COURSE *description*

OBJECTIVE

The study of Geometry serves as a foundation class for high school mathematics as well as other advanced mathematical & science courses.

GOAL

- Critical reading
- Analytical thinking
- Creative synthesis & problem solving
- Attention to detail

HOMEWORK

Students should expect at least 30 minutes of homework per day. Homework is due at midnight.

GRADING procedures

- Student work should demonstrate understanding of the problem assigned.
- **Homework:** NO WORK, NO CREDIT. Late homework will result in 10 points off if completed. Homework will not be accepted after one late day.
- **Quizzes:** Missed quizzes will not be made up. The test following a quiz will replace the missing quiz. If a student fails a quiz and the test grade over the same material is higher than the quiz grade, then it will be replaced by the test grade up to a 75.
- **Retests:** If a student fails a test, there will be one opportunity to retest. This retest grade will replace the failing test grade with a grade up to 75. Students must do corrections and attend one tutorial.
- **ACADEMIC DISHONESTY:** Students will receive zero for the assignment and a disciplinary referral if found cheating in any form.

SAMPLE OF grading

| | Quiz | Quiz | Test | Retest |
|------------------------|-----------|------|-----------|--------|
| John Doe | MSG | 93 | 91 | |
| John Doe after changes | 91 | 93 | 91 | |
| Jane Doe | 40 | 72 | 68 | 83 |
| Jane Doe after changes | 68 | 72 | 75 | |

ABSENTEE policy

Students are responsible of contacting the teacher, getting the notes from the HUB, and checking the calendar for assignments to prevent falling behind in the course work. If you are absent on a test day, you will make up the test the day you return to school.

1 Be on time

2 Be in uniform & wear your ID around your neck

3 Silence all electronic devices and place it out of sight

4 Take care of the "Do Now" when you come in

5 Be ready to learn and ask questions
