DEDICATION

With the democratic spirit of the times dominating the theme of this issue of THE BUFFALO we dedicate Volume X to the principles of democratic unity in the Western Hemisphere & to this staunch advocate of this ideal, the Honorable Cordell Hull, Secretary of State of the United States of America.

THE SECRETARY OF STATE
WASHINGTON

October 18, 1940

My dear Miss Chambles:

I wish to acknowledge the receipt of your letter dated October fifteenth and to thank you for your courtesy in informing me of the plans of the Charles H. Milby High School to adopt "Hemisphere Defense" as the theme for its year book.

As of possible interest and for such use as you may desire, I take pleasure in quoting below an excerpt from my speech to the Second Meeting of the Foreign Ministers or their Representatives of the American Republics at Habana on July 26, 1940:

"By helping each other, by carrying out with vigor, determination and loyalty whatever decisions are reached, the American nations can build a system of economic defense that will enable each of them to safeguard itself from the dangers of economic subordination from abroad and of economic distress at home."

Sincerely yours,

Miss Maurine Chambles
Charles H. Milby School,
1601 Broadway,
Houston, Texas.

We, the staff of the 1941 BUFFALO, have tried to bring to Milby students some of the highlights of this school year and at the same time to record our ideas of the extreme importance of friendship between ourselves and our Latin-American neighbors. With this feeling dominating our national life, we have chosen Pan-Americanism as our theme.

We sincerely hope this book will recall in years to come the joys and woes of our high school days and meanwhile be of some aid in cementing democratic unity in the Western Hemisphere.
Today we realize more than ever what a privilege it is to live under the torch of Liberty. The United States of America has kept this torch burning brightly by establishing public schools and colleges for the education of all.

The National Government helps the poor to become educated by providing part-time jobs in order for them to complete their education.

Education is the foundation of Democracy; our privilege it is to strive for a 100 per cent enlightened nation.
ADMINISTRATION

BOARD OF EDUCATION OF HOUSTON INDEPENDENT SCHOOL DISTRICT

DEAN—ADV. SHORTHAND
The United States of Venezuela, as one of our South American neighbors, has had a history of bloody battles, uprisings and revolutions. Its longest period free from strife was from 1880 to 1892, twelve years, under Guzman Blanco.

Due to these internal quarrels, which have kept it undeveloped, it has been a struggle to enforce education throughout the country. Since 1921, however, when a law was passed which made primary education free and compulsory, it has become more general.

Now there are a number of schools and colleges established in this country of beautiful cloud-topped mountains and the future for an enlightened people is bright.

The Republic of Panama, including the Canal Zone, comprises the Isthmus of Panama and forms the connecting link between North and South America. Panama was a part of Colombia for eighty-two years, from 1821 to November 3, 1903.

Primary education is compulsory for all children between the ages of seven and fifteen. The completion of the full six-year primary course and an examination are required for admission to secondary schools.

Panama has many institutes of higher learning. Among them are the National Institute and National University, which were created in 1935.
In the midst of high mountains, spectacular caverns, and many harbors lies Cuba, the largest island of the West Indies. No month is free from rain, but the temperature does not materially differ from that of Florida.

Columbus discovered the island in 1492 and said it was "the most beautiful land that eyes ever beheld."

On December 28, 1898, the United States formally took the island over. Cuba, which was formerly a Spanish possession, was then declared free, and to this end the United States established municipal government and schools, and formed a constitution by which the Republic of Cuba was established.

Argentina is one of the famed ABC powers of South America, or, as it is better known to the high school student, the Rhumba-land, with gay señoritas and fiestas in abundance.

The fiesta has been a national institution since 1515, when Juan de Solis, the first white man to set foot on the soil of what is now Argentina, navigated the Rio de la Plata.

These fiestas, which often last three or four days, do not retard the commercial interests of the country. Wheat and meat are its main exports and a large portion of this goes to war-ridden Europe.

Chile, one of the South American nations, has often been called the shoestring republic from its peculiar shape. It is thirty times as long as it is wide.

The sea coast on the west and the mountain range on the east afford a healthy climate. Chile, which formerly belonged to the Incas of Peru, is a republic, and consists of twenty-three provinces and one territory.

The state maintains a system of public schools. There are also several normal schools for men and women, schools of mining, private secondary schools, agricultural and other special schools.

"La Corrida de Toros!" A significant term throughout Mexico—one that would cause the laziest peon to perk up his ears, one that would cause the languid loiterers in the nearby saloon to become alive with bustle and activity.

The bull fights are held in stadiums much the same as our ball parks, where thousands turn out to see the bloody slaughter of some six bulls turned into a thing of grace and skill by the gallant matadors.
MILBY SPORTS CALENDAR

FOOTBALL

A much underrated Ft. Worth team, paced by Willis Roberts, eked out a 6-0 victory over a green Buff team. The game was played in St. Thomas Stadium on September 20, 1940.

On September 27, the Bison journeyed to Pt. Arthur to get a 32-0 whitewashing. Alvarez was standout of the potent Yellowjacket attack. Captain Mike Jones suffered a fractured rib.

In Milby’s District opener, Lamar’s rampaging Redskins took the Buffaloes into camp by an 18-0 count. J. B. Fooshee and Borneman engineered the Indian’s attack.

The Austin Mustangs stampeded a luckless Bison eleven to the tune of a 20-0 score. Madeley and Wasek supplied the needed punch for a Pony win.

The powerful Davis Panthers rolled the Buffs further into the sod by a convincing 31-0. Captain Mike Jones returned to the Buff line-up.

The Buffs showed some signs of life against San Jacinto by scoring on a pass from Bob Waterman to Bershal Anderson. However the Bruins won 13-6.

Sam Houston’s mighty Tigers romped over the Buffs in a 26-0 fashion. Ralph Porter was a one-man show for the Bengals.

The Buffs closed one of the Harrisburg school’s most fruitless seasons as Reagan won by 19-0 in a slow game.

MILBY’S MILAM (MIKE) JONES has brought many athletic honors to Milby as well as himself on his three-year stay. Mike was voted the “Most Valuable Player” in Houston in 1941. He lettered three years at center, Captaining the team in his last year. Mike received Looney Trophy for the most valuable player of his team. He starred in the charity all-star game Christmas. He was selected to play in the annual Texas North-South all-star game, an honor never before bestowed on a Milby athlete.

Brazil, land of red dye-wood, received its name from the Portuguese "braza," burning coal. It borders all the South American countries except Ecuador and Chile, and is bounded on the northeast, east, and southeast by the Atlantic Ocean. Brazil is the fifth greatest country in the world.

Brazil has only one university, although it has excellent schools of law, medicine, and engineering. It has many small free libraries. There are about 30,000 schools scattered throughout the country. Buenos Aires, the largest city in South America, is Brazil's most beautiful port. It is the gay life of this city which gives Brazil the title of Land of Romance and La Conga.

ARE YOU READY FOR A JOB?

When you apply for a job you will be asked: “What can you do?” If you can type, if you can write shorthand, if you can keep books, you will get the job. But if your preparation is limited to the general education of the high school and the university, you still need something more that you can trade for a semi-monthly salary check. This is a business world. You will not fit into it until you have had business training. It is, therefore, important to you that you learn now what you are sure to need when you seek a job; not just any job, but a position that will lead to something in keeping with the time and effort you have invested in your education. The quickest, surest and least expensive way to such a position is through a course in Massey Business College.

Massey guarantees satisfaction or your money refunded.
