How do I start a live video on Instagram?

You can share a live video to connect with your followers in real time for up to one hour. Once a live video has ended, it's no longer visible in the app, unless you share a replay of it to IGTV.

To start a live video from the Instagram app

1. Tap  in the top left of Feed or swipe right from anywhere in Feed.
2. Scroll to **Live** at the bottom of the screen, then tap .
3. The number of viewers appears at the top of the screen and comments appear at the bottom.
4. You can add a **comment** by tapping Comment at the bottom of the screen.
5. Tap a comment and tap **Pin Comment** to pin it so that viewers can see it more easily.
6. When you're done, tap **End** in the top right then tap to confirm. From there, you can tap  in the top left to save it to your camera roll, or share it to IGTV.

Keep in mind that when you save your live video to your camera roll, only the video is saved, and not things like comments, likes and viewers. It may take a minute for your live video to save to your phone, especially for longer videos.

Facebook LIVE

<https://www.facebook.com/facebookmedia/solutions/facebook-live>

Go live on Facebook to broadcast a conversation, performance, Q&A or virtual event. You can go live on a Page, in a group or an event, and your live videos will also appear in people's News Feed.

How to use Facebook Live on a phone

Broadcast to your Page, group, profile, or event from anywhere in the world using the Facebook app (available on iOS and Android).

1. Navigate to the Page, group or event you want to live stream from.
2. Tap the **Live** button at the bottom of the post composer.
3. Add a description to your video. You can also tag friends, check in to a location, and add a feeling or activity.
4. Tap **Start Live Video**.
5. Tap **Finish** when you want to end your broadcast.
