

To Download the STAAR App from the Microsoft Store at Home

Some applications may not be found or fail to install from Software Center.

If the access to Software Center does not work, students must use the HISD-managed Microsoft Store, instead of Software Center, to install some online testing applications. The HISD-managed Microsoft Store is available both on- and off- campus.

IMPORTANT: The installation from the HISD-managed Microsoft Store may NOT overwrite the older version of a testing application visible on the desktop. To find the new version that was just installed, students must go through the Windows Start button.

<p>Microsoft Store</p> 	<p>Click on the Microsoft Store: It is located at the bottom of screen on the taskbar. If not search "Microsoft Store"</p>	
	<p>You may see the following messages, if you have not visited the HISD Microsoft Store</p>	<p>2. Type your student email address in the format s + your id number@online.houstonisd.org and click Next</p> 
	<p>Log in to the Single Sign On Service</p>	<p>3. A new window for single sign on will open. Enter your email address in the format s + ID number @online.houstonisd.org and password (your date of birth) in the format mmddyyyy; then click Sign In</p>

After a few seconds, the window titled Microsoft Store will appear. If an empty window appears with the message “Try that again”, ignore the message and wait a few seconds longer until the Microsoft Store window appears.

NOTE: If the STAAR testing application is not appearing, then click on the three dots on the upper right and select “Downloads and updates”, and then select “Get updates”.

Click on Search, located on the top right corner

Type in the search bar “STAAR”

	<p>Choose STAAR 3.19 and Download to your laptop.</p> <p>RESTART your laptop</p>	 <p>STAAR 3.19.0</p>
