IB PROGRAMME RESULTS AT LOW-INCOME PUBLIC SCHOOLS NATIONWIDE:

<http://www.ibo.org/globalassets/publications/ib-research/title-1-schools-research.pdf>

IB PROGRAMME RESULTS IN AN URBAN SETTING:

A study done on Chicago Public School students by the University of Chicago found that:

72% of IB students attended a four-year college compared to **53%** for non-IB students

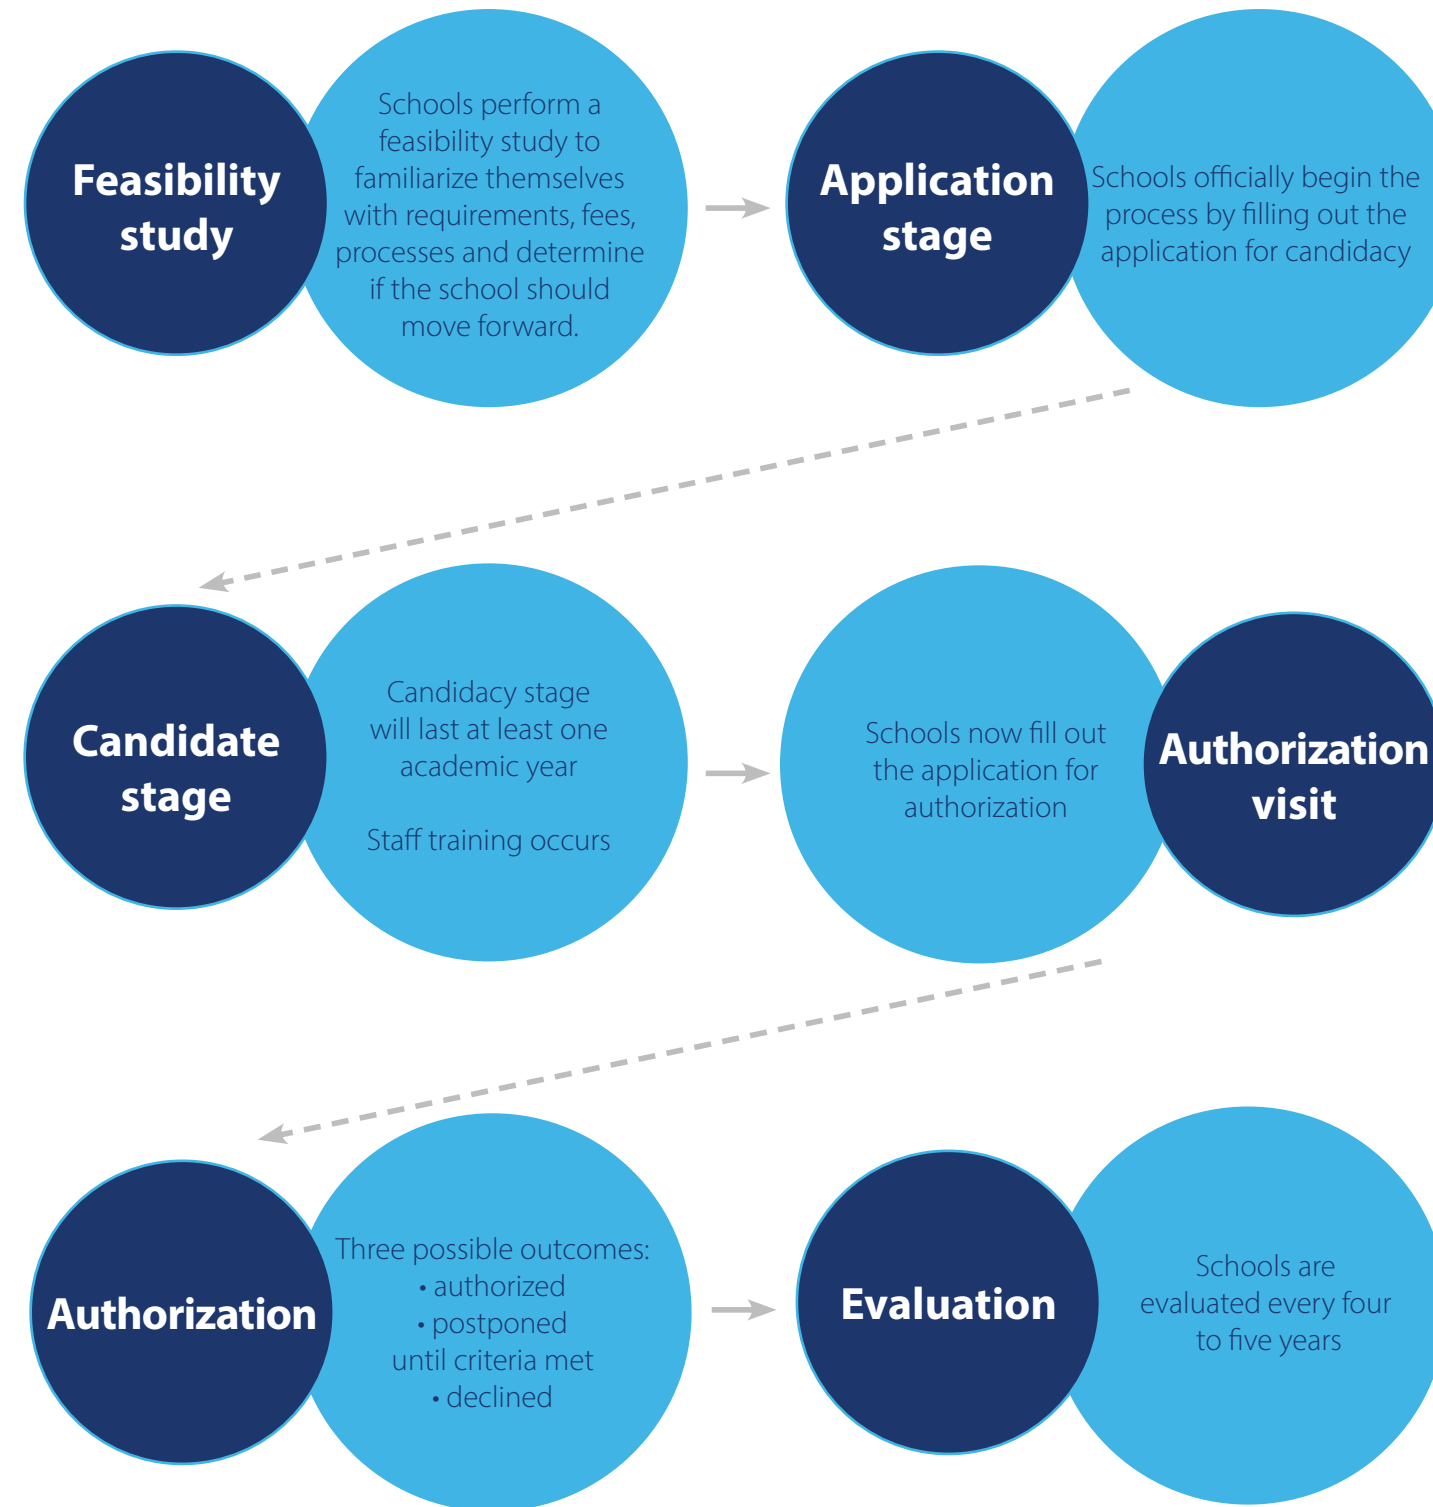

57% of IB students attended a more selective college compared to **38%** of non-IB students

80% of IB students persisted at college for at least two years compared to **71%** of non-IB students

THE AUTHORIZATION ROADMAP

The journey toward authorization is an intensive learning period for schools through a transparent and highly supported process. Required professional development helps administrators and teachers further develop their skill-sets in international-mindedness, conceptual understanding and inquiry-based teaching and learning that form the hallmarks of an IB education. Schools will find this a challenging but rewarding process that normally takes two to three years to complete.

The IB in Houston Independent School District 2014-2015

We know how valuable accurate and comprehensive data is to decision makers.

This document summarizes key data and research about IB programmes in your district, your state and the nation.

It includes the most commonly requested data by local, state and federal agencies and is tailored to meet your needs for accountability.
