Room: 1319

Conference: 2nd Period **Phone:** 713-688-1361 **Program:** SLL **Tutorials:** Before 1st period as needed.

Course Content

During the 2018-19, the students will be working on functional and academic skills in the classroom and community to support skills needed to successfully transition into an 18+ program, continue to postsecondary education or become a productive citizen after high school graduation.

Curriculum

Unique Learning Systems

Ongoing Objectives by Content

English: By the end of this course, the student will develop skills at an individual level in the areas of reading, writing, speaking and listening based on his/her IEP.

Science: By the end of this course, the student will develop skills needed to gain a foundation of processing skills, leading to organized reasoning, analytical thinking and problem solving abilities based on his/her IEP.

Vocation: By the end of this course, the student will develop skills needed to improve independence and transition successfully into the community based on his/her IEP.

Employability: By the end of this course, the student will develop skills at an individual level to gain access to a job, volunteering or positive engagement in the community based on his/her IEP.

Grading:

Classroom Assignments:	35%
Community Assignments:	35%
Participation/Observation:	15%
