"When girls are educated their country becomes more strong and prosperous." -Michelle Obama

A MESSAGE FROM DR. WILLIAMS

Hello

YWCPA High Schoolers,

First, I cannot begin to tell you all how much I miss seeing you in the halls, the atrium, classrooms, and the auditorium. You make our building come alive, and it is definitely not the same without you! I hope we will be able to see each other soon. I know this is not how any of us planned to start our year, especially our Class of 2021! But you know what? We will get through this together! I shared with our teachers last month the reason for choosing this year's theme and I want to share the reasoning with you too.

It was important to take into consideration everything 2020 has thrown our way. Regardless of school buildings closing, not being able to socially interact with friends and family, a global pandemic, racial injustice running rampant, people's civil rights being challenged, women only having a mere 100 years of voting rights and still fighting for equal rights, we have and we will continue to get through this. So, our theme is Nevertheless, She Persisted.

I know that with the help of your family, teachers, community, and sisters, you WILL persist! I believe in you and am proud of all of you. YOU GOT THIS!

Never hesitate to reach out to me if you need something,

Dr. Williams
