Extra help for at-risk pregnancies

Personalized nurse support
If you have a health condition or other risk that could affect your pregnancy, we can help. Our nurse case managers will work with you to manage or maybe even lower those risks.

Helping you deliver at the right time
In most cases, full-term babies have fewer health problems than preterm babies. So if you’re at risk for early labor, we’ll explain the signs and symptoms and help you lower those risks. We’ll also talk about treatment options.

Visit the Maternity Support Center
This no-cost resource is available through your member website and offers information about the maternity journey. Whether you are planning for baby, already pregnant or postdelivery, it is personalized for you. It’s where you can find:

- Prepregnancy checklists
- Coverage details, like ultrasound costs
- Breastfeeding and postpartum support
- Baby-care tips
