

Edgar Allan Poe Elementary School

SDMC Minutes
November 20, 2015

Minutes from the previous meeting were approved.

New Business

There were no SDMC Input Forms submitted.

Since there were no input forms, Mr. Amerson asked the committee to discuss a couple of things listed below.

1. Circle drive in the front to alleviate pick-up and drop-off concerns?

While the pick up procedures have greatly improved with the creation of the pick-up lane, the morning drop-off is still horrible. A parent group is forming to help in the morning. The SDMC would like Mr. Amerson to continue the exploration of adding a circular drop off in the front of the school.

Mr. Amerson asked the teachers present how the rainy day dismissal worked (we'd just had a rainy day dismissal on the meeting date). Answers were all positive and included the following statements: "blissful," "smooth."

2. Committees- how do we get this off the ground?

Mr. Amerson expressed his concern that committees haven't met and aren't doing anything. He explained how courtesy committees worked on other campuses that included collecting money from members and then using that money to send flowers, etc for weddings, illness, death.
