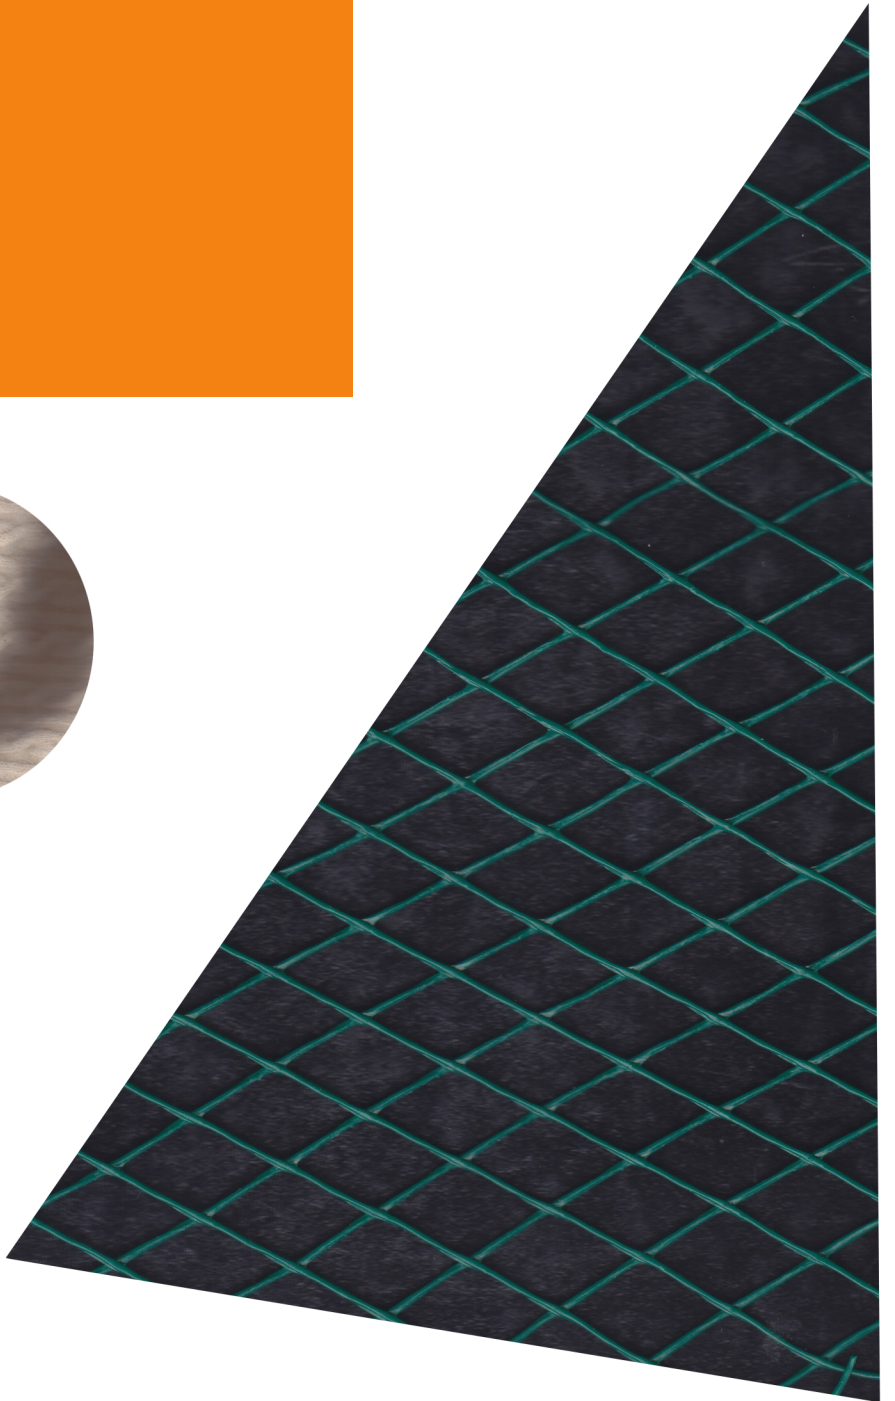

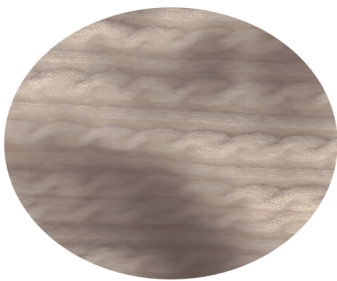

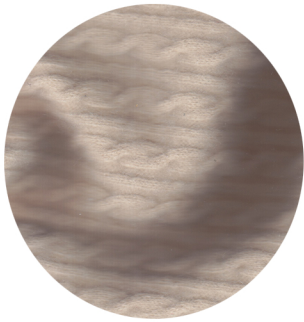

## Design

2

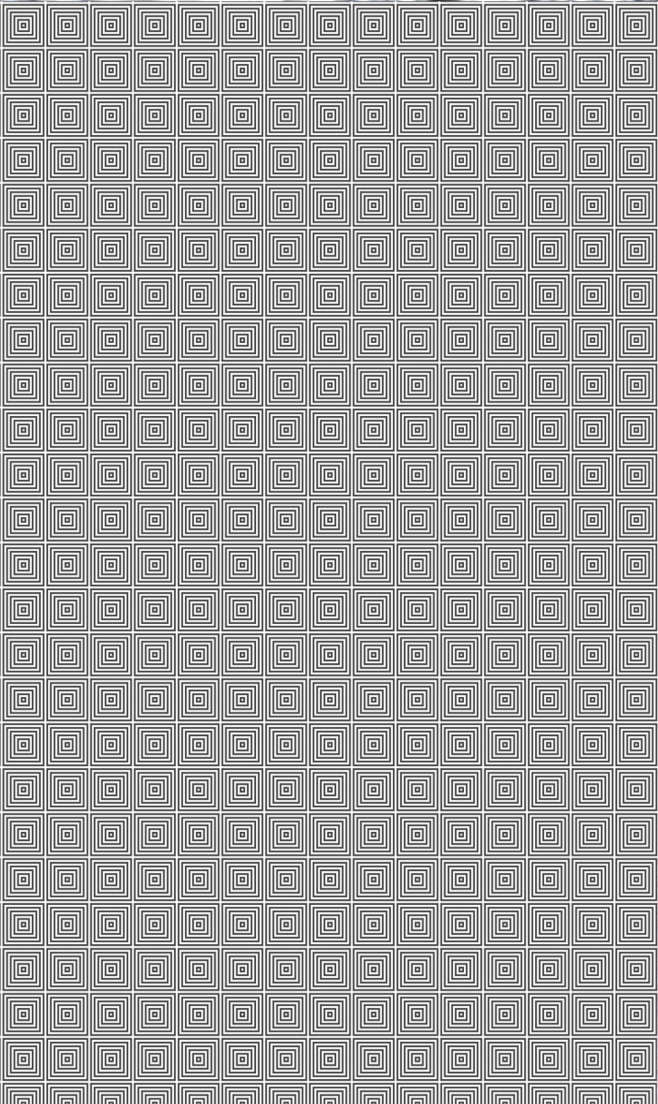

For the exercise, you have been given sheets of imagery. Using only these images, scissors and glue to create an interesting two dimensional design or pattern by cutting out and gluing **some** or **all** of the materials. Glue them in place to make the best use of the space inside the rectangle. **MAKE DESIGNS OR PATTERNS, NOT PICTURES** of people or things.

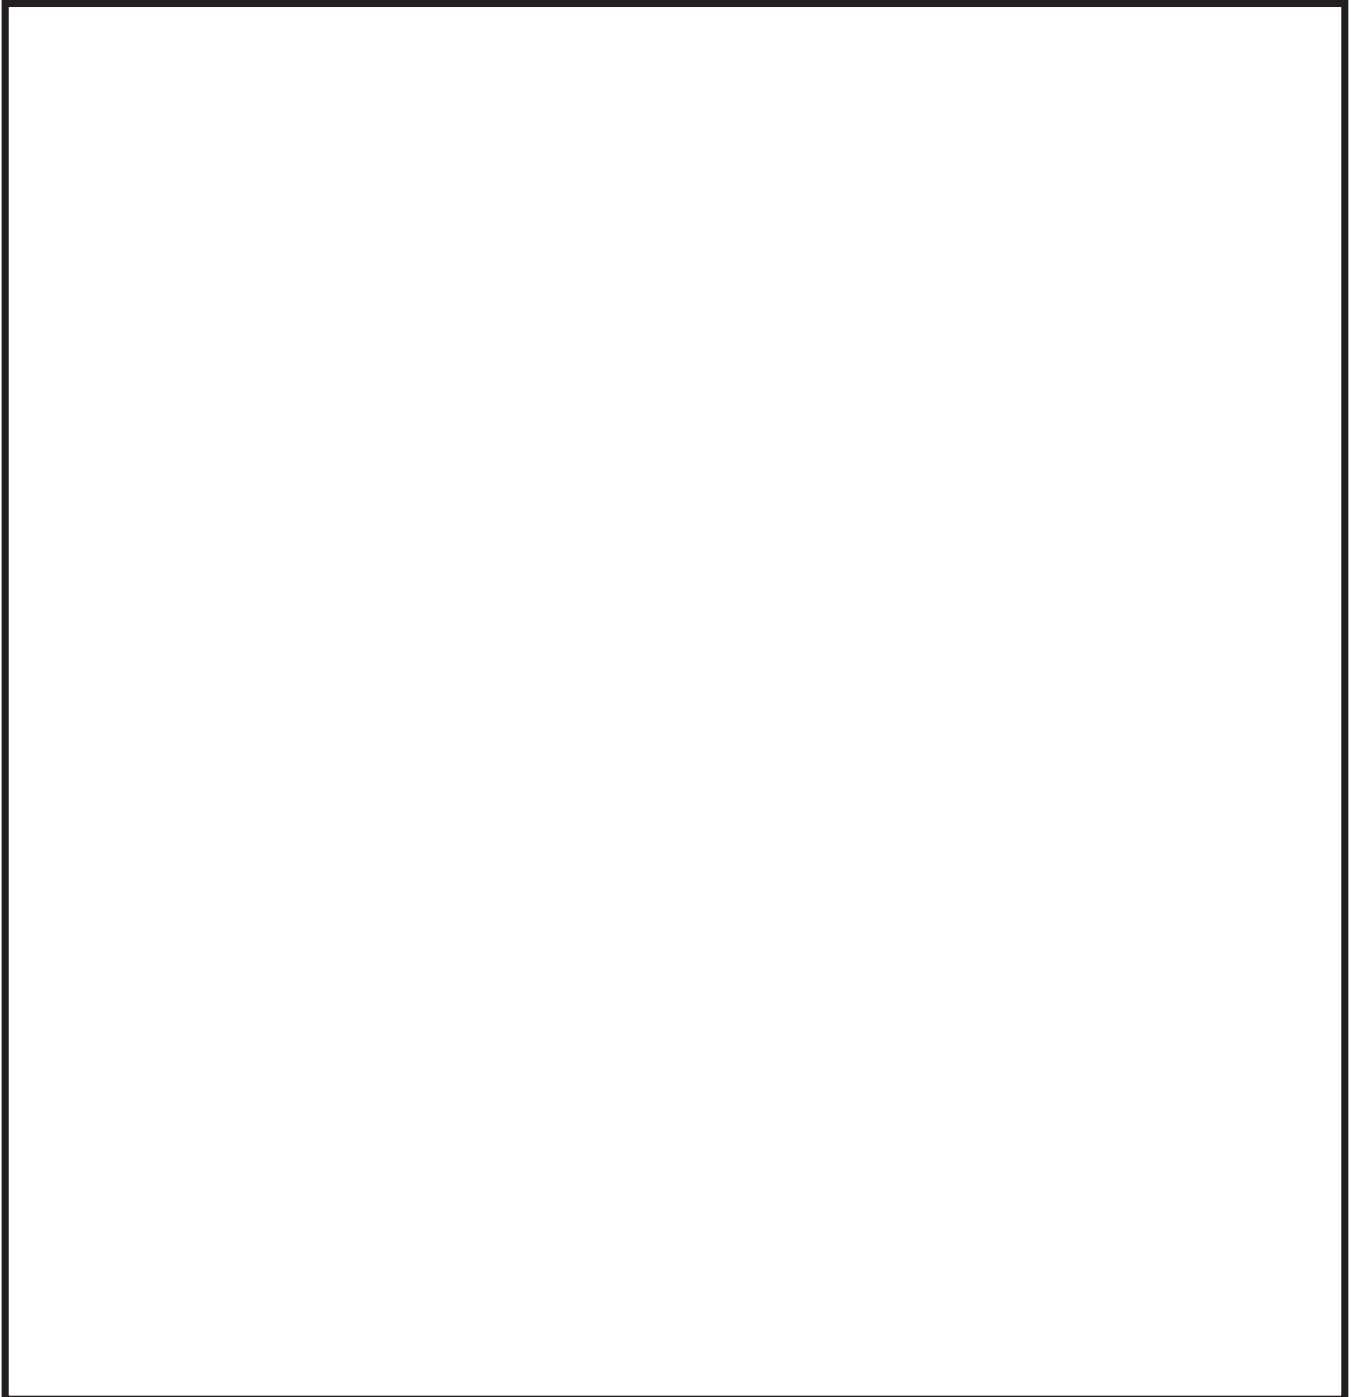

## Drawing From Observation

In the space below make a drawing of a view from your window. MAKE SURE YOU INCLUDE the foreground and the background. FILL THE ENTIRE SQUARE. Make your drawing as accurate and realistic as possible by focusing on proportion and scale. Look carefully at the various textures, shapes and at the light and dark areas created by the shadows and highlights. You may use **only the ebony pencil**.

PLEASE USE YOUR BEST DRAWING AND COMPOSITIONAL SKILLS.

## Narrative Imagination- Post Pandemic

Depict an invention that is a result of the pandemic. How can new inventions help improve our daily life? Illustrate how we will live life differently with your invention. Draw this invention in action including people and the environment. Use elements from life and imagination. Use any 2D materials of your choice on this worksheet to complete this task.

## Visual Riddle

# 5

Study the boxes below. Complete each picture by drawing in the space. Consider the relationship between the images, the actions that they are taking, and the background. Be as creative as you can be. You must complete all THREE. You can use any 2D media of your choice to complete this worksheet. Remember to complete the whole space! Give your work a title below.

**Title:** \_\_\_\_\_
