

Gifted and Talented Information 2018- 2019

Universal Testing dates for Kinder and Fifth grades have been set already. If your child was not previously Qualified they will be tested during this window. They will take two separate tests; an achievement test and an abilities test and **do not need an application for this testing**. If they have previously Qualified for GT they will not be tested again.

Students who are enrolled in first through fourth grades and were not previously qualified can be tested in the GT window which is December 1st through January 11th. This testing is done either by parent request or teacher recommendation. In order for your child to be tested in this window we **MUST have a signed application**, you can get the application either by requesting through your child's teacher, emailing me directly (hdziedzi@houstonisd.org) or come by the front office. When you email me, please be sure to include your child's name, teacher's name and subject should be GT testing request. Not every first through fourth grade child will be tested unless requested or recommended.

Students who are currently in Pre-K and will turn five by 09/01/2019 will also have an opportunity to be GT tested, either by parent request or teacher recommendation. This window does not open until February. The applications for this window are not yet available. Your teachers will be notified when available and if you want to request please let your child's teacher know or see above information for my email.
