

# STAAR EOC Courses on the HUB

- 1) The STAAR EOC courses are HUB-based, self-help, self-paced student courses that do not require grading and do not require a teacher. Once students are added to the course in Chancery, then the students are added automatically to the corresponding HUB course. The addition of students to these courses will not change their schedule, and no grades or report cards will be issued for these courses. Chancery is used to push the student data to the HUB. Below are the screenshots of the courses in Chancery and the corresponding courses on the HUB.

- 2) To see if your students are enrolled in the course, go to a student laptop, get on the HUB, check your students' Dashboard or click on "Courses" on the blue menu ribbon.

1. The student clicks here first.

2. The courses will appear here.

The screenshot shows the HISD PowerUp HUB interface. The 'Courses' menu item is highlighted with a red box and an arrow. Below the menu, a list of courses is displayed. A red box highlights the first five courses in the list, with an arrow pointing to them from the text '2. The courses will appear here.'.
