

Agenda

June 1, 2023

School Decision Making Committee

Meeting time: 3:00– 4:00 p.m.

Location: Room 109

- I Progress on school goals as measured by the School Improvement Plan and Targeted Improvement Plan.
- II Summer Master Schedule and professional development for teachers and staff
- III Topics for next meeting.

Notes _____

School Decision Making Committee

Agenda

June 1, 2023

Meeting time: 3:00-4:00 PM

Location: room 109

1. Progress on school goals as measured by the School Improvement Plan and Targeted Improvement Plan
 - a. Goals were set in two areas at the start of the year: attendance, referrals.
 - b. Another section examined was in reference to exam scores.
 - i. Where are we in terms of raw numbers? Spring scores don't include December scores and last summer's scores. If a student retests, only the highest score counts in the accountability cycle.
 - c. A Student Data sheet was shared with the committee.
 - i. New students taking the test for the first time (First year newcomers) are factored out of the final results.
 - ii. Concern: comparing our EBs to other campuses may not be the best measure as most of our students did not attend middle school in the district or perhaps this country.
 1. Observation: when compared to other EBs, our campus has traditionally outscored other campuses.
 - iii. Raw score averages for Liberty, the district, and the state were shared.
 - iv. There are still some outstanding variables; final accountability results will be shared in August.
2. Professional Development
 - a. Math department is attending Carnegie Training this summer to implement a new math curriculum for Algebra 1, Geometry, and Algebra 2.
 - b. June 13th – new Canvas user training; June 20th- advanced Canvas user training
 - c. June 13th – principal/administration training
 - d. Summer lesson planning: creating units and plans, and training to support those areas.
 - i. Does that happen after the summer session? Or does that happen on Fridays?
 - ii. What is the actual focus for those planning sessions? The focus and goals will be determined prior to starting work on plans and units.
 - iii. The goal would be for end products to be completed by specific dates.
 - e. Training on the new grading system will also be available.

Preliminary ^{SPK} Results
