

"The HON-Code: Principles of CTE Website Evaluation"

November 3, 2020

10:30 AM - 12:00 PM

Join us again for another great HON Code session!

During the interactive discussion, participants will develop knowledge and skills to teach students how to search and find trustworthy/reliable information on the internet. The presentation will focus on how to teach students to evaluate information on the internet using the 8 HON-code principles.

Participants will discuss and share their challenges and opportunities of teaching students how to evaluate information on the internet. The evaluation skills are applicable to CTE and core-subject teachers alike, or for anyone who uses the internet to find information on a topic.

Audience: Health Science & Other Interested CTE Teachers

Virtual Meeting – Via Microsoft Teams
