

## LEADERSHIP SUMMIT 2020

Leadership Development and Houston ISD Department partners will host this fall mini-conference centered around the district wide Professional Learning Communities that support our continuous innovation and improvement for campus success. Leaders will hear from others in our community through a combination of live speaker series, PD learning sessions, and live modeling of the virtual and traditional learning best practices. Blended learning is here to stay and we are capitalizing on the opportunity to highlight the great leaders and collaborative partners within our midst!
