

# How to Download Wabbit

1. Click on the "start tab"
2. Type "soft"
3. Click on "Software Center"
4. Scroll to find Wabbit. Click the checkbox to the left of the name
5. Click "install" at the bottom.
6. Once installed, click the Wabbit icon on the desktop.
7. Click Browse

8. Click "local disc (C:)"
9. Click "Program Files (x86)"
10. Scroll to find "WabbitEMU"
11. Click "ROMs"

12. Choose the calculator model
13. Click "finish." You will see an image of the calculator you selected. You can now project the image for students and take screenshots for activities and assessments.

NOTE: The Wabbit calculator can NOT be used during state testing. The purpose of the Wabbit calculator is to help students become familiar with the calculators for use at school or home.
