

Dear Scarborough Students and Parents,

I hope that all of our Scarborough students and parents are experiencing good health during this concerning time in our community. Please know that the Scarborough staff and administration are working daily to help our students receive their education, albeit in a virtual world. We are implementing virtual assignments and teachers are reaching out to their students to assist them in completing the learning tasks. As a staff, we check in often with each other to ensure that teachers are supported in helping students with their learning.

Please let us know by email if you are having a technology concern (e.g. laptop issues, home internet concerns) or any other concerns so that we may help you to resolve them. Students and parents should continue to check our Scarborough High School website, along with our district's website (i.e. HISD H.O.M.E.) to monitor school updates.

Please know that the safety of our students and their families is our primary concern and we urge you to continue with "safe distancing" and "stay-at-home" guidelines until we can once again be back together as a Scarborough family.

Sincerely,

Rod Treviño
Principal
