

Checking for Understanding in Career and Technical Education

June 16th, 2021
10:30am - 11:30am

Audience

CTE Middle School Teachers & CTE High School Teachers

How do you check student understanding during CTE instruction? Possible sources of evidence might include classroom observations, reviews of planning materials, reviews of student work products, and direct questioning of students during an observation. We will look at some examples of systems and routines to check for student understanding.
