

# Creating Momentum Through Background Knowledge

September 17, 2021

2:00pm – 3:00pm

## *Audience*

Middle School Teachers & High School Teachers

## Register *through* OneSourceMe Learning OneSource Course ID #1458058

Creating momentum through background knowledge is essential in nurturing students' integration of skills. For students' academic success, moving beyond the sharing of information towards actively developing knowledge, building upon ideas, and creating new connections from previous experiences will drive knowledge to the next level. In this session, you'll learn strategies to provide students with repeated opportunities to engage in peer-to-peer knowledge building and habits for collective learning. We are looking forward to you joining us!
