ASPIRE. PREPARE. SUCCEED

## Introduction to the JA Company Program

May 28th, 2021  
9:00am - 10:00am

**Audience: 9th-12th Grade High School CTE Teachers**

Join **Tania Daniel**, Senior Director of Entrepreneurship Initiatives for Junior Achievement of Southeast Texas, as she provides an overview of the **JA Company Program**, the 100+ year old pioneering **Entrepreneurship and Work Readiness** program implemented all over the world, from Peru to Kenya, United Kingdom to Singapore. It has gained a lot of traction in Houston in recent times and Tania hopes to work closely with Houston ISD to bring this program to our amazing high schools.

The JA Company Program empowers high school students to **create, launch, operate** and **grow** their own startups, and students learn **business, leadership, and inter-personal skills** in the process. Students also participate in a host of business competitions with leading organizations, like Rice University, University of Houston, HCC, Microsoft, and Texas A&M, as well as specialized trainings and workshops.

This session will also feature a **panel interview** with three remarkable teen CEOs who have led their startups well, in the midst of a challenging pandemic climate.

### Our Junior Achievement Company CEOs are:

**Temilola Ogunola** - CEO of Diverse Is Not A Curse (Harmony School of innovation - Katy ISD)

**Joe Maddux** - CEO of Bulldog Apparel (Heights High School, Houston ISD)

**Kayla Awadin** - CEO of EVO (Elkins High School, Fort Bend ISD)

## ATTN: HISD Automotive Instructors

Registration is now OPEN for the [2021 Virtual ASE Instructor Training Conference](#) - the ***LARGEST*** Automotive Instructor Training Conference in the nation! Get up to **22.5 hours of technical update training**, connect with industry peers, and much more! The conference will be held Monday, July 26th through Friday, July 30, 2021 with separate training tracks for Auto, Truck, and Collision Repair Instructors. [Reserve your spot today!](#)

Conference Fee (this includes access to all training sessions):

- \$150 for instructors from ASE-accredited programs
- \$225 for instructors from non-accredited programs

You can pay by credit card, purchase order, or check.

Instructions are in the registration form.

Three 90-minute sessions each day will be live-streamed via GoToWebinar. If you register by July 26th and miss a session, you will be able to view a recording through August 31st, 2021. You will receive a certificate of attendance for every session you view (live or recorded). All sessions count toward the Foundation's 20-hour annual update training requirement. Please contact Dr. Stacey Whitmore by email at [swhitmo1@houstonisd.org](mailto:swhitmo1@houstonisd.org) or call (713) 556-8202 directly for questions.

## CS Discoveries Workshops & CS Principles Workshops July 26, 2021 - July 30, 2021

### Professional Learning Virtual Workshop for Computer Science Middle and High School Teachers

At this time, the [Rice University School Mathematics Project](#) is planning to offer virtual CS Discoveries and CS Principles local summer and in-person academic year workshops in the 2021-2022. Summer 2021 workshops will be in June / July 2021.

#### The program includes:

- An in-person five-day summer workshop, which will fully prepare educators to utilize [Code.org](#) curricula and teacher support systems.
- Four one-day workshops (or eight virtual sessions) during the school year when teachers will reconvene for ongoing training and just-in-time support.
- Additional opportunities for online and face-to-face networking and collaboration with peers throughout the year.

#### Funding Opportunities:

Computer Science Discoveries and Principles workshops are offered at no cost to qualifying teachers accepted into the program. If you don't meet the requirements to attend at no cost, the program is still only \$1,500 per Texas teacher, which is a 50% discount off the national cost thanks to our generous supporters at [Code.org](#).

Texas Computer Science courses, including those aligned to CS Discoveries (Fundamentals of CS) and CS Principles, have recently moved to CTE, and qualify for weighted funding. Teachers should check with their administrators to see if these funds are available to support their involvement in this Professional Learning Program. There are also scholarships available for those who qualify. The program fee includes teaching materials, workshop supplies five in-person or virtual (if it is unsafe for in-person) summer workshop days and four in-person or eight virtual follow-up sessions during the academic year. Additional travel costs (i.e., mileage and lodging costs) are not covered by the fee.

[Code.org](#) curriculum, online student learning platform, and access to support from the teacher and [Code.org](#) community are available to all schools' year round at no cost.

If you are interested in CS Fundamentals, please contact us directly (contact info is below) to set up / schedule a workshop.

See Frequently Asked Questions about CS Discoveries [here](#) and CS Principles [here](#).

# PBL for Remote Learning

## FREE WEBINAR SERIES!

### How to Facilitate Project-Based Learning Online with Students

We've asked educators who are navigating distance learning what they need most right now. Based on what we heard, we've designed a series of webinars to engage teachers in interactive online learning experiences and offer practical guidance for facilitating Gold Standard Project-Based Learning online with students.

[All webinars will be presented in Zoom and recorded versions will be made available here, free to all.](#)

# CompTIA Security+ Train the Trainer part of WASTC virtual faculty development

Join us to learn how to teach the new CompTIA Security+ content in an innovative, engaging, and efficient course, during the Western Academy Support and Training Center (WASTC) program.

**Dates:** June 14th - June 18th, 2021

**Audience:** Secondary and Post-Secondary Instructors teaching Security+

**WASTC Course Fee:** \$50

[Register Here](#)

## Your Takeaways Include:

- Learn about labs that teach students how to identify threats, visualize attacks and respond to incidents.
- Discover ideas for teaching how to use essential tools in today's security job roles.
- Explore quick, powerful ways to teach security monitoring, vulnerability assessment and risk management.

## Why teach CompTIA Security+?

CompTIA Security+ is the first security certification your students should earn. It is the *de facto* hiring standard used around the world for security professionals. This global certification validates students have the core knowledge required of any cybersecurity role and provides a springboard to cybersecurity jobs. Security+ incorporates best practices in hands-on troubleshooting, ensuring candidates have practical security problem-solving skills.

## Why this Training?

At CompTIA, we work daily with IT and security professionals to learn about essential skills for securing today's modern attack surfaces. We also work daily to find effective ways to teach these concepts.

Dr. James Stanger, Chief Technology Evangelist, CompTIA, will host this course. As host, James has brought in Fred Stinchcombe, Department Chair of the Information Technology department of Padua Academy as the primary instructor. He will teach the core security skills and best practices in the industry. We will also have working IT and security professionals join us throughout the event. They will provide context and insights about essential, day-to-day activities based on today's security job roles.

# Impact of Virtual Mentorship in HISD

## Audience

*10 Grade CTE Instructors,  
CTE Career Advisors & High School Counselors*

**Thursday, June 17th, 2021**

**11:00 AM – 12:00 PM**

Following up on our previous session during the 2020-2021 school year, The Five Network is back to share with us the impact of FIVE's virtual mentorship program on HISD students in their first year. Five Network will review with you a detailed [Impact Report](#) highlighting FIVE's career curriculum, mobile app interactions, and mentor/mentee pairings of students at **Waltrip High School and Jane Long Academy**. Five Network is also back with another opportunity to bring **FIVE** to all HISD 10th graders for the 2021-2022 school year! If career readiness training and scalable student mentorship is a priority for your high school next year, please join us. # The Virtual Innov8 4 Kids Challenge

## A Mixed Reality and Gamification Challenge

July 16th-July 18th, 2021

**Help us innovate the next generation of patient care through technology!**

Children's Health System of Texas is proud to launch our first Innov8 4 Kids Virtual Challenge! This is a fun, interactive virtual event where we encourage students and professionals to create technology prototypes that can have an impact on Children's Health.

The challenge will span **3 weeks**, leading with a series of mini-challenges and culminating with a **3-day virtual hackathon**.

It's an opportunity to showcase your skills, compete for prizes, and build something that can truly make a difference. Areas of interest include mobile apps, augmented reality, virtual reality, gamification, to name a few.

# **APPLY HERE**
