Policies Governing Administering Medication During School Hours

The policy of the Board of Education does not authorize Houston school personnel to give medication of any kind. That includes aspirin, similar preparation, or any other drugs.

Nurses and other school personnel, however, can give medication during school hours under the following restrictions. Pupils who are noncontagious, on long-term medication, on preventative medication, or for a prolonged period on medication that cannot under any arrangement be administered other than during school hours may take medication in school. The healthcare provider’s statement must be accompanied by written permission of at least one parent.
