

# Reading comprehension questions to use with any story.....

1. Have your child read the first page of the story. Ask your child what do you think will happen in this story?
2. Have your child read the story.
3. Ask your child to tell you what happened in the story. You will be listening to see if your child includes: character, setting (time and place that the story happens), important details, story events in sequence, ending.
4. Ask your child to tell you more if they omit some of this information.
5. Ask your child to tell you about the problem in the story (not all stories will have a problem and solution) and to explain to you how this problem was solved. This is the solution.

Keep these suggestions in a safe place and use them to help your child each day as you share their home readers, reading book or library book.

Many of your children read beautifully, but cannot retell the story and remember important information that they have just read. This skill takes practice.

**Here are a couple of websites that have our stories of the week read online. This might help your child prepare for the reading comprehension test!**
