Tips for Success

- Be patient with yourself and your teachers. This is new for everyone.
- Allow for some extra time to get setup for an online meeting or to complete a recording assignment.
- Check your Remind messages and Microsoft Teams Classrooms regularly.
- Designate a space at home that is free from distractions for practicing your instrument
- Use a wired connection for internet whenever possible. WiFi and fast cell phone connections will work, but they can be less reliable.
- Turn on your video connection and mute your microphone when joining a Microsoft Teams meeting.
