# Harvard Elementary Eagle's Nest (HEEN) Enrichment Classes for Fall 2025

(Mon-Thur: September 8 – December 12)

## Group Piano/2<sup>nd</sup>-3<sup>rd</sup>/13 Monday/3:15-4:15 by Hamp's Camp

**Class Description:** Let your child discover the joy of running their fingers on a piano keyboard in a supportive, fun, and creative environment alongside their peers! These small group piano lessons are designed to teach students to explore basic music theory, rhythm, keyboard skills and proper finger placement, while developing a strong foundation in music. No experience needed – perfect for the beginner student with a love for music and a willingness to learn.

**Vendor Description:** Welcome to Hamp's Camp Inc After-School Sports Program, where we believe in fostering not just athletic abilities but also teamwork, discipline, and personal growth in children. Our program offers a diverse range of sports activities designed to keep kids active, engaged, and having fun during the after school hours. "Our mission is to provide a safe, inclusive, and supportive after-school environment where children can engage in various sports activities. We aim to promote physical fitness, develop fundamental sports and performing skills, and foster confidence, teamwork and sportsmanship. Through our program, we strive to instill a lifelong love for sports and healthy habits in the participants, empowering them to grow as individuals both on and off the field."

**NOTE: This class will form with a Minimum of 4 students and a Maximum of 6 students.** For your child to build on each lesson attended, they will be given lessons to take home and **must must must practice** them daily at least 30 minutes at home. Thus, you must have a keyboard or piano in your home for your child to practice. Keep in mind there will be an end of semester demo; thus your child must be able to play successfully at least 3 songs for the demo in order to participate in the demo as it is vital your child feels successful and proud of their hard work.. **A strong emphasis on practicing at home!!!**

**Please visit our website to learn more and for registration, payment and refund policies: [www.hampscamp.org](http://www.hampscamp.org)**

## Choir/2<sup>nd</sup>-5<sup>th</sup>/13 Monday/3:15-4:15 by Hamp's Camp

**Class Description:** Let your child discover the joy of singing in a supportive, fun, and creative environment! The lessons are designed to help young singers explore their voices, build confidence, and develop healthy vocal habits through age-appropriate songs and engaging musical activities. Students will learn: Proper breathing and posture for singing, Pitch-matching and vocal tone development,

Basic music theory (rhythm, melody, dynamics), Song interpretation and expressive performance, and Ensemble singing, listening, and teamwork. Each class includes vocal warm-ups, movement, ear training, and group singing, A diverse repertoire—including folk songs, seasonal pieces, musical theatre, and popular tunes—keeps students inspired and excited to sing. This class nurtures each child's unique voice while fostering community, creativity, and a lifelong appreciation for music. No prior experience required—just a love for music and a willingness to try!

**T U E S D A Y**

**Code Critters/1<sup>st</sup>-2<sup>nd</sup> /13 Tuesday/3:15-4:15 by American Robotics Academy**

**Class Description:** Let’s meet INDI! This workshop is all about revving up STEAM learning with the INDI robot. This workshop is entry level robot that is designed to introduce early learners to the fundamentals of computational thinking, STEAM, and computer science principles. INDI encourages open ended, imaginative play-based learning with real-life scenarios as learners build custom mazes, solve puzzles, and

drive. As students learn pattern recognition, creating and using algorithms, decomposition, and understanding abstractions they will become better thinkers and problem solvers. Learning stages your child will be introduced to using INDI. • Exploration – All learners will benefit to freely explore something new in every lesson. • Skill Building – Skill building highlights the skills used during a specific activity. • Challenge- Learners will apply their skills and ideas to successfully complete a challenge.

**Vendor Description:** American Robotics Academy aims to excite, inspire and motivate students in grades K-4 about the importance of engineering, robotics and coding technology. The curriculum is grade level based.

**NOTE: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM. No refunds are given for student absences. This class will form with a Minimum of 7 students and a Maximum of 16 students.**

Please visit our website to learn more: <https://roboticsacademy.com>

**A 15% processing fee will be applied to all refunds prior to the second class starting. Withdrawals done after the start of the second class are not subject to a refund. Refunds are not issued for student absences. In addition, for registration, payment and any other information:**

## Imagineers in Gears/PK-K/13 Tuesday/3:15-4:15 by American Robotics Academy

**Class Description:** Let your imagination and ideas take you wherever you want to go! You will learn engineering key concepts and fundamentals building with LEGO elements from the creative tool kit. Learning as we go numeracy, literacy and much more. Students will be challenged to use LEGO pieces to create a structure or setting using LEGO elements. Students will engage with hands-on experience including fun

and problem-solving activities and be encouraged to tell a story about their creations. Your student will be offered special pieces for their builds to complete their story. Students will learn to identify build pieces and their function required to build structures towards the next step into Robotics. This program offers STEM-STEAM curriculum as well diversity, self-esteem, social competency, collaboration and more. Concepts and core values are taught to prepare students for life challenges. This course is designed as an introduction to robotics where students will learn about the different lego elements and their functions, as well begin simple non-motorized builds. This is a beginners workshop where your student will not be required to read to follow instructions.

**Vendor/Teacher Description:** American Robotics Academy aims to excite, inspire and motivate students in grades PK-8 about the importance of engineering, robotics and coding technology. The curriculum is grade level based.

**NOTE: Some workshops require a student to read the instructions. Upon registering your child, please be prepared to provide the following required information: STUDENT NAME, GRADE, CLASSROOM TEACHER, ALL PARENT NAMES AND CONTACT INFORMATION, ALLERGIES, ANY PERSONS AUTHORIZED TO PICK UP (INCLUDING CONTACT INFORMATION), AND IF YOUR CHILD ATTENDS YOUR CAMPUS EXTENDED DAY/AFTER SCHOOL PROGRAM. ## **Magic of Matter/3<sup>rd</sup>-5<sup>th</sup>/13 Tuesday/3:15-4:15 by Mad Science**

**Class Description:** In this engaging STEM program, kids explore a variety of science topics and learn about the wonders of both life science and physical science. They explore themes and answer questions such as “What makes your hair stand up?”, “Is it a magnet or is it magic?”. Mad Science will provide all classroom supplies and a take-home project for each student.

**Vendor Description:** With over 30 years of experience, Mad Science of Houston sparks curiosity and inspires a lifelong love of science through fun, hands-on activities and exciting demonstrations. Our TEKS-aligned programs support STAAR readiness by turning classrooms into in-school science field trips—engaging students with real tools and over 200 exciting topics. Just like medical students need real instruments to learn, young scientists need hands-on experiences to truly understand science. That’s exactly what we deliver: fun, educational, and impactful science enrichment that makes learning unforgettable.

**NOTE: This class will form with a Minimum of 10 students and a Maximum of 15 students.**

Refund Policy: A 15% processing fee will be applied to all refund requests prior to the 2nd class starting. Withdrawals done after the start of the second class is not subject to a refund. Refunds will not be issued for classes missed by the child.

## **Theater Arts/2<sup>nd</sup>-5<sup>th</sup>/13 Wednesday/3:15-4:15 by Hamp’s Camp**

**Class Description:** Lights, camera, imagination! This dynamic Theater Arts class invites students in Grades K–5 to step into the spotlight and explore the exciting world of acting, storytelling, and stage performance. Through creative play, character building, and ensemble work, young performers will gain confidence, communication skills, and a deeper understanding of the dramatic arts. Students will: Explore voice, movement, and facial expression, learn the basics of character development and storytelling, practice collaboration, active listening, and creative problem-solving, engage in theater games, improvisation, and short skit, and build stage presence and performance etiquette. Each session includes fun warm-ups, dramatic play, scene work, and opportunities for student-led creativity. The course may culminate in a short showcase or informal performance to celebrate students’ growth and imagination. Theater Arts is a joyful space where every voice matters and every imagination shines.

**Vendor Description:** Welcome to Hamp's Camp Inc After-School Sports Program, where we believe in fostering not just athletic abilities but also teamwork, discipline, and personal growth in children. Our program offers a diverse range of sports activities designed to keep kids active, engaged, and having fun during the after school hours. "Our mission is to provide a safe, inclusive, and supportive after-school environment where children can engage in various sports activities. We aim to promote physical fitness, develop fundamental sports and performing skills, and foster confidence, teamwork and sportsmanship. Through our program, we strive to instill a lifelong love for sports and healthy habits in the participants, empowering them to grow as individuals both on and off the field."

**NOTE:** This class will form with a **Minimum of 6 students and a Maximum of 16 students.** Students must be eager and ready to have lots of fun. A demo will be scheduled at the end of the semester. Thus, the students must practice their lines at home and be ready for each class.
