School Improvement Plan Review

BACKGROUND INFORMATION

As many of you are aware, all schools developed an action plan for 23-24 in July with an emphasis on district initiatives including special education, science of reading and student engagement. These are the goals that we are working towards this school year. When the request for SIP was brought forth, the action plan was embedded and in addition, the following components were added:

Staff Quality, Recruitment and Retention

Technology

Parent & Community Engagement

As you review the document, it will appear to be different from past documents because it has taken the format of the action plan.

Your input is important. Click the link below to share your feedback no later than Wednesday, November 8th:

After reviewing the feedback and making allowable or necessary corrections, the plan will be shared with the staff.

Thank you in advance for taking the time to review and provide feedback.
