

Tobacco Free Curriculum

A Smoking Prevention Interactive Experience (ASPIRE)

Virtual Meeting Location – Microsoft Teams

ASPIRE, *A Smoking Prevention Interactive Experience*, is a bilingual, virtual, self-directed curriculum that teaches students about the dangers of traditional nicotine products and new and emerging products such as e-cigs, hookah, and marijuana. During the presentation, we will discuss the dangers of vaping, nicotine products and we will introduce ASPIRE and discuss the benefits of implementing the program for teachers and students.
