SUMMER PROFESSIONAL DEVELOPMENT

ATTN: CTE Teachers!

Are you interested or would like to lead a professional development session this summer?

If you want to take lead facilitating and help other CTE teachers either reflect on best practices, pedagogical approaches, work through instruction-related struggles, or simply foster CTE teacher-to-teacher professional learning, please let us know. At this time, all sessions must be held virtually.

[Click here to complete the Summer 2021 CTE Teacher-Led PD Request Form.](#)

If you are inquiring about any virtual professional development associated with costs, your request must be submitted for review and approval. Please submit requests ahead of time. You will then be notified by email, within 3 business days stating whether your summer professional development request has been approved or not. Please note that this is for virtual professional development requests only.

[Click here to complete 2021 Summer Professional Development Request Form - Virtual ONLY!](#)

Please email Stacey Whitmore at SWHITMO1@HoustonISD.org for professional development questions.

2021 Virtual Girls Construction Camp

March 30th, 2021
10:00 a.m. - 10:40 a.m.

This is an invitation for all HISD 8th grade female students and their parents, teachers, and school counselors to attend the 2021 Virtual Girls Construction Camp.

In an effort to inspire an interest in young women who may have not considered a career in the construction industry, [CMEF's](#) Construction Careers Youth Committee is partnering with local industry female professionals to facilitate the **2021 Virtual Girls Construction Camp on March 30th, 2021 from 10:00 a.m. - 10:40 a.m.** The primary focus of the Camp is to provide the students with a new awareness and appreciation for the construction industry and the vast diversity of great career opportunities that await them in the future as well as provide the students with information that will assist them in their decision to select a Graduation Endorsement Plan and Career Pathway that they may not have otherwise considered.

The **2021 Virtual Girls Construction Camp** will feature informational sessions led by ABC/CMEF member company volunteers dedicated to sharing their time and career experiences with the next generation of construction industry female leaders including video clips of various craft skills demonstrations. The value of safety, teamwork, and quality will be highlighted throughout the event as industry presenters share their experiences and why they are thankful to have selected a career in the construction industry. At the end of the presentations, students will have the opportunity to ask questions about safety, work hours, training, and educational requirements. Participating companies include Brock Group, CMEF, Dow Chemical, Dream It. Do It, Southeast Texas, Marek Brothers, PCL Industrial Construction, Turner Industries, and Worley.

Please know that Dr. Steven Horton reviewed intermediate/middle/junior high school bell schedules within 23 sponsored Independent School Districts only to find it impossible to find a common time that fits one class period. So, Dr. Steven Horton selected a time that fit the majority of bell schedules he reviewed. Additionally, Dr. Horton informed committee members that we should expect classes that will have boys and girls attending. If any boys should attend, that is no problem!

The virtual platform for this event will be *via* Microsoft Teams and will send you the meeting invitation during the week of March 22nd, 2021. Please email Steven Horton at s.horton@cmefhouston.org for questions.

DIRECTOR, SCHOOLS TRAINING DIVISION
NCCER MASTER TRAINER AND SECONDARY REPRESENTATIVE

Tips for Better Hybrid Learning: Ask the Experts What Works

Monday, March 15th, 2021
1:00 PM - 2:00 PM CST

[REGISTER HERE](#)

Hybrid learning is the most popular model for educating all students during the pandemic and is likely to continue in some form in many places well into the 2021-22 school year. But that mix of in-person and remote instruction is hard to do well, it can be exhausting, and there are different approaches within the model itself. What strategies, tactics, and technology tools are working well, and which ones are not?

What can teachers do to balance serving students who are physically in the classroom and students who are at home on any given day? These and other questions are top of mind for teachers, principals, and district leaders. This interactive webinar will feature a video conversation about hybrid learning that will be driven mostly by questions you and other educators submit before and during the webinar. Join our panel of experts!

Certificates of Completion are available to all registered live attendees who attend 53 minutes or more of this webinar. Educators can download a PDF certificate verifying 1 hour of Professional Development credit.

Courseware + Certification Exams = *TestOut*

TestOut's IT Fundamentals Pro course is the perfect solution for districts and schools required to teach toward an industry-recognized certification or introduce students to the basics for computer science (CS), information technology (IT), operating systems, networking, and security.

IT Fundamentals Pro is adaptable for **online, traditional, and hybrid classes**, and can be used as your entire curriculum, or as a supplemental resource.

IT Fundamentals Pro provides:

- Online labs, video tutorials, test prep, certification-based training and exams, auto-grading, and auto-reporting
- Instant reporting on student progress
- Hands-on learning with current equipment in an advanced simulated environment
- Many other features to ensure your students will have a powerful and complete training experience

We promise to give educators the tools to be as effective as they can, all while providing students with the training they need. [Get free teacher access](#) to IT Fundamentals Pro today!

ONLINE and ALL THE TIME

World-Class Schools: World-Class Principals

March 23rd, 2021
2:00 p.m. CST

[Register Now!](#)

Do principals matter to school improvement and student success? The answer is a resounding *yes!* One of the most reliable factors associated with world-class schools is sustained, insightful, highly capable leadership—in essence, world-class leaders. Highly effective principals and other school leaders are the key that unlocks school improvement and success. Moreover, among school-based factors, the impact of principals is second only to that of teachers in facilitating student learning. This webinar will feature some of the latest research-to-practice findings on the qualities of effective principals and how they transform our schools. Principals join us to see how other principals are transforming schools.

HISD | College & Career Readiness

ASPIRE. PREPARE. SUCCEED.

CTE Instructors,

We have some great news for teachers who facilitate industry-based certification exams through Certiport! These exams include ACA, AutoDesk, MOS, ESB, and QuickBooks, among others.

To accommodate the large number of students who are learning remotely this year, **Certiport exams will now be proctored online.** The online test, referred to as Exams from Home (EFH) will be the method of exam delivery for ALL students taking Certiport tests – those students who are at home and those who are at school for in-person learning.

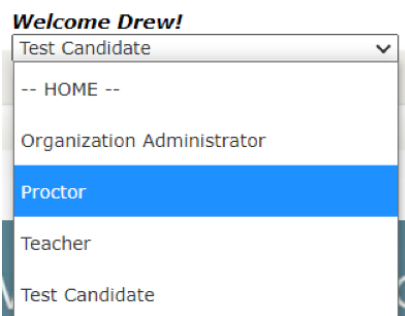

Click [HERE](#) for a list of exams offered from Certiport via Exams form Home.

Here is an excellent resource for teachers who are offering Certiport exams. The page provides an introduction and FAQ about Exams from Home. Click [HERE](#) to view this resource.

Steps for administering an Exam from Home certification test:

- Log into Certiport by clicking [here](#) using the login credentials you were provided. If you need any help locating your credentials or to obtain a Certiport site license for your campus, please do not hesitate to email Mrs. Maria Flores at MFLORE48@HoustonISD.org.
- Once logged in, at the top of the screen, under the Welcome message, select *Proctor* as your role.

- From the Proctor role screen, select the *Schedule Exams* tab.

(see next page, pg. 17 for additional Certiport instructions)

HISD | College & Career Readiness

ASPIRE. PREPARE. SUCCEED.

Scroll down to the bottom of this page to schedule your tests. You will be presented with several options for registering your students to take an exam. The blocks for scheduling are broken up by type of test: (Any test except AutoDesk or AutoDesk) and the number of test-taking students: (1-5 or 6-10). Exams with accommodations are limited to 1-2 students per test administration.

- Click *See Times* on the appropriate block.
- Select a date/time you want to proctor the exam.
- Enter your details on the next screen.
- Click *Book*.
- Expect to receive email approval with testing links to disseminate to your students within two business days.

We anticipate the testing date reservations to fill up; so, schedule your exams as soon as possible.

Additional important considerations:

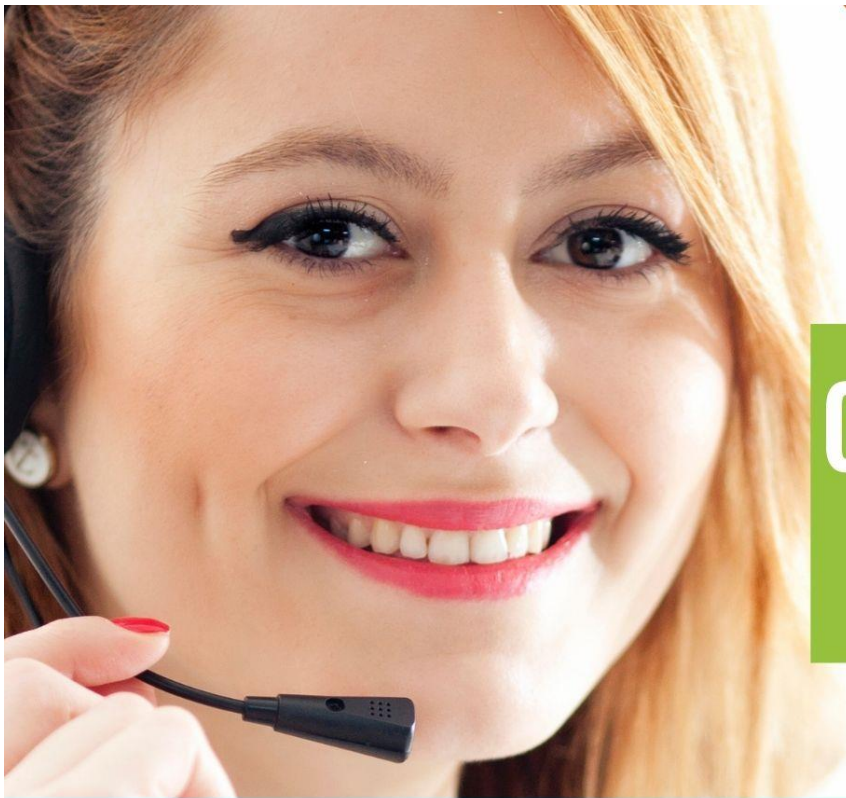

- Exams from Home can be taken on a desktop, laptop, Mac, or Chromebook. (Student PowerUP devices qualify).
- This [document](#) contains important customer service information from Certiport.

For Certiport Competitions, click [HERE!](#)

What better way to motivate your students than with a little friendly competition?

EDUCATION FOR EVERY DIMENSION OF LIFE

JUNE 2, 2021 from 9am - 10am

Join CTE, Mr. Larry Montgomery, and other educators from Waltrip High School for an open 3DE Discussion!

[Click here to join the Microsoft Teams Meeting](#)

Participants will discuss 3DE by Junior Achievement Instructional Approach and Case Methodology for the 2021-2022 School Year. Let's have professional dialogue to discuss a 5-week case challenge activation for our students this upcoming 2021-2022 school year. Other 3DE discussion may include standards, teacher and student guide, case launch, project-based research, coaching, and Q&A.

We hope to see you *via* TEAMS!
