

Ramona Lewis

Houston ISD Teacher (CTE Welding)

PERSONAL BELIEF

When given the opportunity, I believe that everyone is trainable with the right motivation, training techniques, effort, and grit. Children are the future of this world. By investing in children's basic education, we are contributing to their development and creating a sustainable and self-sufficient society.

SUMMARY

Experienced professional welder and instructor with strong leadership and relationship building skills. I am a Welding Instructor for Madison High School and Adjunct Welding Professor for Houston Community College (HCC). I pride myself on being goal driven, dedicated, inspiring, and honest. I have over 10 years of welding experience and a passion for training our future youth. I have experience in Welding, Pin Brazing, Corrosion, Safety, and OSHA 30.

HIGHLIGHTS

- Excellent student/teacher relationship
- Excellent Interpersonal and Coaching Skills
- High volume student NCCER certifications
- Excellent classroom management skills
- Student Motivator
