Demographics

Demographics Summary

Samuel C. Red is a Science, Technology, Engineering, and Math STEM Magnet school that serves students from PK through 5th grade with a diverse student body that includes African American, American Indian, Asian, Hispanic, and white students and students of two or more races. The demographics of percentages by each group are based on the Summer PEIMS submission. Red is a school-wide Title I campus. Students attending Red are primarily transferred from surrounding schools (397 based on HISD Research and Accountability). Our campus provides Bilingual and ESL classes to serve Emergent Bilingual students. Teachers are trained to serve Gifted and Talented students during the school day. Special Education classes and services include Early Childhood Special Education, Skills for Living and Learning, Structured Learning Classroom - Alternative, Resource, and Speech Therapy. On average, our student-to-teacher ratio in Kindergarten to 4th grade is 22 to 1. Fifth-grade classes average a 24 to 1 student-to-teacher ratio. Last school year, attendance was 92.3%. Red has monthly homeroom celebrations for the class with the highest attendance to boost attendance percentage. The data is tracked on a chart in a hallway to motivate student attendance. The office staff and school administrators make phone calls to parents whose child has had 3 consecutive absences.

**Economically Disadvantage**

Red is supported by an active Parent Teacher Organization, PTO. The PTO raises funds through yearly fundraisers, school events such as an annual carnival, and the After School Care Program. The PTO supports the campus with instructional materials and a part-time Art teacher. PTO also coordinates teacher appreciation events to develop a positive school culture/environment.

**Demographics Strengths**

Red's demographic strengths mirror the district demographics in percentages by race and ethnicity. Students learn to accept diversity as students collaborate with students of diverse races/ethnicity and with students in SPED self-contained classrooms.
