

Student Council is a student-based civic organization designed to help promote school spirit and leadership among students. The student council helps share students' ideas, interests, and concerns with teachers and school principals. They often also help raise funds for school-wide activities, including social events, community projects, helping people in need and school reform.

R.E.A.L. Boys' Club of Shadydale Elementary will begin in the 2016—2017 year. This program will foster positive core values in our young men to prepare them to be Real, Excellent, Accountable and Leaders among their peer group.

Ladies of Distinction, a club for our female students, will instill positive values and confidence within our young girls. They will focus on academics, social skills and community service.

Shadydale Elementary Motto

'Leading the Way in the 21st Century...

A School on the Move'

Accountability 2015—2016

Shadydale

'MET STATE STANDARDS'

Technology/Robotics/STEM

We are actively exploring the vast variety of careers in technology, educating others about digital safety, coding for computer programming, and building robots that maneuver via student produced codes. Students also have the opportunity to use green screen technology to create original videos and video game effects. We offer free exploration time to students that may not have internet or computer access at home.

Our Vision

Our vision is to cultivate strong foundational skills that promote life-long learning and self-sufficiency equipping our students to become global graduates.

Our Mission

The mission of Shadydale Elementary is to maintain high expectations and promote academic excellence for all students by creating a nurturing environment for teachers, students, and the community.

Bilingual Classes

Bilingual Classes are available to all students in all grades who speak Spanish and are English Language Learners. English support is provided on a daily basis to ensure that our English Language Learners are bilingual and biliterate.

Spanish Language Enrichment

Kindergarten students have the opportunity to learn in both English and Spanish. One grade will be added to this new initiative every year to provide a continuum of learning. Call the school registrar for more details.

In the Spanish Language Enrichment model, English speaking students will acquire a second language, learning Spanish for approximately an hour a day. Conversational Spanish should spark the desire to become bilingual and biliterate.

Many English speaking students in grades K—5 will participate in our new Spanish Ancillary class. This is also designed for English speaking students to acquire a valuable second language.

Music/Drum Line

Students learn music fundamentals in a supportive, nurturing environment. Many of the materials used coordinate with ongoing study in the students' classrooms. Music is a wonderfully effective means to explore multicultural traditions, world history, and languages from around the globe.

Health and Wellness

Shadydale Elementary in partnership with the Sonima Foundation offers Health and Wellness classes to K-5 students using age appropriate, mindfulness-based tools that encourage and empower children to lead happy and healthy lives. The Health and Wellness curriculum provides young people with skills that minimize stress, lower incidences of bullying and violence, and improve school attendance and academic performance. The class offerings consist of best practices in health and wellness, including exercises based on yoga, mindfulness practices, and nutrition education. The Health and Wellness class aims to equip students with tried-and-true techniques for lifelong health and wellness through the application of five principals: body, breath, mind, attention, and engagement.

Ram Cheer & Ramette Dance/Twirl

Our vision is to provide experience, encourage, and enlighten youth in the community not only through visual and performing arts but through community service as well. Our organization is about so much more than talent. With our coaches, all of the children receive help on an academic level and are given daily lessons on how to form a sisterhood amongst one another.

Shadydale Rams Elementary (Co-Ed) Basketball

Sport is an ideal activity to support character development. Moreover, the intentional focus on developing good character in student-athletes can positively transform teams, schools, and communities. It creates a secure, thoughtful, encouraging environment where students flourish academically and athletically. Here at Shadydale, our basketball program acts as an outlet for our students by creating a family environment among our student athletes as well as preparing them for the next phases of their lives for years to come. Our coaches look to implement things such as ...

- Serve as a role models and teach positive values through sport;
- Communicate coaching philosophy of teamwork to players and parents, articulating expectations and goals;
- Provide opportunities for personal growth and life lessons, involving players in identifying individual, personal goals for themselves.

Shadydale Soccer Team

We have developed a youth soccer program with special rules and training to ensure a maximum of fun, fairness, self-esteem building, success, and an overall positive experience in which every player can realize positive behavior values and parents are positive fans "For the Kid".
