

Using your AverMedia Document Camera with your SMART Board®

1. Go to http://www.averusa.com/education/downloads/AVerVision_Flash_Plug-in_for_Win_v1.1.0.7.zip
2. Download and unzip the file linked above
3. Install the Avermedia Flash Plug-in from the unzipped folder.
4. This installation will request a restart of your computer. Please restart before continuing with these instructions.
5. Plug your Avermedia document camera into your computer using USB.
6. Computer may want to install appropriate drivers.
7. Open the desktop folder called AVerVision Flash Plug-in
8. Open the Utility folder
9. Open the SWF file titled Security Settings. It will open in your Internet Browser.
10. Click the yellow security settings warning bar at the top of the browser window and choose to Allow the Blocked content.
11. A camera popup should appear. Select Allow Camera and check the Box to Remember this setting.
12. Open SMART Notebook
13. Select Insert>Flash File
14. Navigate to the folder called AVerVision Flash Plug-in. Open and select the AVerVision Flash Plug-in
15. This should insert a document camera object onto the SMART Notebook page. This is a live feed from the camera.
16. For ease of use, drag/drop this object into your SMART Gallery My Content folder

Troubleshooting

- Black window—try turning camera off/on
- Security Setting error—retry steps #7-11
