Page Layout

How to combine several pages of content into one page?

Welcome to 1st Grade

Our Mission Statement (2012-2013)

At Helms Elementary School, in First Grade, we strongly believe that every child deserves the best education and a chance to grow. We nurture the total development of every child to become life-long learners and leaders ready to compete in our society. We plan on accomplishing this goal, through differentiated instruction, promoting higher-level thinking skills, incorporating best practices in all content areas, and creating an engaging learning environment for all students. With the participation of parents, community and school, we believe that we can and will reach our goal.
Page Layout

A Page Layout contains one or more Columns. Page Layouts include one, two, or three columns as well as left or right side-bar.
Click on the link next to the small house
Click on Manage Apps & Layout
Click on Change Layout
Columns

Columns are the areas of a Page Layout where you place your Apps. You can have one or more Apps per Column.

Select your new Layout and click on Apply
Apps

Apps are the content building blocks of any Schoolwires page. A page may include one or more Apps.

Click on Add App to add more apps to your page.
Select the apps you want and drag to the location of the page you desire.
Click “I’m Done”
Open each app to add content.
View your page.
