

Many Memories from my Family

by

Joana Dominguez

I am from a neighborhood
filled with trash or garbage all over the streets.
I am from graffiti apartments and half broken streets.

I am from the cats and dogs that
always like to sit on your front porch
and wander on your house to sleep.

I am from candy and treats,
from Maria and Ausencio (grandparents).

I am from the gossip ones.
and the ones that care about education.

I am from the family that like to go to
the parties that my uncles and aunt invite us to.
I'm from the photo albums and boxes filled with collections.

From the smell of the sweets my grandma sends
From the pies of cousins and aunts in Mexico.

I am from the bag of treats and pics and things that are
in my table.

I am from hard times that,
I would like to remember by seeing
pictures and memories in pictures.
