SIP:

SIP Presentation

Break-down of the packet

Reviewed annual campus ratings.

Reading, Math, Attendance, Safety, Discipline, Participating Parents, Health and Fitness, GT service

We broke up into groups of two to review certain goals we have for the school year.

Reading and Math will benefit from interventionists, teachers, specialists, etc.

Attendance will improve with the "READY" project and teacher phone calls home.

The school will be well rehearsed on the CHAMPS approach. Every classroom will participate, in the hallways, lunchroom, etc.

VIP is in place for all parents to get checked out and registered to volunteer on school grounds.

Health and fitness will have a Pre-Test and a Post Test to measure the students' improvements.

GT services will increase with I-Station, testing, teacher trainings, and BOY Testing.

Each member agrees with the goals.

Opportunity to ask questions.

Meeting adjourned at 4:30pm
